mannlakeltd.com

Welcome from MANN LAKE!

Dear Fellow Beekeepers,

Over many generations beekeepers and scientists have done an incredible job discovering, documenting and sharing the wonders of bees and their behaviors. Our knowledge about these amazing creatures grows year by year. Even so, when I crack open one of my hives to see what's going on, there are still many times that I'm perplexed by something I see. Knowledge about bees is hard-won, and ignorance comes at a high price.

As the largest supplier of beekeeping equipment and supplies, our team wants to give beekeepers not just the things, but also the knowledge they need to succeed. This year we have launched several new initiatives to provide free resources to all beekeepers.

For those of you who have not yet seen our Beekeepers' Buzz monthly videos, please visit our YouTube channel and subscribe. These videos give month by month, region-specific advice about what to do in your hives.

Also, when you visit our website, please take a moment to chat with our new AI-driven beekeeping assistant, Bella. We partnered with a leading AI firm to train Bella on beekeeping, and we think you'll be amazed at the quality of her assistance. Ask her anything about your bees or equipment, and if she fails you, we still have a call center staffed with knowledgeable, trained beekeepers.

If you're a fan of podcasts, check out our new collaboration with Eric Bennet called Bee Love Beekeeping Podcast. It's a weekly discussion with beekeepers about various topics of interest and fun.

Finally, download our new beekeeping app. In addition to our store, it includes a library of instructional videos, including the Beekeepers' Buzz, as well as a Plant ID function that will help you identify bee-friendly plants in your region. We compiled a database of nectar and pollen sources from dozens of reputable beekeeping publications in order to allow the app to instantly tell you if the plant in your picture is known to be good forage for bees. We're also working on new functionality in the app that we'll be introducing in the coming year.

Thank you all for being customers of Mann Lake and stewards of the bees. Happy beekeeping in the coming year!

Sincerely,

Rob Wright

Chief Executive Officer

ON THE COVER

Clearwater Honey, launched in 2024 by Kyle and Rachel Ford, is a heartfelt tribute to their passion for bees and their commitment to crafting small-batch, local honey. Nestled in the serene beauty of Clearwater, FL, their backyard apiary flourishes amid a vibrant tapestry of wildflowers.

What began with three hives, started from nucs purchased at Mann Lake's Winter

Haven location, has blossomed into a thriving operation. Kyle and Rachel take pride in every jar of honey, knowing it's not only a taste of nature but a testament to the harmony they've created between their bees and their environment.

Pictured on the cover is a stunning macro shot of one of their hardworking bees, a true symbol of the dedication and love poured into Clearwater Honey. As Kyle and Rachel like to say, "Great honey starts with

LABEL KEY

We make custom labels for \$13/roll. See pg 140 or our website.

Ensure the perfect fit!
Use this guide to match your label to the right bottle or jar!

	Large Oval	2 5/8" x 4 1/2"
	Small Oval	1 3/4" x 3"
	1 1/2 Bear	2" x 2 3/8"
	12 oz Bear	1 5/8" x 1 15/16"
	6 oz Bear	1 5/16" x 1 7/16"
	Round Jar Label	4" x 2"

FREE SHIPPING KEY

*Free Shipping is on most orders over \$150. Items marked  do not qualify for free shipping. See page 160 for complete shipping and ordering information.

2 YEAR WARRANTY KEY

Enjoy peace of mind with our 2-year warranty, designed to protect your investment and ensure lasting performance. We stand behind the quality of our products, so you can focus on what matters most—your bees and your beekeeping success.

NEW PRODUCT ALERT!

Look for our New-Bee icon in the catalog! It highlights top picks from both our staff and fellow beginners. These items combine quality and budget-friendliness, making them perfect for starting your beekeeping journey!

NUCS FOR PICKUP!

A nucleus hive (nuc) is a small, active colony housed in a temporary nuc box. It includes 4-5 frames with drawn comb, a mated queen, workers, brood at various stages, and food stores (pollen and nectar). Since the colony is already developing, the bees can be more protective than package bees, but they're further along in growth. Package bees, on the other hand, come without frames, brood, or comb. Call or visit our website for pickup dates.

WOODLAND, CA

California Italian (5 Frame) **\$249**

Effective foraging habits
Strong cleaning behaviors

MANN LAKE HAS QUEENS AVAILABLE YEAR ROUND! CHECK OUT OUR PACKAGE BEES AND PACKAGES WITH VACCINATED QUEENS.

PREMIUM QUEEN BEES

We work with multiple, reputable breeders to offer the largest selection of premium honey bee queens. We recommend replacing queens every 2-3 years or when you start to notice a spotty brood pattern in your hive. Our queens are guaranteed to lay within 10-14 days of being released from the queen cage. All queens are unmarked. We offer two options for shipping queens to ensure that you get your queens the fastest and safest way possible. See below for shipping options available by breed.

Why Choose Honeybee Genetics Queens?

- Leaders with four decades of experience
- Focused on keeping healthy and hygienic honey bees
- Breeding stock is continuously tested in partnership with the USDA, UC Davis and the Bee Informed partnership for hygienic traits to help with resistance to Varroa and other diseases

Why Choose Hawaiian Bred Carniolan Queens?

- Top Honey Producers
- Adaptive to Tough Environments
- Excellent Brood Control
- Exceptional Genetic Line

VISIT OUR WEBSITE OR CALL
for additional details on all our queens!

Select Queens available for pickup at our stores. Call or visit our website for details.

Mann Lake guarantees a live, fertile queen. If your package arrives with a deceased queen please take a photo and continue to install her as normal. Please contact us within 24 hours for a replacement. For issues with the performance of your queen Mann Lake must be contacted within 14 days of the ship date for a replacement. Email: queenhelp@mannelakeltd.com

SOUTHERN BRED BEES

All these breeds have a high honey yield. We recommend them to any beekeeper who desires to grow a productive honey bee colony for personal or commercial purposes. Some of our breeds are for pick up only, so be sure to check our online inventory when making your selections. When shipping honey bees, we take care to package them in specially designed containers that are well ventilated and equipped with a food source.

Premium Wax Dipped Complete 10 Frame Hive Kit

WP160 Painted 10 Frame

\$199.95

Why Choose Wax Dipped?

This kit is made in the USA, wax dipped in a proprietary, bee friendly wax blend specifically formulated to enhance longevity of your woodenware. Woodenware is dipped at a high temperature, sterilizing the wood, boiling moisture out and allowing the wax to impregnate the wood, resulting in up to 25 years of use in the field. Not only does wax dipping offer excellent performance benefits, it provides a beautiful finish on the hive that will look great in your apiary!

What's Included?

This kit comes completely assembled, featuring one wax dipped commercial grade hive body, 10 assembled frames with black Max Wax RiteCell foundation. The 10 frame wax dipped screened bottom board features a stapled-in screen that is reinforced to add extra strength. The slanted front of the bottom provides a landing board for your bees. On top, the 10 frame telescoping cover is also wax dipped to ensure you have protection from the elements for years to come. The 10 frame notched inner cover and entrance reducer are not wax dipped.

- 1 - 9 $\frac{5}{8}$ " (24.45 cm) 10 Frame Assembled Deep Hive Body with 10 Assembled frames w/Black Max Wax Coated RiteCell Foundation
- 1 - 10 Frame Assembled Screened Wax Dipped Bottom Board w/Reducer
- 1 - Assembled Wax Dipped 10 Frame Telescoping Cover w/Notched Inner Cover
- Entrance reducer and notched inner cover are not wax dipped

Once your bees draw out most of the foundation, you can add a second deep hive body or honey super. Don't forget a feeder to complete your kit!

Recommended Add-ons: HD709 Hive stand, FD505 ProFeeder

My Next Hive Assembled

MB110 Painted

\$453.95

Choosing the hive setup to expand your apiary has never been easier! Whether you are new to beekeeping, increasing with a nuc or package, or splitting existing colonies, this complete hive bundle is the perfect choice.

- ✓ CRAFTED IN THE USA**
 Our hive bodies and supers are crafted with a precision cut interlocking box joint. Featuring pre-drilled holes and easy-grip hand-holds, it's ready to be assembled. Choose your unassembled boxes from two grades of pine: Commercial or Budget.
- ✓ PRECISION & STRENGTH**
 These boxes have a precisely cut ³/₈" rabbet that allows for the proper bee space as well as precision cut interlocking box joint for added strength. All boxes feature improved wider, deeper hand holds.
- ✓ HIGH-QUALITY GRAIN**
 All of our boxes are crafted from hand-selected, high-quality Ponderosa Pine. This is the most lightweight and durable knock-down box!
- ✓ FIT GUARANTEE**
 We guarantee your unassembled woodenware fits. Notify us within 30 days of receipt of any fit issues and our customer service team will work with you to replace any defective product.

DISCLAIMER: Call to order 7 ⁵/₈" boxes and frames.

Nails
 HD210 7D - approx 200 nails **\$4.95**
 These resin-coated specialty nails are specifically designed with a smaller diameter to reduce splitting and cracking during assembly. Use 7D nails to assemble hive bodies and supers. 2-1/4" 13 gauge

Lumber Crayons

HD597	Red	\$2.95
HD599	Red - 12 pack	\$15.95
HD598	Blue	\$2.95
HD600	Blue - 12 pack	\$15.95
HD603	Lumber Crayon Holder	\$15.95

These crayons last up to 10 times longer than ordinary molded wax crayons. Fade, water and smear proof. Won't melt in direct sunlight. Works on wet (green) or dry lumber, metal, concrete and other. Perfect for marking hives to keep track of treatments, re-queening, and medication dates. Don't forget the Lumber Crayon Holder, sold separately. The walnut handle ensures the perfect grip for your lumber crayons. Helps make your crayon last longer, resists breakage, and it's easier to hold!

Hive Decal Stickers

GF462	Tri-Color	\$5.95
GF463	Yellow	\$5.95
GF464	Red	\$5.95
GF465	Blue	\$5.95

Bring your hive to life with our vibrant Hive Decal Stickers. These UV-protected and weather-resistant stickers are sure to please you, as they'll last for several seasons. Single bee decal sticker is available in yellow, red, or blue. 6" x 6"

PRECISION-CUT UNASSEMBLED BOXES

SELECT GRADE

Our highest grade of box, produced from New Zealand Radiata, features only small tight knots, low moisture content and is crafted in the USA.

Unassembled Select Grade Box								
10 Frame	WW500	9 5/8	1-4	\$24.95	WW505	6 5/8	1-4	\$23.95
			5-35	\$23.95			5-35	\$22.95

			250+	\$19.95			250+	\$18.95

COMMERCIAL GRADE

We pride ourselves on the premium materials and milling of our unassembled boxes. All of our lumber is sustainably harvested from FSC certified forests. Made with quality in mind, each Ponderosa Pine plank is sliced precisely for lightweight and lasting durability. Our most popular grade. Tight, solid knots, small pitch pockets and small, tight cracks are acceptable for this grade. Imperfections that interfere with the structure and functionality of the box are not accepted.

THE RITE WAY WITH RITE CELL!

Build your hive on a strong foundation. Rite-Cell® is our most popular foundation for a reason. Coated with all natural beeswax from beekeepers in the USA, your bees have a head start to draw quicker in these 5.1mm cells.

Now with
25% MORE WAX!
on all regular coat RC

- ✓ **STRONGER THAN THE COMPETITION**
 Our sheets are longer and stronger to ensure they will stay in your frame during extracting. Our durable, food-grade plastic injection mold holds up to many extracting seasons.
- ✓ **EASY TO INSTALL**
 Snaps easily into a groove top bar and bottom bar frame
- ✓ **NO WAX MOTH DAMAGE**
 The textured cell interior features deeper cells and sharper edges for quick acceptance. Plus it's impervious to damage

Our assembled frames are glued and stapled, with an added under ear staple for additional reinforcement, making our frames the strongest frame on the market.

MAX WAX RITE-CELL® FOUNDATION

These MAX WAX foundations allow your bees to draw comb faster than ever before, giving your bees more time to make honey! Get to your goals faster by giving your bees the heaviest wax coating available.

✓ PREFERRED CHOICE

With nearly triple the amount of wax, bees will draw out quicker than any other foundation. Plus, our sheets are made of stronger and more durable food-grade plastic that holds up to many extracting seasons.

✓ MAKE HONEY FASTER

The textured cell interior features sharper cell edges for quick acceptance, so your bees can make honey faster. Plus it's impervious to damage from wax moths.

✓ TEXTURED CELLS

Encourages bees to successfully draw out the foundation to raise brood and store nectar and pollen. Our cells are deeper and heavier than the competition.

✓ HIGH-QUALITY DESIGN

We glue AND staple our frames for durability! Our frames feature high precision cuts and an unparalleled fit and finish. Plus, it's made to fit standard equipment and any uncappers - compatibility is a breeze.

✓ BEES LOVE IT

With sharper cell edges for quicker acceptance, bees love our Rite-Cell foundation and frames! Rite-Cell features deeper cells and higher definition. Upgrade to MAX-WAX for the heaviest coating available, which means your bees have more time to make honey.

✓ EASY TO INSTALL

Snaps easily into a groove top bar and bottom bar frame.

SEE THE DIFFERENCE!

PERSONALIZE IT!

Personalize your frames with custom ink jet printing. We can add business name, apiary number, or year! Call us at 833-215-3040 to get a quote on imprinting your frames. (1000 minimum order) Personalizing your frame deters theft and makes for easier identification.

PERMA-DENT®: THE ECONOMICAL CHOICE

Our waxed Perma-Dent foundation slips easily into frames and is ready for use upon arrival at your door. Perma-Dent is extruded, using less plastic, making it a more economical and affordable option for beekeepers that allows you to expand your beekeeping operation while remaining budget conscious. This foundation includes 5.4mm cells, just slightly bigger than our Rite-Cell®.

Made of 100% Virgin Resins!

Virgin resins are made up of plastic that has not been recycled before. This makes stronger, more durable plastic foundation.

This makes stronger, more durable plastic foundation

- ✓ FASTER COMB**
Encourages comb building and gives bees a head start. Plus, it slips easily into a groove top bar and groove bottom bar frame.
- ✓ EASY TO INSTALL**
We've removed the breakaway corners for you so bees have communication holes for movement throughout the frames.
- ✓ NO WAX MOTH DAMAGE**
This plastic is impervious to damage from wax moths and holds up to extracting.

UNASSEMBLED

Assemble 10 frames at a time!

Frame Assembly Jig

WW196

\$39.95

Make it easier to assemble your frames! Assemble up to 10 at a time. Fits all Langstroth frame sizes. Ships unassembled with all hardware required for assembly.

Metal Frame Savers

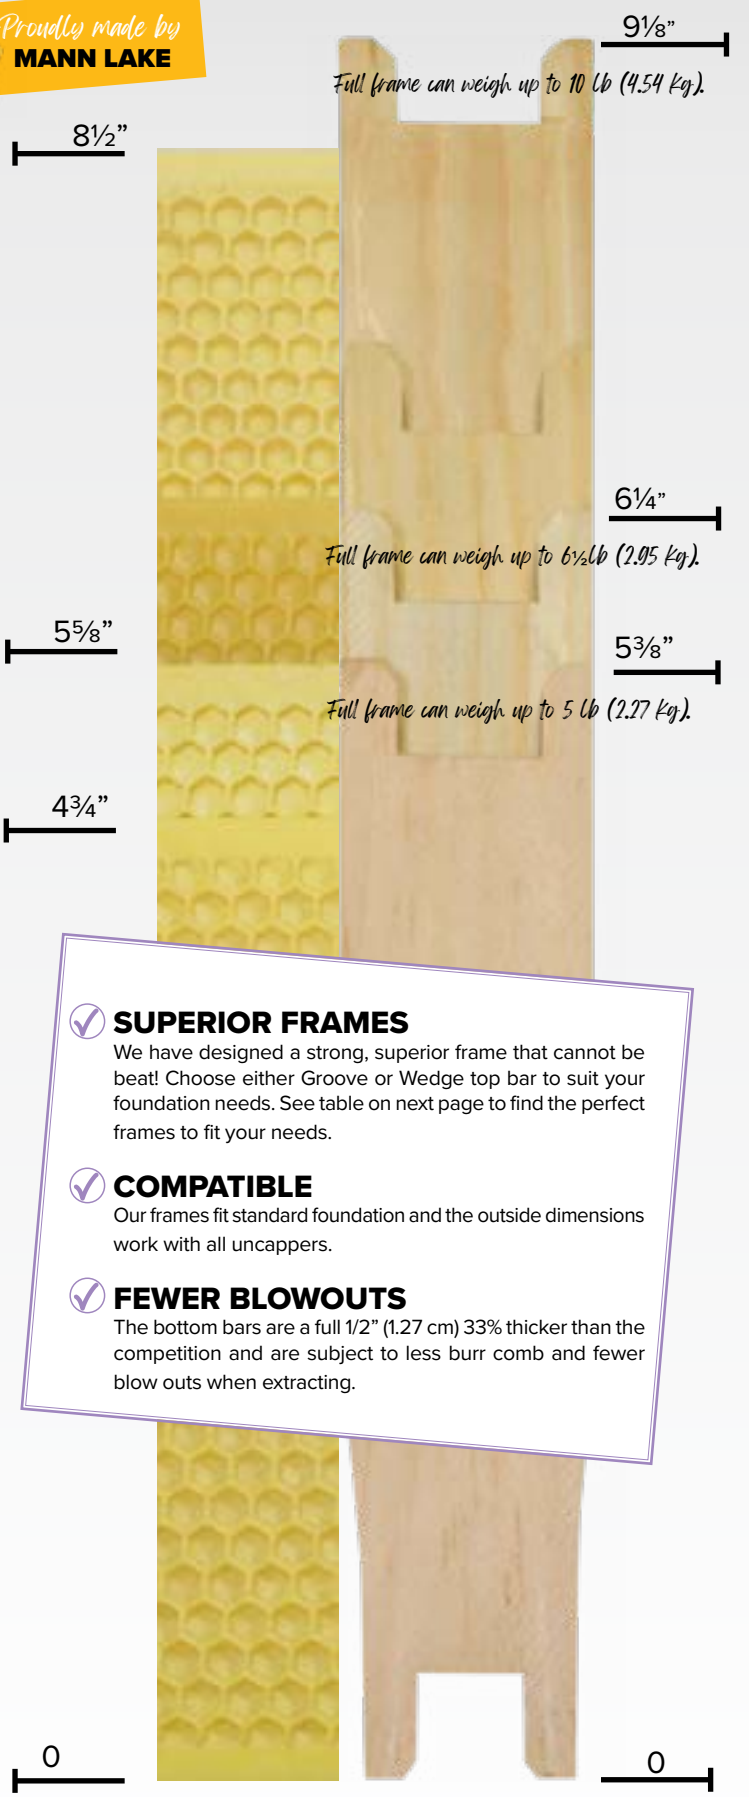

HD640	10 Pack	\$12.95
HD647	500 Pack	\$339.95
HD271	3/4" 15G - approx 2,000 nails	\$5.95

Repair broken ears on your frames with our proprietary 20 gauge galvanized steel frame savers. Place frame saver over broken or cracked ear, nail into the frame, and your frame is as good as new. Frame Saver nails included. Made in the USA.

Nails

HD210	7D - approx 200 nails	\$4.95
HD220	1 1/4" - approx 1,150 nails	\$9.95
HD245	3/4" 18G - approx 2,600 nails	\$12.95
HD250	5/8" - approx 3,900 nails	\$11.25
HD271	3/4" 15G - approx 2,000 nails	\$5.95

These cement and resin-coated specialty nails are specifically designed with a smaller diameter to reduce splitting and cracking during assembly. Use 7D nails to assemble hive bodies and supers. 1-1/4" Nails are used to attach top and bottom bars to end bars. 18G-3/4" Nails are used to attach bottom bars to end bars or under the frame ear going from the end bar into the top bar. 5/8" nails are used to attach the wedge back to the top bar (you can also use these with frame spacers). 15G-3/4" nails are used attach frame savers.

- ✓ **SUPERIOR FRAMES**
We have designed a strong, superior frame that cannot be beat! Choose either Groove or Wedge top bar to suit your foundation needs. See table on next page to find the perfect frames to fit your needs.
- ✓ **COMPATIBLE**
Our frames fit standard foundation and the outside dimensions work with all uncappers.
- ✓ **FEWER BLOWOUTS**
The bottom bars are a full 1/2" (1.27 cm) 33% thicker than the competition and are subject to less burr comb and fewer blow outs when extracting.

How to Choose Your Frame

	Top Frame	Bottom Frame	End Bar
Plastic Foundation	Groove Top Bar	Groove	No Holes
Beeswax Foundation	Wedge Top Bar	Split or Groove	Holes

Wedge top bars, split bottom bars, and end bars with holes (horizontal wiring) are all generally used with pure beeswax foundation which needs extra support within the frame.

Groove Top Bar

Wedge Top Bar

Wedge comes attached to the top bar

100% NATURAL WIRED BEESWAX FOUNDATION

Our wax foundation has vertical wires for added stability, plus the beeswax is sourced from beekeepers like you. It is best to cross wire in your frame as well. Wax is melted around each wire so it won't slip. Hooked wires are at a 90 degree angle to ensure the foundation lays flat when inserted. We take pride in our quality foundation sheets.

10 embedded wires add strength while the bees draw comb

With or without hooks

Hooks make it easy to place under the top bar wedge to hold it up

Special shipping restrictions may apply to wax foundation during cold-weather months.

SMALL CELL FOUNDATION

The wire on the foundation “with hooks” extends past the top of the wax so it can be placed under the “wedge” on the top bar to help hold it up.

WIRED SMALL CELL (4.9 MM) FOUNDATION

8½" x 16¾" fits 9½" Wedge Top/Split Bottom Frames

- FN232 25 lb (11.34 kg)/approx 270 sheets

\$25.95
\$99.95
\$299.95

What's Small Cell Foundation?

Some believe that the 4.9 mm cell impedes the Varroa Mite's ability to reproduce and that it helps to breed a more mite-resistant bee. Most bees will need to be introduced to this foundation gradually. For best results, use a wedge top bar and split bottom bar.

We Buy Wax!

We offer a wax working plan for 25 lb. bulk packs only. Bring in your foundation and trade for 25lb boxes of natural beeswax foundation. Additional charges will be assessed for less than 25 lb. per carton packaging (such as 10 and 50 sheet packs) (Special sizes – 200# wax working minimum or an additional \$110 set-up charge applies. Small cell orders under 200# will have a \$300 set up fee.)

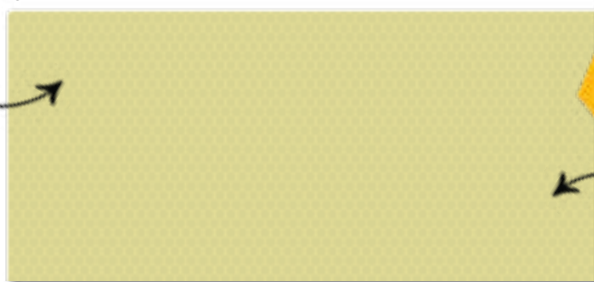

Please call 833-215-3040 for details.

PLAIN FOUNDATION (UNWIRED)

100% pure un-reinforced beeswax foundation has multiple uses. For best results, use a wedge top bar and a split bottom bar. Must be reinforced with cross wiring if using in a hive.

Great for making hand-rolled candles

No embedded wires

Proudly made by
MANN LAKE

Can be used with multiple styles of frames!

Wax Foundation Holders

HD169

\$33.95

Reusable brackets to quickly and easily install and stabilize beeswax foundation sheets in standard Langstroth frames without the use of pins, wires, or tools. Compatible with shallow foundation sheets. Sold in packs of 60.

SMALL CELL (4.9 MM) PLAIN FOUNDATION

- FN196 50 sheets **\$78.95**
- FN197 25 lb (11.34 kg)/approx 400 sheets **\$78.95**

4¾" x 16¾" fits 5⅝" Wedge Top/Split Bottom Frames

- FN165 10 sheets **\$49.95**
- FN164 50 sheets **\$76.95**
- FN166 25 lb (11.34 kg)/approx 450 sheets **\$349.95**

4" x 16¾" fits Ross Round Visicheck Frames

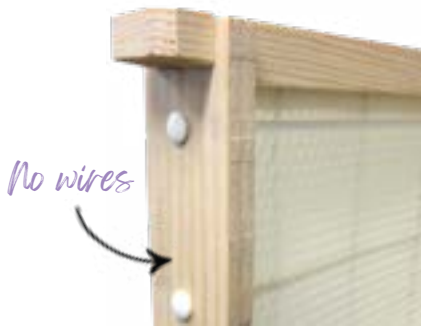

- FN135 10 sheets **\$49.95**
- FN107 50 sheets **\$74.95**
- FN136 25 lb (13.60 kg)/approx 650 sheets **\$349.95**

What's Cut Comb?
This is the thinnest pure beeswax foundation available and is used for producing comb honey in either the Ross Round system or by using a standard frame and a comb cutter. For best results use a wedge top bar and groove or split bottom bar. Support pins can be used for extra stability.

Special shipping restrictions may apply to wax foundation during cold-weather months.

FRAME ASSEMBLY AND HARDWARE

Find the right tools you need to help embed your wire into your foundation.

Foundation Rods

HD172 10 pack **\$7.95**
 Designed to put the "easy" in frame wiring! Rods are inserted through the holes in the end bars and secured with a locking nut. For the best results, alternate the rods so they are on both sides of the foundation.

Frame Wire Crimper

HD144 **\$17.95**
 Give your foundation the support it needs! Crimp and tighten your frame wire prior to embedding.

Form Board (Foundation/Embedding)

WW198 **\$18.95**
 Make embedding frame wire simple! Keep your frame in place and provide support to wax foundation when using a spur embedder. Fits 3 sizes of frames.

Eyelets

HD190 100 pack **\$5.95**
 HD185 1,000 pack **\$15.95**

Use eyelets to protect your end bars from gouging by frame wire. Use an Eyelet Punch (HD180) to securely place the eyelets into the holes. Style may vary.

Support Pins

HD175 Metal 100 pack **\$15.95**
 HD176 Metal 1,000 pack **\$115.95**
 HD173 Plastic 100 pack (color may vary) **\$16.95**
 HD174 Plastic 1,000 pack (color may vary) **\$119.95**

Use instead of wire to prevent wax foundation from sagging! Insert the support pin through pre-drilled holes in the end bars to hold the foundation. Preferred by beginner beekeepers who use wax foundation because it is much easier than cross wiring foundation.

Eyelet Punch

HD180 **\$6.25**
 Makes inserting eyelets a breeze! This metal tool is used to seat the eyelets into the end bars of your frames.

Electric Frame Wire Transformer

HD147 **\$69.95**
 Use with our Electric Embedder (HD146) to quickly and easily embed wire in your foundation. This low-voltage transformer is mounted and enclosed within a 4" x 4" electrical box with cord and molded plug end. 110 V.

Spur Embedder

HD145 **\$13.95**
 Make wiring foundation a breeze! Designed to embed wire into wax foundation by rolling the tool over the wire, pushing it into wax foundation.

Wire made for frames!

Frame Wire

HD130 700 ft (227 g) **\$9.95**
 HD135 1,400 ft (453.59 g) **\$13.95**
 HD140 7,000 ft (2.27 kg) **\$39.95**

Extra thin, 26 gauge (.478 mm) steel tinned wire is the support your frames need. Use Eyelets in the side bars to prevent wire from gouging the wood.

Electric Embedder

HD146 **\$69.95**
 For the true do-it-yourself-er! If you're embedding wire, our electric embedder is the right tool for the job. It embeds one wire at a time and heats the horizontal frame wire just enough to make it embed smoothly and easily, all without marring your foundation. Use with Transformer (HD147).

Metal Frame Savers

HD640 10 pack **\$12.95**
 HD647 500 pack **\$339.95**

Use this false frame to effectively manage Repair broken ears on your frames with our proprietary 20 gauge galvanized steel frame savers. Place frame saver over broken or cracked ear, nail into the frame, and your frame is as good as new. Frame Saver nails included. Buy with peace of mind, backed by the Mann Lake quality guarantee.

Please call 833-215-3040 for details.

COVERS & INNER COVERS

Like your own house, you want a roof that will withstand the harshest conditions! Get a cover that will protect your hive from the elements and fit perfectly with the quality and construction of your Mann Lake boxes.

100% ASSEMBLED

WW240	10 Frame Wintering Inner Cover Insulation	\$13.95
WW381	8 Frame Wintering Inner Cover	\$25.95
WW209	8 Frame Wintering Inner Cover Insulation	\$13.95

Use as an inner cover in the warmer months. Provide ventilation and reduce condensation in the colder months. Center pull out for jar feeder. Includes FD241 Feeder Lid. Fully assembled. *Wintering Inner Cover Insulation sold separately.* Designed by Lincoln Sennett of Swan's Honey (Authorized Dealer).

Beautiful & Functional

Garden Hivery Cover

WW754	10 Frame	\$99.95
WW751	8 Frame	\$99.95

Transform your hives into stunning, elegant pieces of art. This decorative Telescoping Cover is made with copper-colored anodized aluminum so it won't oxidize with age. Our cover is fully assembled and ready to use. The perfect accent to any garden!

Keep your hives well-ventilated

Screened Inner Covers

WW245	10 Frame	\$19.95
WW335	8 Frame	\$19.95

Keep your hives well-ventilated with our Screened Inner Covers. Great for keeping your hive cool in warmer months or ventilated during transportation. The top cover is raised by two thicker sides of the screen frame. Compatible with our telescoping cover. Made in the USA.

Rot and termite proof

10 Frame Plastic Outer Cover

HD712		\$39.95
-------	--	----------------

If you're looking for a plastic outer cover that's strong, durable, and doesn't require assembly or painting, this is the one for you! It has a tough cast, is constructed of one piece of plastic, and is highly resistant to termites and rot. Fits standard 10-frame hive. Comes fully assembled.

A cover that acts as insulation

Bee Smart 10 Frame Ultimate Hive Cover

HD715		\$39.95
-------	--	----------------

This cover is made with techno-polymer construction that will not rot. The double-wall construction with dead air zone keeps hives cooler in the summer and warmer in the winter. Built-in drip edge guides water away from the hive. Recommended for use in conjunction with inner cover.

MIGRATORY COVERS

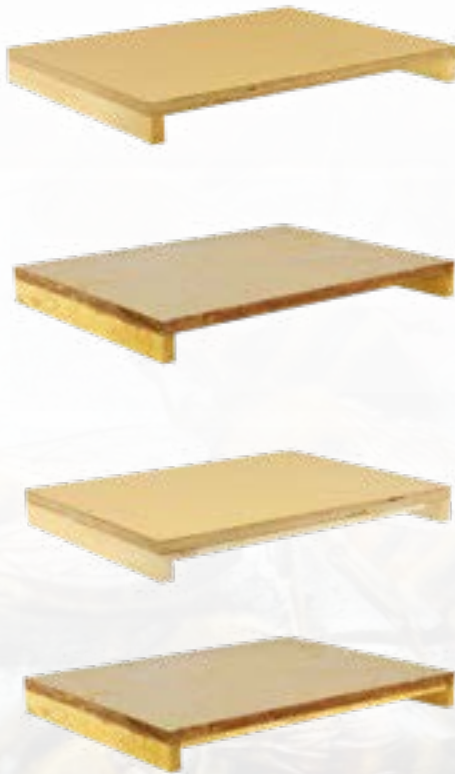

Migratory Top Covers

HIVE STANDS

Hive stands are a critical component of a beehive. Hive stands raise the hive to a convenient working level and make it harder for predators and pests to reach the entrance. Raising the hive off the ground prevents your bottom board from absorbing moisture from the ground, protecting against rot and increasing the longevity of your woodenware.

Collapsible Hive Stand

HD709

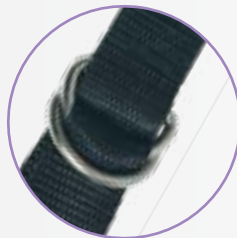

\$59.95

Constructed of sturdy, zinc-plated steel, this universal metal hive stand is used to raise your hive up to a more comfortable working level! Redesigned to be adjustable to fit 10 or 8 Frame hives and old-style bottom

Compatible with 10 & 8 frame hives!

Hive straps work perfectly with our collapsible hive stand!

Quick Release 130" (3.30 m) Pallet Strap

Pro Nuc

NB350	1 - 99	\$23.95
	100 - 299	\$19.95
	200+	\$17.95

5 frame nuc made from durable polypropylene is the perfect addition to your apiary. Use for splitting, catching swarms or raising queens. Complete with fully locked lid, 2 different feeding ports (for 1 gallon bottles and for soda bottles), closable entrances, drain holes at the bottom to release any moisture, frame rest, retainers in the lid to prevent frames from sliding and reversible lid that allows extra ventilation. No assembly is required. Color may vary.

NUC BOXES

A nuc (short for nucleus colony) is a small colony made up of a few thousand bees, all centered on a queen. Nuc boxes are perfect for raising queens, transferring colonies, splitting colonies, and even catching swarms. All components are designed to fit wooden nuc boxes measuring 9½" in width and 19½" in length. Our wooden nuc boxes are finger jointed, have handholds on the ends, and will hold five 9½" frames. Frames, foundation and nails are not included.

Nuc Straps

NB400	Polypropylene Buckle Nuc Strap	\$2.05
NB405	Rubberband Nuc Strap	\$0.79

Our Polypropylene Buckle Nuc Strap is designed to fit around your nuc box for secure handling. Features an adjustable ladder buckle. Long enough to fit over a feeder pail. It's adjustable and has a snug fit. .75" x 60". Our Rubber Nuc strap is non-adjustable and fits snug around the box and cover.

Steel Entrance Disc

HD596	1-19	\$3.95
	20-99	\$3.25
	100+	\$2.95

A wide variety of applications in one piece of equipment! Simply drill a round entry hole and mount with a screw (not included). Designed with four options: 1. Open Access 2. Queen Excluder 3. Ventilation 4. Closed.

A must-have for transporting Nucs

Nuc Mesh Transport Bag

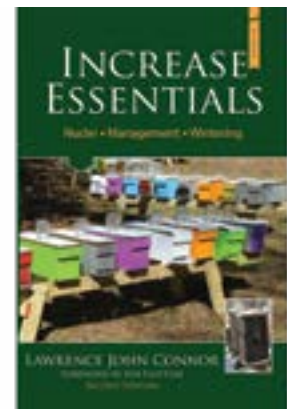

NB714 **\$14.95**
 Transport nucs securely! Made of durable, breathable mesh with a plastic cinch for quick closure, this bag can easily slide around a hive box. Will transport one nuc per bag at a time.

Riteway Stapler

HD280	Stapler	\$52.95
HD281	Staples	\$22.95

Our jam-resistant stapler is perfect for assembling plastic or cardboard nuc boxes and Riteway shipping boxes. Requires .50" (1.27 cm) Riteway Staples (HD281), sold separately.

Increase Essentials

BM873 **\$33.95**

Dr. Connor draws on the concepts of Langstroth, Doolittle, Brother Adam, Mike Palmer and more while integrating his unique academic and commercial beekeeping experiences into this concise and thought-provoking second edition. Adding more methods of making increase colonies and recent developments in the science of bee biology, the second edition expands on its predecessor with rich, colorful photography and diagrams. Soft cover, 176 pages.

NUC KITS AND ACCESSORIES

Helps with catching swarms

Corrugated, deep nuc box

Jester Bee 5 Frame Corrugated Plastic EZ Nuc Box
 NB255 1 - 49 **\$22.95**
 50 - 279 **\$18.95**
 280+ **\$17.95**

Perfect for raising queens, transferring colonies, splitting colonies, and even catching swarms! Offers more stability and ventilation than cardboard nucs. These nuc boxes fold together with ease and have handholds for easy carrying. Open/close entrance. .75" space above and below frames for feeding, medications, queen cages. Ships flat.

Perforated vent knock-outs on both ends

Wax injected cardboard for durability

Corrugated Cardboard Nuc Box

NB250	Nuc Box	1 - 99	\$12.95

		1,000+	CALL
NB251	Metal Nuc Screens		\$2.05
FD147	Cap Plug		\$1.00
HD280	Riteway Stapler		\$52.95
HD281	Staples		\$22.95

Lightweight, easy to ship, and cost-effective. Boxes are wax permeated for greater durability. Nuc boxes make great swarm traps! 1.5" cap plug and nuc screens are sold separately. Use our Riteway Stapler (HD280) to secure end flaps. Ships flat, simple to assemble.

UNASSEMBLED

Unassembled Complete Nuc Kit with Telescoping Cover

KD125 **\$69.95**
 Includes one unassembled deep Nuc Box, one Telescoping Cover, one Notched Inner Cover, and one Bottom Board. Nails are included for assembly. Frames and foundation sold separately.

Proudly made by **MANN LAKE**

UNASSEMBLED

Unassembled Complete Nuc Kit with Migratory Cover

KD120 **\$65.95**
 Includes one unassembled deep Nuc Box, one Migratory Cover, and one Bottom Board. Nails are included for assembly. Frames and foundation sold separately.

Hive Net

HD714 **\$37.95**
 Keep bees inside! Made with treated Polyester netting to withstand UV rays. Drawstring closure for added security. 21" x 22" x 49". Fits nucs, 10 or 8 frame hives.

A must-have for transporting Nucs

Don't forget your stapler and staples! pages 34 & 60

FREE SHIPPING ON MOST ORDERS \$150+

Nuc Migratory Cover

WW112 **\$16.50**

Allow your colonies to be tightly spaced on pallets. Ships assembled. Compatible with Nuc Boxes only.

Nuc Covers

WW105 Notched Inner Cover **\$13.50**
 WW104 Telescoping Cover **\$22.95**

Nuc Telescoping Covers are covered with heavy-duty aluminum. Notched Inner Covers are placed underneath the Nuc Telescoping Cover to provide proper working space for your bees. Compatible with Nuc Boxes only.

Unassembled Nuc Box

WW203 9 5/8" Nuc Box **\$21.95**
 NB510 6 1/4" Nuc Box **\$21.95**

Holds five frames. Finger jointed. Deep box measures 9 5/8" deep, 9 5/8" wide, 19 7/8" long. Medium box measures 6 5/8" deep, 9 5/8" wide, 19 7/8" long. Nails not included.

Screened Bottom Board

NB691 Bottom Board **\$39.95**
 NB355 Entrance Reducer **\$2.85**

Features a reinforced base for added strength and durability. The screen is made from tough bound hardware cloth. Fits standard 5-frame nuc box.

Double Screened Bottom Board

WW191 Bottom Board **\$31.95**
 NB355 Entrance Reducer **\$2.75**

A must-have for overwintering nuc colonies and splitting. 2 layers of screen means no physical bee contact if nucs are double stacked making splits. Compatible with our Unassembled Wooden Nuc Box. Ships assembled.

Nuc Solid Bottom Board

WW113 Bottom Board **\$24.95**
 NB355 Entrance Reducer **\$2.75**

Boards are stapled together to give you years of service. Comes fully assembled. Compatible with Nuc Boxes only.

Assembled Nuc Moving/Robbing Screen

WW192 **\$23.95**

Same concept as our 10 frame version, built for a nuc box! Completely close up the screen when moving or reduce the impact of robbing. Favored over a traditional entrance reducer as it allows airflow at all times.

10 Frame Nuc Introduction Board

WW190 **\$13.95**

Uniting nucs and 10 frame colonies made simple and straightforward. After removing the cover and inner cover, place the board on top of the hive, followed by a piece of newspaper and the nuc box. It's that easy!

Splitting to expand your operation?

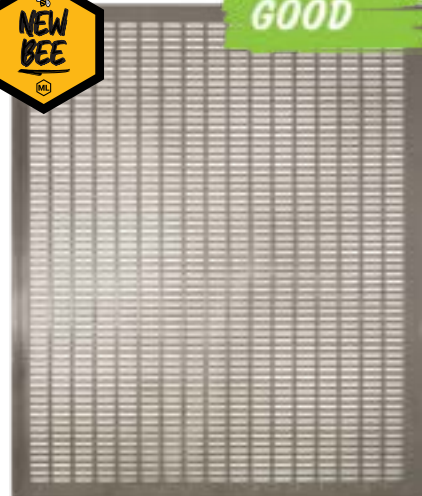

Install quality queens in your nuc from one of our many trusted suppliers!

QUEEN EXCLUDERS

Eliminate the risk of losing your queen or having to contend with brood in your supers during extracting time by using a Queen Excluder. When there is brood in the supers it is nearly impossible to eliminate bees from the combs using a bee escape. Using an excluder will keep the brood and the queen where they belong.

GOOD

Plastic Excluder

HD125 10 Frame	1-99	\$5.95
	100-499	\$4.80
	2,400+	\$3.95
HD124 8 Frame	1-99	\$5.95
	100-499	\$4.80
	2,400+	\$3.95

Our Plastic Queen Excluders are an inexpensive alternative to the metal excluders and are molded, not stamped, leaving no rough edges to harm your bees. Less susceptible to UV damage!

BETTER

Metal Bound Excluder

HD120 10 Frame	1-99	\$10.95
	100-499	\$9.95
	800+	\$8.95
HD121 8 Frame	1-99	\$10.35
	100-499	\$9.95
	800+	\$8.95

Our Metal Excluders are computer control welded with precision wire spacing to ensure your queen stays in the brood chamber. Each wire is crimped and cross wired in the frame adding extra support to prevent bowing.

BEST

Wood Bound Metal Excluder

HD122 10 Frame	1-99	\$19.95
	100-299	\$18.95
	300+	\$17.95
HD131 8 Frame	1-99	\$19.95
	100-299	\$18.95
	300+	\$17.95

We use the same great Metal Excluder as above but with a wooden frame for improved bee space. This increases the overall ease of passage for workers through the excluder.

Metal Queen Excluder Cleaner

HD119 **\$20.95**
Use this heavy-duty tool for cleaning our metal and wood bound excluders. Designed specifically to match the spacing and make cleaning fast and easy.

Queen Marking Pen

HD373 Blue (year ending 0 or 5) **\$8.95**

This is the quickest and easiest way to mark your queen! Just mark a small spot on her thorax, and when you are finished, the marker conveniently fits into your pocket. Keep track of your queen by using the international color code to identify the age of your queen.

Queen Excluder Tip:

To encourage your bees to work in the supers you are adding, put your super on for a day or two and then add your excluder between the boxes. Determine the general location of your queen prior to adding a queen excluder to ensure she is in the brood chamber, not in your honey supers.

INDUSTRIAL QUALITY PAINTS

What makes our premium paint better than anything you can find in your local hardware store?

- Industrial quality paints developed specially for the beekeeping industry
- Higher solid content than conventional paints
- Goes on smoothly
- High blister resistance

PAINT AND WOOD PRESERVATIVES

Make Your Own Wax Dip

HD911 Gum Rosin 25lb **\$99.95**
 HD900 Paraffin Wax per lb **\$2.45**

Instructions: Melt 3 parts paraffin to 1 part gum rosin, heat and dip.

WP160 kit with a WP210 super and HD709 hive stand

Eco Wood Treatment

PT602 **\$29.95**

An excellent alternative to paint! This wood treatment is non-toxic, made of natural elements, and is maintenance-free. Apply once and you're finished. Will not peel, fade, or wear off. Make sure to glue all joints to prevent warping. Creates a natural patina look that will vary in color depending on wood species. Shipped in powder form and mixes with water to make 1 Gallon. One year shelf life once mixed.

Cu-Nap CONCENTRATE

EPA Reg. No. 71992-1-54471
 EPA Est. No. 54471-NE-001

CuNap Wood Treatment

DC605 5 gallon **\$399.95**

- Oil-based preservative and insect deterrent
- Ratio with mineral spirits: 1:6 for hive bodies and 1:3 for ground contact
- 5 gallons (18.93 l) treats approximately 250 deep hive bodies
- 8% copper as metal

Oxalic Acid Wood Bleach

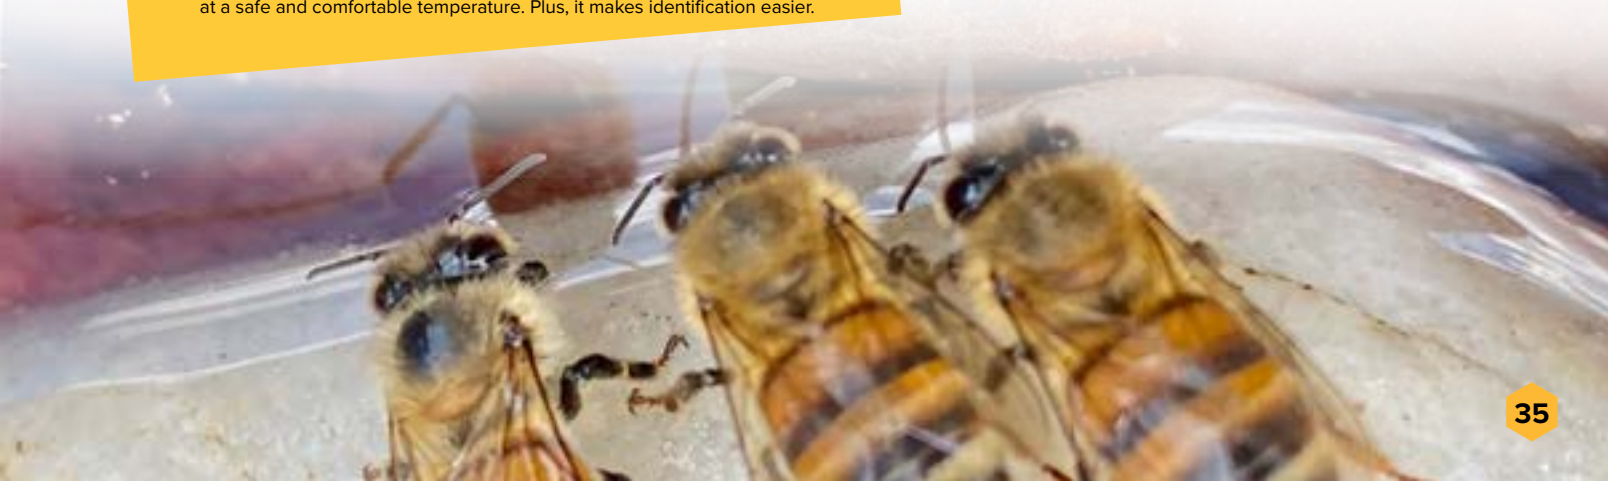

PT100	16 oz		\$12.95
PT101	10 lb	1-4	\$46.95
		5+	\$44.75

Works for removing black water spots and tannin stains. Use on unfinished or stripped wood. 99% Oxalic Acid crystals.

Did You Know?

Painted/Treated beehives tend to last longer against the elements and general wear and tear. Depending on where you live, certain paint colors will also help keep the hives at a safe and comfortable temperature. Plus, it makes identification easier.

MAKE COMB HONEY

Making comb honey has never been so easy! Our Comb Honey Kit comes with an assembled 5 $\frac{5}{8}$ " (14.29 cm) super and 5 $\frac{3}{8}$ " (13.65 cm) frames (wedge top bar). All you need to do is insert the sheets of thin surplus 4 $\frac{3}{4}$ " x 16 $\frac{1}{2}$ " (12.07 cm x 41.91 cm) beeswax foundation with the $\frac{5}{8}$ " (1.59 cm) wedge nail. Includes Lloyd Spear's Comb Honey Basics Booklet to give you all the information you need to know about comb honey. Use the Stainless Steel Comb Cutter to cut comb honey and package in clamshell boxes, both included with the kit!

Comb Honey Super Kit

ROSS ROUND® AND ACCESSORIES

Ross Round® Comb Honey Complete Super

CH100

\$189.95

ROSS ROUNDS™ Comb Honey Complete Super kit comes complete with frames, and enough section rings and covers to produce 32 round sections of comb honey. Section equipment makes comb honey production easy and profitable for the beekeeper. Add the super to your hive and let your bees fill the sections. Once capped, remove the sections and add your covers. Labels and foundation are sold separately.

Includes:

- Assembled Ross Round super
- 8 Visicheck frames
- 64 Section Rings
- 32 Opaque Covers
- 32 Crystal Clear Covers

Ross Round® Tips

Labels: These labels are designed specifically for use with ROSS ROUNDS™ comb honey sections. After closing the section with your lids, affix the labels to the side of the ROSS ROUNDS™ section to provide a beautiful, yet functional, tamper-evident seal.

Section Rings and Covers: Section rings are installed in the ROSS ROUNDS™ section frames. When installed on the hive, the bees fill the sections. Once capped, remove from the hive and cover both sides of the section ring. Each section ring requires two covers. Covers are offered in clear and opaque.

Springs: Super Springs are a crucial component of the ROSS ROUNDS™ Comb Honey system. The springs compress the sections together preventing the bees from propolizing the

frames. The springs are made to last, produced from high quality, zinc coated spring steel.

Visicheck Frames: ROSS ROUNDS™ Section Frames are made of durable plastic, designed specifically for use in production of ROSS ROUNDS™ Comb Honey. Each frame holds four sections. The frames are brown in color, providing a contrast to the white section rings, making it easier for the beekeeper to see them, eliminating costly and messy mistakes from forgotten rings. It is recommended to use 8 frames in a 10 Frame Langstroth 4 1/2" tall super, and 7 frames in 8 Frame equipment.

Foundation: 4" Comb Honey Foundation is made for use specifically in the ROSS ROUNDS™ system. Comb Honey Foundation is our thinnest foundation available.

Ross Round® Labels - 100 per Roll

CH150 Yellow/Black	\$19.95
CH155 Green/Yellow	\$19.95
CH156 Orange	\$19.95
CH157 Grey/Black	\$19.95

SMOKE THE COMPETITION!

Smokers are an important tool to keep on hand when it comes to taking care of your bees. This tool helps calm your bees, making it safer to inspect hives.

Smoker Guide

How to Light a Smoker

STEP 1. Safety first! Check the area for flammable liquids and other fuels, especially make sure your veil, hair and clothing isn't near the flame. Work with the smoker on a non-flammable surface and have your fuel source ready to use.

STEP 2. Inspect the smoker. Open it and inspect the burn chamber for excessive soot and tar build up. Clean as necessary and inspect the bellows to make sure they are operating properly.

STEP 3. Add starter fuel such as cotton fiber smoker fuel, burlap, or kindling. Place in the bottom of the chamber.

STEP 4. Light starter fuel with a lighter or match.
STEP 5. Add main fuel such as B.Calm, wood pellets, or burlap. Lightly puff the smoker. This will get easier with experience - adding too much fuel at one time will smother the flames and adding too little will allow the starter fuel to burn up before the main fuel is lit.

Smoker Insights

Fuel types: Many types of fuel can be used in a smoker if they are natural and uncontaminated with harmful substances. These fuels include: cotton fiber, burlap, pine needles, wood pellets, and dried grass.

How it works: The fuel in the smoker's burn chamber smolders slowly because there is only a small amount of oxygen inside. Squeezing the bellows provides a blast of fresh air. As fuel in a smoker is used more sparingly than in an open container, one load of fuel may last for several hours, or even days. Smoker fuel, if extinguished, may be rekindled and used again.

How to use: Many beekeepers will open the top cover and gently puff in a bit of smoke into the hive, as well as into the front entrance. After waiting a few minutes, you may proceed with your inspections. You may also puff added smoke to calm bees if needed during your inspections.

BEST

Smoke Cloud Smoker by Mann Lake

Premium Bee Brush

HD661

This bee brush will do the job better than any other! It has three offset rows of the softest bristles we could find so it will gently remove bees from any surface without injury.

\$16.95

BEST SELLER

Uncapping Scratcher

HD465

Durable! The handle is made of heavy-duty, solid plastic that's molded to fit your hand. Metal tines easily scratch away capping wax for extracting. Color may vary.

\$7.95

Field Evaluation Journal

BM329

Log inspection results and hive observations with this all-weather, water-shedding paper journal! Ruler on back cover for easy measuring. 4" x 6".

\$14.95

Frame Cleaner

HD616

Designed to quickly remove wax and propolis from any tight area on the top or bottom of any style frame or clean the grooves when replacing the foundation.

\$7.95

3" Stiff Scraper

HD615

The grip rubber handle fits perfectly into your hand, making it easy to hold. The sharp, stiff, angled blade is ideal for scraping off wax and propolis in the hive.

\$11.99

Stainless Steel Uncapping Scratcher

HD466

Will hold up to years of uncapping! It has stainless steel, curved fork tines for ease of use. Durable solid plastic is molded around the metal.

\$14.95

Bee Brush

HD660

Gently remove bees from frames, supers and clothing. A must-have when inspecting hives or harvesting!

BEEKEEPING TOOLS

BEST SELLER

Standard Frame Grip

HD630 **\$9.95**
Get a better grasp on your frames! The jaws easily slide into tight spots in your hive for a firm grip on your frames.

Frame Grip for Plastic Frames

HD631 **\$18.95**
Get 2 tools in 1! It works best on plastic frames (it can damage the wood on thicker wood top bars). Plus, you get the convenient pry tool.

10 Frame L Shaped Metal Frame Rests 10 Pack

WW120 1-9 **\$6.95**
1-9 **\$5.25**

Protect your wood from damage caused by scraping and hive tool wear with a frame rest. Made from strong, durable metal. Use HD271 frame saver nails, not included.

Plastic Frame Spacing Tool

HD592 10 Frame to 9 Frame Spacing Tool **\$17.95**
HD593 10 Frame to 8 Frame Spacing Tool **\$17.95**
HD594 8 Frame to 7 Frame Spacing Tool **\$17.95**

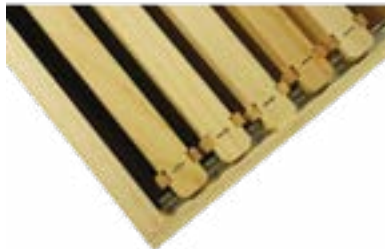

Reduce the number of frames in your boxes by accurately spacing your frames down from 10 frames to 9 or 8 frames or 8 frames down to 7 frames. Great for increasing comb depth to aid in uncapping! Made of plastic.

Stainless Steel Frame Spacing Tool

HD587 10 Frame to 9 Frame Spacing Tool **\$29.95**

Reduce the number of frames in your boxes by accurately spacing your frames down from 10 frames to 9. Great for increasing comb depth to aid in uncapping! Made of stainless steel.

Permanent Mount Frame Spacers 9 Frame, 10 Pack

WW130 1-9 **\$9.95**
10+ **\$7.95**
WW135 1-9 **\$9.99**
10+ **\$7.95**

Reduce the number of frames in your supers by accurately spacing your frames down from 10 to 8 or 9 frames. The spaces are evenly cut to allow the bees to fully draw out comb. HD250 nails not included. Made of metal.

Beekeeper's Bucket Organizer

HD635 **\$49.95**
Have all the tools and supplies you need for the bee yard organized and ready to go with our Beekeeper's Bucket Organizer. This organizer has 61 pockets (25 inside double-row pockets and 36 outside triple-row pockets). Fits inside 3-1/2 gallon or 5-gallon buckets. Made of polyester fabric. Bucket not included.

Cast Aluminum High Precision Frame Gripper

HD632 **\$29.95**
Easy-to-grip handle as well as a guided pivot point with dual springs. All these design features deliver a smoother open-and-close motion.

Frame Cleaner

HD616 **\$7.95**
Designed to quickly remove wax and propolis from any tight area on the top or bottom of any style frame.

3" Stiff Scraper

HD615 **\$41.95**
The pro grip rubber handle fits perfectly into your hand making it easy to hold. The sharp, stiff, angled blade is ideal for scraping off wax and propolis in the hive.

COLLECT PROPOLIS OR POLLEN!

Propolis production is crucial for hive health, as it serves as a natural antimicrobial sealant, enhancing hygiene and protecting against diseases. These properties also make propolis a valuable product of the hive. It is commonly used in cosmetics and tinctures. Pollen collection is equally vital, providing a protein source for brood development and overall colony well-being. Beekeepers may harvest excess propolis and pollen for various purposes, supporting hive maintenance or even creating natural health products.

10 Frame Propolis Trap

HD370	1-5	\$9.95
	6+	\$9.50

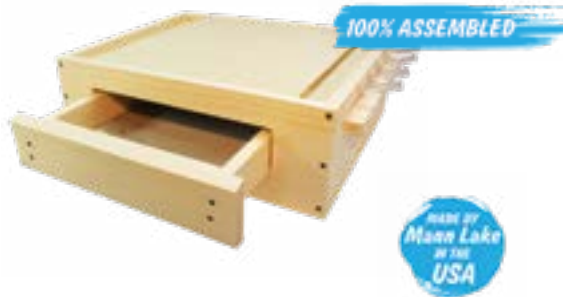

Easily collect propolis! This durable trap will last for years and will hold its shape between seasons. Compatible with 10 frame equipment only. 19.75" x 16 1/8" x 1/8"

10 Frame Flexible Propolis Trap

HD368	1-5	\$7.95
	6+	\$7.50

Harvest propolis with this economic trap! Made of tubular polyethylene for more flexibility. Compatible with 10 Frame equipment only. 20" x 16.25" x .10". Color may vary.

Superior Pollen Trap

WW215	10 Frame	\$125.95
WW210	8 Frame	\$125.95

Features a reversible drawer that can be used on either side. Perfect for palletized hives. Fits below the brood chamber. Remove the tubes for 2-3 days every week to allow the bees sufficient stores.

10 Frame Drawer Pollen Trap

WW200	\$54.95
-------	----------------

Sits on the outside of the hive boxes. Fits between the brood chamber and super. Has "easy harvest" drawer. Close off 2-3 days every week. Some assembly is required. 10 frame only.

Sundance Pollen Trap

HD952	10 Frame Bottom Mount	\$92.95
-------	-----------------------	----------------

Harvest pollen without taking apart your hive! It sits on top of all brood chambers and supers, making it easy to install or remove. Comes fully assembled with use and care instructions.

Beehive Alchemy

BM883	\$26.95
-------	----------------

From crayons to cough drops, cookies to candies, Beehive Alchemy is a comprehensive introduction to incorporating the products of bees into everyday life. Learn about the benefits and attributes of beeswax, honey, propolis, and more with a full range of projects and techniques to process and harness the amazing gifts of bees. Filled with recipes for delicious dishes, healthful soaps, balms, salves and more! Soft cover, 160 pages.

TRANSPORT YOUR HIVES!

Hive transportation is critical to keeping your hives intact as you travel to your next destination. Use these tools to lock down your hives and travel safely with your hives.

Single Hive / Super Carrier

MH100 **\$59.95**

Move supers with ease with this Super Carrier. Constructed of heavy-duty steel tubing, this carrier will hold up to years of use! To allow room to operate, we recommend removing hive covers before using.

Hive Carrier

MH107 **\$85.95**

Move beehives and supers easily with our hive carrier, a high-quality beehive lifting device from Mann Lake. Managing a thriving colony that produces a significant honey yield means dealing with increasingly heavy hives, but with our lifter's robust handles, you can conveniently carry and transport these hives regardless of their weight.

Constructed of heavy-duty galvanized steel tubing, this two-person carrier will hold up to years of use! This hive lifter features durable handles that can carry up to 150 lbs (68.04 kg). Save you time and muscle strain as you set up or modify your bee yard with our hive carrier.

Benefits of Using a Beehive Lifter/Carrier

Beekeeping can be a physically demanding job, as many beekeepers will agree. When moving and transporting your beehives, you can save your back from unnecessary strain by using a quality beehive lifter. Lifting hives is one of the more physical tasks in beekeeping, and a beehive lifter can save you time and effort and prevent back injuries along the way.

Save Time with a Hive Lifter/Carrier from Mann Lake

Beekeeping doesn't have to be back-breaking work. You'll enjoy your tasks much more if you have the equipment to improve efficiency. Whether you're a professional beekeeper or just starting out as a hobby, a beehive lifter is a helpful tool to have on hand.

Galvanized Banding Straps

HD835

\$12.50

The perfect solution to transporting hives across rough terrain! These straps are galvanized for durability and feature an easy to use camlock buckle. At over 13' (3.96 m) in length they can be used on individual hives or on palletized hives. The excess length stays neatly rolled at the buckle. 11/16" wide (1.75 cm).

"U" & "W" Shaped Pallet Clips

HD649	U Clip	1 - 249	\$1.95
		250+	\$1.35
HD648	W Clip	1 - 249	\$1.95
		250+	\$1.35

16 gauge galvanized steel clips secure hives on your pallet. "U" clip holds hive bodies together without spacing. "W" clip has 1/2" space to separate hive bodies.

10 Frame Moving Screen

WW174

\$19.95

Effective and easy installation! Designed to be placed on the hive whenever a move is required. The bees find their way in but not back out. Strap not included.

Hive Staples

HD235	1 lb (454 g)	\$13.95
HD240	10 lb (4.54 kg)	\$99.95
HD243	50 lb (22.68 kg)	\$309.95

Effective and easy installation! Designed to be placed on the hive whenever a move is required. The bees find their way in but not back out. Strap not included.

KEEP YOUR HIVES SAFE & SECURE!

Upgrade from putting a rock on top of your hive with these more secure and affordable solutions!

Camlock Pallet Strap 10' (3.04 m)

HD815

\$15.95

Secure your hives with this specially-designed tie down strap! No tools are required for tightening. Over-center action locks in tension for a protected shipment. These straps are 10' (3.04 m) in length and are designed for strapping hives to pallets and are great for deterring pests and curious critters.

Our most secure pallet strap!

Properly strapped hives will handle the roughest of encounters! Securely transport your bees without the hassles of pests and theft. These straps interlock tightly for a secure hold. Snatch up the easiest-to-use pallet strap on the market!

D Ring 12' (3.66 m) Pallet Strap

HD830

\$5.25

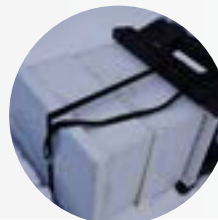

Our strap is 144' (3.66 m) length with metal D Rings.

Without straps:

Strap up for premium protection!

Quick Release 130" (3.30 m) Pallet Strap

HD825

\$6.25

Our Polypropylene Pallet Straps are priced right! Features an adjustable quick release buckle so hive inspections are a snap!

10 Frame Screened Inner Cover

WW245 10 Frame

\$19.95

WW335 8 Frame

\$19.95

Keep your hives well ventilated! Great for keeping your hive cool in warmer months or ventilated during transportation. Top cover is raised by 3/8" by two thicker sides of the screen frame. Compatible with our telescoping cover. Compatible with 10 Frame equipment only.

10 Frame Moving/Robbing Screen

WW176 10 Frame

\$23.95

Protect your beehives effectively with the ultimate robbing screen, designed to safeguard against invaders like yellow jackets and other hives that want to steal honey.

FREE SHIPPING ON MOST ORDERS \$150+

TOOLS FOR WINTERIZING

Winter tips: Heading into winter, your hive needs 60-100 pounds of honey to survive. Feed your bees until the first frost or until they quit taking feed - whichever comes first. Be aware of excess moisture which causes condensation and can trigger a sudden drop in temperature, as well as cause mold and mildew which can sour the honey. Address this problem by adding a moisture board in the winter.

1. Hammer a two inch nail above the entrance reducer to give bees space to move under the wrap.
2. Tip hives forward so moisture drains away from the entrance.
3. Remove lid, place Bee Cozy over the hive with the seams to the front. The bottom rests on a nail to allow for ventilation and bee space.

Bee Cozy

WT140 Single	\$38.95
WT160 2 Story	\$43.95

These wraps have been helping colonies come through the winter strong and ready for honey production for over 23 years! Bee Cozy provides an extra defense to help keep your bees healthy and productive.

Easy On Hive Covers

HD717 10 Frame	\$49.95
HD718 8 Frame	\$49.95

Waterproof and windproof wrap! Constructed with heavy tear-resistant marine-grade vinyl and foam board insulation. Tight fit onto hive bodies by using heavy-duty Velcro. Fits under the hive lid while still allowing moisture to escape. No tools are needed. R-value of 5. The opening of the cover is 21" x 17". Height is 17.5".

10 Frame Quilt Box

WW390	\$39.95
-------	----------------

Control moisture in your hive during the winter with our 10 Frame Quilt Box. Place this box in between your inner cover and the top of your uppermost box and fill the top part with burlap or pine shavings (we do not recommend using sawdust as its density will not allow for the flow of moisture). The burlap or pine shaving filling will absorb moisture that condenses from heat produced by the bee cluster. The notched entrance should be placed down, so bees can easily leave for a cleansing flight on warmer winter days. The space below the screen allows ample room for adding your choice of winter feed.

10 Frame Hot Box Kit

WT135 Painted	\$79.95
WT130 Unpainted	\$69.95

This kit was designed specifically with beekeepers in the northern climates in mind, though it can be used in southern climates depending on the temperature. The hot box helps maintain proper temperatures in the hive throughout the winter months. Made from a pine shallow super with wire boundaries on top and bottom with insulation in the center. Includes a moisture board. Fits 10 Frame equipment only.

Moisture Board

WW380 10 Frame	\$15.95
WW378 8 Frame	\$15.95

Help protect your hives from moisture build-up during the winter months! This board will help absorb the condensation and keep your bees dry.

Slatted Rack

WW184 10 Frame	\$31.95
WW384 8 Frame	\$31.95

First developed in 1900, the slatted rack is essential for overwintering and swarm control in the North. Allows the queen to lay lower in the comb and provides space for clustering which can reduce swarming. Install between the bottom board and brood chamber.

WINTERIZING ESSENTIALS

BEST SELLER

MANN LAKE

Bulk Pro Winter Patties

FD368	10 lb (4.54 kg) bucket	\$25.95
FD366	40 lb (18 kg) bucket	\$119.95
HD615	3" Stiff Scraper	\$11.95

Provide your colonies with food stores when the bees find the cupboards bare. These patties contain carbohydrates and only a very small amount of protein, so your bees won't be encouraged to start rearing brood too early. Simply spread the mix over your top bars or make your own patties on wax paper. This feed is not separated by wax paper. As warmer weather approaches, switch to a pollen substitute patty such as Ultra Bee or Bee Pro® Patties which will provide both carbohydrates and protein for brood rearing.

Don't forget the scraper!

Check out the 3" Stiff Scraper and other tools on page 39!

HiveAlive Fondant Patties

FD384	2.2 lb (1 kg)	\$15.95
FD382	35 lb (15 kg)	\$119.95

The HiveAlive Fondant Patty is a premium patty that contains the correct dosage of HiveAlive liquid, and an optimized blend of vitamins & amino acids chosen for bee health. Long shelf life, 2 years from the date of manufacture. Store at room temperature as long as the temperature of the room does not go above 85°F for any sustained period.

Mouse Guard

HD591	10 Frame	\$10.95
HD582	8 Frame	\$10.95

Crafted from a single piece of stainless steel, it fits over the hive entrance to prevent mice from entering it, while still allowing the bees full access through the small holes.

Wintering Inner Cover

WW241	10 Frame	\$25.95
WW381	8 Frame	\$25.95

Use as an inner cover in the warmer months. Provide ventilation and reduce condensation in the colder months. Center pull out for jar feeder. Includes FD241 Feeder Lid. Fully assembled. **Wintering Inner Cover Insulation sold separately.** Designed by Lincoln Sennett of Swan's Honey (Authorized Dealer).

SWARM SUPPLIES

Swarm Trap

HD375	1 - 167	\$35.65
	168+	\$34.65

Designed to mimic the hollow of a tree. They are constructed of a molded fiber material that can withstand many swarm seasons.

How to Catch Swarms

Swarming occurs when there is not enough room in the hive for your colony to grow. It is a natural instinct and a way for the colony to reproduce. The Queen will take half of the colony population and leave the hive. They will temporarily settle nearby, usually on a hedge, a tree or fence. They can remain here for minutes or days. Scout bees are sent out to find a more permanent home. So, if you believe your bees are going to swarm be prepared. The majority of beekeepers will experience catching and managing a swarm at some point.

There are several methods to catching a swarm. If you have a swarm in a tree nearby or a hedge, spray them with some sugar water. This will make them cluster together, making for easy removal. If your bees are in a confined space, such as a wall or an attic, your best bet is going to be a BeeVac. Placing a baited hive or trap near the swarm will also attract them.

Always make sure you are suited up to protect yourself. A veil and gloves are a must. Have a hive ready for them to be placed in to make them a new home. Feed them generously. After catching your swarm, you can sit back and enjoy the rewards of catching your own swarm.

Pro Nuc

NB350	1 - 9	\$23.95
	100+	\$19.95
	200+	\$17.95

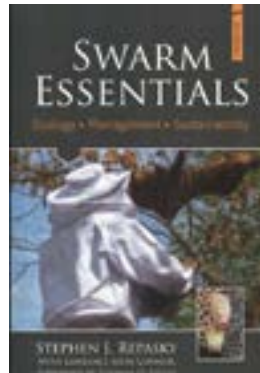

5 frame nuc made from durable polypropylene is the perfect addition to your apiary. Use for splitting, catching swarms or raising queens. Complete with fully locked lid, 2 different feeding ports (for 1 gallon bottles and for soda bottles), closable entrances, drain holes at the bottom to release any moisture, frame rest, retainers in the lid to prevent frames from sliding and reversible lid that allows extra ventilation. No assembly is required. Color may vary.

Moving/Robbing Screen

WW176	\$23.95
-------	----------------

This screen can be completely closed up when moving or used to reduce the impact of robbing. Favored over a traditional entrance reducer as it allows airflow at all times. Compatible with 10 Frame equipment only.

BM795	\$33.95
-------	----------------

Swarm Essentials outlines the ramifications of swarming behavior (highlighting the often overlooked benefits), proven management techniques, and how to recover and even prosper from a successful swarm attempt. Author Stephen J. Repasky's inaugural publication marks the latest addition to the Essentials series and is an excellent read for any beekeeper who hopes to make it past their first year. Soft cover, 128 pages.

Swarm Commander Spray Lure - 2 oz

HD377	\$42.95
-------	----------------

Contains a blend of oils that mimic the natural pheromone "Nasonov" which can attract swarms. Spray directly on your inner cover or telescoping cover and bottom board. Repeat weekly or as needed.

Swarm Commander Gel - 1 oz

HD367	\$37.95
-------	----------------

Contains a blend of oils that mimic the natural pheromone "Nasonov" which can attract swarms. Lasts up to 20 days in your bait hive. Repeat as needed.

Swarm Commander Super Lure

HD374	\$20.95
-------	----------------

A patented formula that releases the Nasonov pheromone over time. This lure hangs from a frame top bar and lasts for a minimum of 90 days. Keep in a temperature controlled environment. Shelf life of 2 years in sealed package.

Swarm Lure

HD376	\$3.95
-------	---------------

Attracts the swarm by emitting a slow-release blend of pheromones. Use one packet per trap. Each lure will last approximately one swarm season in the trap.

KEEP PESTS OUT!

Live Traps

TL103	Single - X-Small	\$33.75
TL104	Single - Small	\$49.50
TL105	Single - Medium	\$52.50
TL106	Single - Large	\$62.00

Protect your hives from critters with our selection of live traps! Available in double door or single door.

Mouse Guard for Hives

HD591	10 Frame	\$9.95
HD582	8 Frame	\$9.95

Crafted from a single piece of stainless steel, this guard fits over the entrance of the hive to prevent mice from entering it, while still allowing bees full access through the small holes.

Nite Guard Solar®

HD364	10 Frame	\$33.95
-------	----------	----------------

The Nite Guard Solar® provides a safe, solar-powered FLASH OF DANGER which implies to night animals that they have been "discovered". This is their deepest fear & forces them to flee the area. Overwhelming evidence from testing by our company and tens of thousands of users since 1997. Automatically turns on at dusk & off at full daylight. Solar Powered, Eco-Friendly, weatherproof. Guaranteed protection.

Rodent Traps

TL100	The Better Rodent Trap	\$14.75
TL101	The Better Mousetrap - 2 pack	\$9.50
TL102	Sure Catch Multiple Catch Mousetrap	\$19.00

The no-touch design makes these traps a snap to use. For mice, moles, shrews and other very small animals.

Entrance Guard with Excluder

WW186	10 Frame	\$10.95
WW386	8 Frame	\$10.95

This dual purpose hive accessories not only helps prevent swarming, but also doubles as a mouse guard to keep pests out. The metal excluder will not allow the queen to leave the hive, preventing swarming, while also keeping pests out! Install with a hive strap or pin in place with a nail on each end.

Natural Feed for Bees

Growing wildflowers and other pollinator-friendly plants provides numerous benefits for honey bees. These plants offer a rich nutritional source, ensuring a diverse and balanced diet that promotes hive health and resistance to diseases. The variety of flowering plants extends the foraging season, contributing to increased honey production. Moreover, the promotion of biodiversity supports a resilient ecosystem, benefiting not only honey bees but also other pollinators and wildlife.

Buckwheat Fast Facts

- Seeding rate: 55 # per acre
- Annual
- Planting depth: 1"
- Plant height: 3' if planted in summer
- Plant height: 30" or less if planted late July
- Does not require highly fertile soil
- Likes nitrogen
- Matures in 2 months
- Blooms late Summer

Clover Fast Facts

- Seeding rate: 10-15 # per acre
- Biennial
- Planting depth: ¼" to ½" on a seed bed
- Plant height: 2-4'
- Blooms mid-spring through summer
- Will not tolerate acidic soil (pH 6.5)
- Do not feed to livestock
- Pre inoculated

Wildflower Fast Facts

- Seeding rate: 5# per acre
- Mostly perennials
- Planting depth: 1/8" to ½"
- Requires full sun
- Plant after the risk of frost until early July
- Can be planted with native grasses to form a native prairie effect.

POLLINATOR-FRIENDLY SEEDS FOR YOUR BEES!

Buckwheat Seed

SD105	10 lb.	\$55.95
SD106	50 lb.	\$146.95

Buckwheat is a beekeeper favorite. It produces small white flower clusters that provide a great nectar source for the bees. Plant in mid-June through early July for a late summer honey flow when typically there is a nectar dearth. Available in 10 or 50 lb.

Mixed Clover Seed

SD103	10 lb.	\$99.95
SD104	50 lb.	\$419.95

Mixed clover is approximately 50% white and 50% yellow. Clover is an obligate biennial, meaning the plant always puts its energy into developing a healthy root system during the first season and in the second season it flowers and sets seed. Plant spring or fall. Mix with sawdust to simplify distribution. Available in 10 or 50 lb.

Wildflower Seed

SD101	1/2 lb.	\$41.95
-------	---------	----------------

Mixture of seed contains Purple and Grayhead Coneflower, Lance Leaved and Plains Coreopsis, Black-eyed Susan, False Sunflower, Partridge Pea, and Illinois Bundleflower. This wide arrangement is sure to attract the bees. Available in 1/2 lb.

Bees' Best Seed Mix

GW101	1 lb.	\$29.95
GW102	10 lb.	\$209.95

Our specially formulated seed mix includes 10 flower and legume varieties that benefit honey bees as well as other pollinators like butterflies and bumble bees. We collaborated with the Bee & Butterfly Habitat Fund to formulate a mix that is quick to germinate, easy to tend and will provide great forage for up to a decade! Mix will support up to 2.5 hives per acre and is designed for planting zones 3-9, working the best in zones 4-8. Plus, \$2 from every pound of seed mix goes directly to The Bee & Butterfly Habitat Fund. Seed mix: Alfalfa / Alsike Clover / Hyssop / Birdsfoot Trefoil / Crimson Clover / Ladino or White Clover / Phacelia / Red Clover / Sainfoin / White Dutch Clover. Available in 1 or 10 lb.

Bee Lawn - Pollinator Friendly Seed Mix

GW105	1 lb.	\$30.95
GW106	5 lb.	\$103.95

Transform your traditional turf grass to a flowering bee haven with our Bee Lawn Seed Mix! Due to loss of forage, pesticide use and the introduction of pest and diseases, our pollinators need your help! Each bag of Bee Lawn Seed Mix is developed by the University of Minnesota and contains the following pollinator friendly plants: 23.5% Creeping Red Fescue, 23% Chewings Fescue, 23% Hard Fescue, 23% Sheep Fescue, 4.5% White Clover, 2.3% Self-Heal, and 0.7% Creeping Thyme. Available in 1 or 5lb.

1 Gallon Screw on Jar and Bases Waterers

PW532	Jar Only	\$4.00
PW534	Base	\$2.25

Just like all animals, bees need water too! Use this waterer to provide a source of water in your apiary.

Original Jz-Bz

THE INDUSTRY STANDARD IN QUEEN REARING

JZs BZs is the industry standard for queen rearing supplies. Queen rearing can be as fun as it is fulfilling! If you're interested in getting started, Mann Lake has everything you need to be successful. From queen rearing kits to cell cups, to caging and transport - we've got you covered!

Requires pre-drilled cell bar

Available in 5 colors!

Original Jz-Bz

JZs BZs Push-In Cell Cups

Push-In cell cups fit into a pre-drilled $\frac{25}{64}$ " (1 cm) hole and come in a variety of colors to suit your preferences or color coding purposes.

JZs BZs Queen Cell Bar

QC325
The new JZs BZs Cell Bar is designed specifically for the Wide Base Cell Cup prong. The plastic bar can be mounted in a standard frame using a wood screw (the bar can then pivot for grafting) or use our Queen Rearing Frame (QC-103). Cell cups not included.

\$3.95

Wood Cell Bar

QC102 **\$1.95**

Designed with a groove cut to hold your Wide Base Cell Cups. Can be easily mounted in a Queen Rearing Frame (QC103) or mounted in a standard frame using a wood screw (the bar can then pivot for grafting). Cell cups not included.

Cups slide into groove

Queen Rearing Frame

QC103	1 - 99	\$9.95
	100+	\$8.45

Completely assembled 9 1/8" (23.18 cm) frame designed to hold two JZs BZs Cell Bars (QC325) or two Wood Cell Bars (QC102).

Original **Jz-Bz**

Push-In Cell Protectors

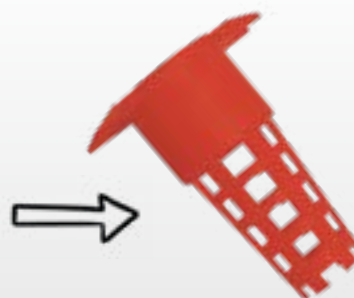

QC700	100 Pack	\$16.75

Queen Cage Holder

QC139	\$6.25
-------	---------------

Holds queen cages accurately on a frame and is fast and easy to use. Holds all 4 styles of queen cages (JZs BZs, Wooden California Mini Cage, Benten 3 Hole Wood Cage, Roller Cage) in the perfect position. No more guessing on how to install the queen cage.

Filled Candy Tube

HD397	10 Pack	\$6.25
HD399	100 Pack	\$52.95

Use with California Mini Queen Cages. Simply insert the plug into cage for a delayed release of your queens. Keep refrigerated. Keep refrigerated until ready to use.

Three-Hole Queen Cages

QC950	100 Pack	\$62.95
QC951	1000 Pack	\$449.95
QC953	Screens - 1,000 pack	\$52.45
QC952	Corks - 2,000 pack	\$62.95

Coated with paraffin and include screens, corks, and candy covers! Requires a stapler at each end to keep the queen secure.

California Mini Queen Cages

HD396	10 Pack	\$14.65
HD398	100 Pack	\$59.95

Its size makes this queen cage easy to insert between the frames without damaging the comb or disturbing the hive. The fine screen keeps the queen protected. Includes corks.

Riteway Stapler

HD280	Stapler	\$52.95
HD281	Staples	\$22.95

Our jam-resistant stapler is perfect for assembling the plastic or cardboard nuc boxes and Riteway shipping boxes. Requires .50" (1.27 cm) Riteway Staples (HD281), sold separately.

Original **Jz-Bz**

JZs BZs Shipping Bars

QC900	Half-Size Single	\$2.15
QC901	Full-Size Single	\$4.15
QC902	Full-Size 100 pack	\$199.95

For use with Riteway Shippers, these shipping bars make queen banking and shipping both quick and economical.

SAFELY SHIP YOUR QUEENS!

Western & Eastern Queen Shipper

RW100	Small	\$14.95
RW300	Large	\$18.95

Holds wooden queen cages. The small shipper will hold up to 56 Eastern Queen cages or 88 Western Queen cages. The large shipper will hold 104 Eastern cages or 176 Western cages.

20 Queens

Built in Compartment

Original Jz-Bz

Battery Box

QC905	Single	\$5.95
QC906	Case of 96	\$299.95

Made for shipping JZs BZs queen cages in your queen rearing operation, a single battery box can hold up to 20 cages.

- Holds up to 20 JZs BZs Queen Cages
- Built-in compartment for candy and sponges

Mini Riteway Queen Shipper

RW150		\$9.95
-------	--	---------------

Designed with the queen breeder in mind, our new shipper can hold 28 Western, 16 Eastern or 28 JZs BZs queen cages in two .33" length shipping bars (shipping bars and cages not included, sold separately).

Holds More Queens

JZs BZs Queen Shipper

RW400	Small	\$13.75
RW500	Large	\$16.75

Holds JZs BZs plastic queen cages. The small shipper will hold up to 88 cages and requires half-size JZs BZs Shipping Bars (QC900, sold separately). The large shipper will hold up to 184 cages and requires full-size JZs BZs Shipping Bars and Queen Cages sold separately.

➔ The queen marking color of the year is **BLUE!**

BLUE IS THE QUEEN COLOR OF THE YEAR!

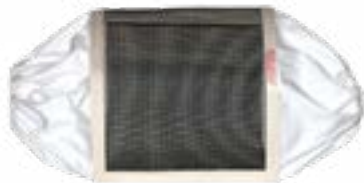

Queen Mating Box

QC091

\$99.95

Often called a Queen Castle, this accessory contains a standard hive body in 3 separate compartments (each with its own entrance, air vents, and wooden compartment lid), plywood dividers, and bottom. Comes fully assembled. A telescoping cover is recommended but not provided with this kit.

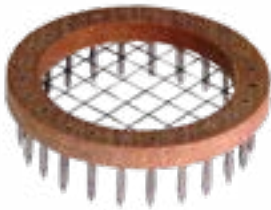

Queen Muff

QC118

\$31.95

Prevent your queen from flying off when handling her. Whether you want to mark or clip her, this is a safe environment for doing so.

Queen Marking Disc - Push In Cage

QC108

\$24.95

Designed to trap your queen on the comb for marking. Simply pin your queen down and mark her through the soft mesh. Allow her to dry for a bit before releasing.

Plastic Queen Catcher

HD100

\$4.95

Safely catch your queens with our spring-loaded catcher. Allows workers access to the queen inside. Clear plastic with spring action.

Queen Marking Pen

HD373	Blue (year ending 0 or 5)	\$8.95
HD372	White (year ending 1 or 6)	\$8.95
HD379	Yellow (year ending 2 or 7)	\$8.95
HD380	Red (year ending 3 or 8)	\$8.95
HD378	Green (year ending 4 or 9)	\$8.95
HD371	Marking Pen Kit	\$29.95

This is the quickest and easiest way to mark your queen! Just mark a small spot on her thorax, and when you are finished, the marker conveniently fits into your pocket. Keep track of your queen by using the international color code to identify the age of your queen.

Stainless Steel Queen Catcher

HD102

\$12.95

For those who prefer metal, this queen catcher is for you! Safely hold your queen while you work while giving the workers full access to the queen. Made of stainless steel.

Queen Marking Numbers

HD386

\$14.95

Use these to keep track of your queens! Numbers 1-99. Color may vary. Non-adhesive; glue required.

Pipe Queen Catcher

QC106

\$17.95

Simply place the pipe over your queen and allow her to crawl into the pipe. Place the foam over the hole and remove the cork for gently blowing your queen into a queen cage. Repeat when adding workers to the queen cage.

Queen Marking Tube

HD388

\$7.95

This clear plastic marking tube features a screened bottom so you can easily mark your queen. Simply scoop her up and gently nudge her down with the soft foam plunger until her back meets the screen.

One-Handed Queen Catcher

HD101

\$24.95

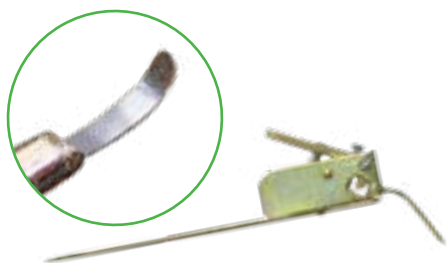

Includes a built-in safety stop to keep from applying too much pressure and killing the queen. Its one-handed design makes it quick and easy!

Chinese Grafting Tool

HD390	1 - 49	\$4.95
	50-99	\$4.45
	100+	\$3.95

The most popular grafting tool on the market! Features a flexible head that easily slides under the larva and royal jelly to scoop it out of the cell.

Master Grafting Tool

HD383	Master Grafting Tool	\$59.95
HD384	Replacement Tongue	\$4.95

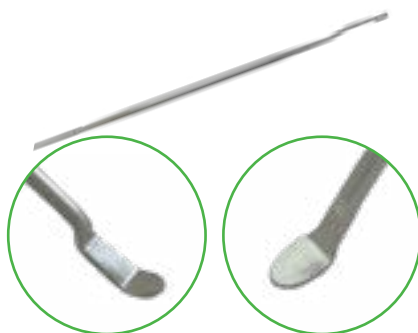

Designed so the tongue extends when pressure is applied to the thumb lever. Once you release pressure on the lever, the tongue retracts and the larva is safely placed inside the cell cup. Includes one replacement tongue.

TempQueen

DC705	10 Pack	\$79.95
DC715	50 Pack	\$129.95

Improve Queen Rearing Success! TempQueen (simulates an egg-laying queen) used in queen mating nuclei in early spring can maintain significantly higher bee numbers than in non-treated nucs. Insert one lure in each mating nuc when it is established or when the queen cell is inserted. Store in the freezer until ready to use.

Metal German Grafting Tool

HD275 **\$23.95**
Made of smooth stainless steel, this tool has two ends. It has a longer neck on one side. The other end offers a wide, flat base design to get under the larva and gently remove it from the cell.

Original **Jz-Bz**

JZs BZs Plastic Grafting Tool

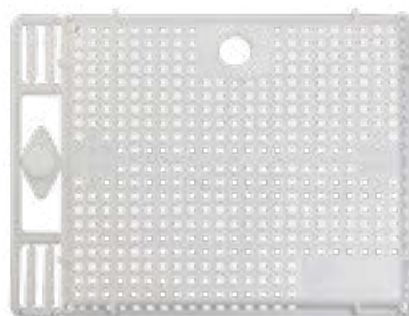

QC910 **\$6.95**
Designed to give you good visibility into the cell. It is made of molded plastic with a thin tip that is used to easily get under and pick up the larva.

Hamby Queen Dial

QC122	English	\$29.95
QC123	Spanish	\$29.95

Know when you should be doing different tasks and keep track of where you are in the cycle. Invaluable for the beginner or experienced queen breeder.

Queen Introduction Cage

QC140 **\$8.95**

This molded plastic cage with attachable legs and cover hole will effectively hold your queen on a patch of foundation. The workers are still able to feed the queen during introduction.

Larvae Transfer Station

QC109 **\$59.95**

Make grafting easy! It's designed to securely hold one deep or medium frame, and it's adjustable, allowing you to find the most comfortable grafting angle with your frame. There is even a convenient space for you to place your cell bar!

Follower Boards

WW155	9 5/8" board	\$9.25
WW165	6 5/8" board	\$8.25

Use this false frame to effectively manage your hives. Reduce the working space within your hives, help the bees maintain the brood rearing temperature and increase air flow with this simple component.

SUCCESSFULLY RAISE QUEENS!

We have the tools that you need to make queen rearing easier!

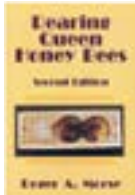

Queen Rearing Starter Kit

QC090

\$152.25

Whether you're new to queen rearing or if you've done it for many seasons, this kit will provide you with the basics that you need in order to successfully raise your own queens.

- 1 Assembled Mating Box
- 1 Cell Bar Frame
- 1 Chinese Grafting Tool
- 1 Queen Marking Tube
- 1 Yellow Marking Pen
- 30 Pin Cell Cups
- 30 Cell Protectors
- 30 Round Queen Cages

Rearing Queen Honey Bees

BM200

\$22.95

Whether you are interested in raising a few queens or many queens, this book by Dr. Roger Morse is highly informative with step-by-step instruction. Soft cover, 128 pages.

Queen Rearing Essentials 2nd Edition

BM346

\$39.95

At the request of readers and instructors, Dr. Connor has added sixty more pages of techniques and queen management ideas. He has expanded the concept of the queenless builder colony for use by those beekeepers who want to graft more frequently. This book will help you if you only need a few queens a year, or if you want to produce hundreds or thousands. Soft cover, 160 pages.

10 Frame Cloake Board

WW182

\$46.95

Originally designed by Harry Cloake, this board is a cost-effective approach to queen rearing, making it a must-have for beginners. Instructions included.

10 Frame Double Screen Board, Assembled

WW180

\$34.95

Splitting hives simplified! Place between the old and new hive and the old bees will make their way back to the old hive, leaving young bees with the new queen. Ships assembled.

Genesis Incubator

PP429

\$210.00

Some beekeepers have started finishing or transporting their queen cells in incubators! If you're interested in trying a new way of queen rearing, consider using an incubator.

QUEEN REARING KIT & REPLACEMENT PARTS

Complete Queen Rearing Kit

QC100

This system eliminates the process of grafting by having the queen lay directly in the cell cup. This system allows you to raise up to 110 queens at one time. All components are reusable except the brown cell cups. Reusing cell cups greatly diminishes the acceptance rate.

- 1 Cell Grid
- 10 Brown Cell Fixtures
- 110 Brown Cell Cups
- 10 Yellow Cell Cup Holders
- 10 Hair Roller Cages
- 10 Candy Cup/Closure

MATING NUC BOXES

Styrofoam Mini-Mating Nuc Box

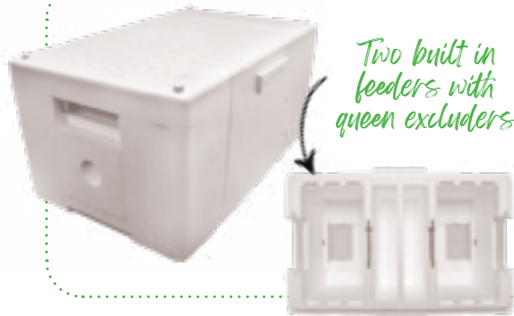

IN140	1-11	\$29.95
	12-31	\$24.95
	32+	\$19.95
IN146	Feed Liner	\$4.75

Includes 3 fully assembled mini frames (foundation not included), a built-in feeder, a closable entrance, easy access frames, ventilation grid, and a built-in excluder that keeps queens out of the feeder. The removable bottom offers extra ventilation and easy to clean out. 6" x 9" x 6 1/2"

Bottom View

Inside View

Double Mating Nuc Box

IN150	1 - 89	\$47.95
	90+	\$39.95

Larger size allows breeders to "pre-grow" frames. High-density construction provides optimal temperature stability and the reinforced pry point doubles as a handle. Includes 2 built-in feeders with queen excluders, 2 removable bottom panels that offer extra ventilation and easy cleanout, and a closable entrance on each end. Holds 6 mating frames (IN155), sold separately. 11.5" x 17.75" x 8.5"

Single Mating Nuc

IN152	1 - 11	\$24.95
	12-95	\$19.95
	96+	\$18.50

Half the size of our Double Mating Nuc, but its larger size still allows breeders to "pre-grow" frames and helps keep the bees from plugging out the frames. Features a heavier sidewall, improved door - stays put, more durable, better mating with single nucs, high-density foam, and includes an excluder.

- Holds 3 mating frames (IN155) (sold separately)
- High density construction provides optimal temperature stability
- Closable entrance on the end
- Built in feeder with plastic queen excluder
- Bottom panel offers extra ventilation and easy clean out
- Reinforced pry point doubles as a handle
- Stackable

Unassembled Growing Box

IN165	Unassembled Growing Box	1 - 49	\$20.75
		50-249	\$17.95
		250+	\$14.95
IN155	Unassembled Frame		\$2.00
FN585	Rite-Cell® Foundation		\$1.25

Planning on raising queens? Our growing box is used to draw out foundation for use in our queen mating nucs. Pre-grow your double nuc frames! Lap joint. Holds 10 of the half-size frames sold separately. Dimensions:

THE PERFECT SYRUP BLEND

Our exclusive Pro-Sweet™ is the choice of professional and backyard beekeepers. Unlike sugar water, bees treat Pro-Sweet™ like nectar and honey, which not only stimulates the bees to make wax, but also encourages them to store food. Plus, it won't ferment, it is pre-mixed, and ready to feed!

PAIR WITH
PRO HEALTH
A PRODUCT BY MANN LAKE
**FOR STRONGER,
 HEALTHIER BEES!**

Pro-Sweet

LIQUID FEED

Proudly made by
MADE IN USA
MANN LAKE

- ✓ **NO CRYSTALLIZATION OR FERMENTATION!**
Stores longer and will not ferment like sugar water.
- ✓ **GREAT BLEND OF INGREDIENTS**
Liquid sucrose stimulates the hive and HFCS 55 adds weight.
- ✓ **THE RIGHT CHOICE**
the choice liquid feed of professional and backyard beekeepers.
- ✓ **READY TO USE!**
No mixing required. just pour into your feeder.

Don't forget the sprayer!

Pick up an All-Purpose Sprayer! Mist package bees during installation or during hive inspections.

All-Purpose Sprayer
 HD055 **\$7.95**

How to Use Pro-Sweet

Pour Pro-Sweet directly into whatever style of feeder you use. Honey supers should be removed because you don't want your bees packing Pro-Sweet into comb that you plan on extracting. If you want to build up honey again later, replace the supers when you're done feeding.

Pickup the Savings!

In addition to our branches in Hackensack, MN, Woodland, CA, Wilkes-Barre, PA, Marshall, TX, Clarkson, KY, and Winter Haven, FL, Pro-Sweet products are available for pickup in Hughson, CA, and Bakersfield, CA.

Top 55 Pickup Locations

Call us and ask to speak to our syrup experts to arrange a load of syrup at the following locations: Hackensack, MN, Arlington, TX, Houston, TX, Phoenix, AZ, and Seattle, WA.

Pro-Sweet

CN079	1 Gallon 3.78 L	\$34.95
CN083	4 pack - 1 Gallon 3.78 L	\$419.95
CN076	2.5 Gallon 9.46 L	\$59.95
CN075	5 Gallon 18.92 L	\$129.95

Unlike sugar water, Pro-Sweet™ is a sugar syrup with disaccharide (bees treat these like natural nectar) and monodisaccharide sugars (bees treat these like honey), so it not only stimulates the bees but also helps add weight to the hive. Pro-Sweet's™ high sugar content and low pH prevent fermentation and inhibit bacterial growth, providing more benefits than simply feeding sugar water to your bees.

EXPERIENCE THE PROS!

Promote strong and healthy hives with feeding supplements from Pro Health. Composed of powerful lemongrass and spearmint essential oils, these supplements promote strong and healthy hives when used as a feeding supplement during late winter, early spring, and during dearths of nectar.

THE ULTIMATE POLLEN SUBSTITUTE!

Ultra Bee Rocket Fuel patties have all the benefits of Ultra Bee with the inclusion of 5% natural pollen and Apis Biologix Bio-Activator making it the ultimate pollen substitute. Natural pollen inclusion results in high palatability and consumption rates. Ultra Bee Rocket Fuel patties are made with only plant-based ingredients and natural, irradiated USA-sourced pollen. This ensures your bees receive a balanced diet of beneficial vitamins, lipids, minerals, and a complete amino acid profile.

- ✓ **The first full spectrum amino acid profile!**
- ✓ **The first to provide the critical neurotransmitter Gamma Aminobutyric Acid (GABA).**
- ✓ **The first to provide trace mineral replacement / supplementation for apiaries existing within an agricultural context.**
- ✓ **Introducing the leading edge science to Ultra Bee with microbial produced menaquinones (Bacillus Subtilis / Vitamin k2 - MK7), following nature's intricate design with the inclusion of Apis Biologix BIO-ACTIVE.**
- ✓ **With the addition of Apis Biologix proprietary BIO-ACTIVE formula Bifidobacterium produced metabolites (or post biotics) are also included in this new, premium patty.**

Contains 5% natural Pollen!

Apis Biologix Bio-Activator

DC122	108g	\$23.25
DC123	1,296g	\$252.00

Apis Biologix Bio-Activator, also known as Canadian Rocket Fuel, is the first (and only) formulation of vitamin, Carotenoid, Phytosterol, Nucleic & Amino acid, Co-enzyme, Enzyme, hemicellulose, Phenolic, Hydroxyl, Alkaloid, Flavonoid, phytohormone and Trace Mineral profiles in the concentrations and proportions found naturally in floral pollen.

Apis Biologix Bio-Control

DC120	200 Liter	\$25.99
DC121	1,000 Liter	\$69.99

Apis Biologix Bio-Control, also known as Canadian Rocket Fuel, is the first, and only, formulation of phytochemical, amino acid, vitamin and phytohormone profiles naturally present in floral nectar. Also known as rocket fuel, this feeding supplement is applied by mixing into sugar syrup during feeding. This proprietary supplement blend contains the beneficial elements, that bees would consume from nectar offering beneficial effects on the population of colonies.

Ultra Bee Rocket Fuel

FD437	1 lb patty	\$9.95
FD439	10 lb box of patties	\$69.95
FD435	1-9	\$139.95
40lb	10-48	\$134.95
box of patties	49+	\$129.95
FD434	2100 lb tote of patties	\$4,299.95

Our Ultra Bee Rocket Fuel patties are the best option to sustain and stimulate your bees so they can remain hearty and healthy. This premium protein feed source includes high-protein content, combined with U.S.A.-sourced pollen and Bio-Activator from Apis Biologix. The result is a superior feed that provides your bees with the nutrition they need for increased brood production, resulting in higher colony population and greater honey yields during the nectar flow. These patties were developed to closely resemble the nutritional factors and benefits of naturally foraged pollen to promote overall colony health.

SUPERIOR POLLEN SUBSTITUTE WITH NATURAL POLLEN

Ultra Bee Plus Patties is a premium protein feed source for your honey bees that includes the added benefits of USA sourced pollen. The high protein content in Ultra Bee Plus Patties helps your bees produce a healthy brood build-up while the natural pollen content increases the consumption of the patty itself. This perfect combination of plant-based ingredients and pollen allows for population growth which leads to a more productive colony and stronger, healthier bees.

- ✓ Includes natural, irradiated pollen sourced from US beekeepers.
- ✓ Made with only high-quality ingredients.
- ✓ Pollen naturally increases patty consumption rate.
- ✓ High protein content encourages healthy brood build-up.
- ✓ 15% crude protein content.
- ✓ 5% natural pollen content.
- ✓ Convenient & ready to feed patty formulation.

CONVENIENT AND READY TO FEED!

Ultra Bee Plus Patties are made with only high-quality ingredients and natural, irradiated, USA-sourced pollen. This ensures your honey bees are receiving a balanced diet of beneficial vitamins, lipids, minerals, and a complete amino acid profile.

Ultra Bee Plus Patties

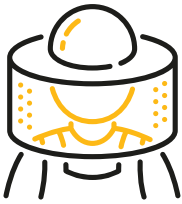

FD313	Single Patty		\$8.95
FD314	10 lb (4.54 kg)		\$54.95
FD315	40 lb (18.12 kg)	1 - 9	\$109.95
		10 - 48	\$104.95
		49+	\$99.95
FD316	2,100 lb (954.3 kg)		\$3,799.95

We offer Ultra Bee Plus Patties in three convenient sizes: 1 lb, 10 lb, 40 lb, or 2100 lb. Patties are pre-formed (approximately 1 lb each) and are ready to feed directly out of the box. We recommend using the product within 18-24 months of the manufacture date. Any unused feed can be stored in the freezer to reduce protein degradation.

Not less than 15% crude protein. Patties are premade and ready for feeding.

The Importance of Natural Pollen

Pollen is a natural protein source for the honey bee diet and is required for raising healthy brood in the hive. All of the pollen in our patties is sourced from USA beekeepers, ensuring the highest quality standards are met. The inclusion of natural pollen in supplemental feed has been shown to have positive effects on both consumption rate and brood production in the hive. The pollen used in our feed is irradiated to eliminate harmful pathogens, such as fowlbrood, chalkbrood and other honey bee diseases. The irradiation process leaves no residue and has no harmful effect, ensuring that your bees are consuming the finest ingredients.

STRONGER AND HEALTHIER HIVES

GOOD

MADE BY
Mann Lake
IN THE
USA

- ✓ Produces results statistically equivalent to natural pollen!
- ✓ Bees utilize ALL of the available protein with a complete amino acid profile.
- ✓ Increased brood production.
- ✓ Promotes healthier and stronger bees.
- ✓ Made with beneficial vitamins, minerals, and fats.
- ✓ No animal byproducts.

Ready to feed when you need it.

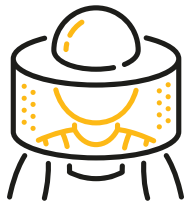

Ultra Bee Dry Feed

QUALITY NUTRITION
BENEFICIAL VITAMINS,
MINERALS AND FATS

HIGHER HONEY YIELDS
LARGER THRIVING COLONIES
PRODUCE MORE HONEY

READY TO USE
EASY POLLEN SUBSTITUTE
IN POLLEN DEARTH

PROTEIN RICH
HIGHEST PROTEIN
AVAILABLE

Bees Need Protein to Brood

Scientifically developed to provide the best bee breed nutrition, Ultra Bee has been proven to match natural pollen's results in the field by providing a complete amino acid profile that allows bees to make the most of the beneficial vitamins, fats, and minerals that they need to be at their best. Your bees mean business, you should too.

Pickup the Savings!

In addition to our branches in Hackensack, MN, Woodland, CA, Wilkes-Barre, PA, Marshall, TX, Clarkson, KY, and Winter Haven, FL, Ultra Bee products are available for pickup in Hughson, CA and Bakersfield, CA.

NUTRITION YOUR BEES NEED!

Ultra Bee provides an excellent source of the protein and carbohydrates honey bees need to raise brood when natural pollen is not available in sufficient amounts.

Highest Protein Content!

Ultra Bee Dry Feed

FD213	1 lb canister (454 g)		\$19.95
FD210	10 lb canister (4.54 g)		\$44.95
FD224	40 lb bag (22.65)	1 - 4	\$99.95
		5 - 49	\$94.95
		50+	\$89.95
FD212	1,500 lb (680 kg) tote		\$2,469.95

The Ultra Bee High Protein Pollen Substitute is a highly recommended product for beekeepers. This formula is designed to provide essential nutrients and vitamins to bees, helping them maintain strong health and vitality. It contains high levels of protein and is an excellent substitute for natural pollen.

Not less than 58% crude protein.

Apiary & Range Feeder

PH310 **\$103.95**

Need a way to feed bees in bulk? This Apiary Range Feeder will suit your needs! Built with durable plastic this feeder will hold up to more than just the elements! It also has a rain shield which will prevent spoilage when feeding. Feeder also works great for Quail range feeder! Pairs great with Ultra Bee!

Dry Bee-Pro Feeder

FD115 **\$174.95**

This pollen feeder is designed to easily distribute pollen supplements to the bees without letting the elements affect the quality of your feed. This feeder is designed to allow many bees to feed at once and disassembles for cleaning and storage. Holds approximately 34 lbs (15.40 kg) of dry feed. Remove honey supers intended for human consumption prior to feeding.

Ultra Bee Patties

FD372	Single Patty		\$7.99
FD374	10 lb (4.54 kg)		\$39.99
FD375	40 lb (18.12 kg)	1 - 9	\$89.95
		10 - 48	\$84.95
		49+	\$79.95
FD376	2,100 lb (954.3 kg)		\$2,999.99

A complete amino acid profile! Beneficial vitamins, lipids and minerals! Made with the finest ingredients and 15% Crude Protein. To ensure maximum protein content, we recommend using the product within 18-24 months of the manufacture date. Unused feed can be stored in the freezer indefinitely to reduce protein degradation.

Not less than 15% crude protein. Patties are pre-made and ready for feeding.

Ultra Bee Bulk Packed Soft Patties

FD332	40 lb (18.12 kg)	1 - 9	\$74.99
		10 - 35	\$69.99
		35+	\$64.99

To meet the nutritional needs of your bees start with our Ultra Bee patties, add more fat and syrup and finish with Pro Health! Plus we add probiotics! Our bulk format eliminates the mess of paper. Our soft patty formula is easy to apply.

Not less than 15% crude protein.

THE ORIGINAL MANN LAKE RECIPE!

GOOD

Bee-Pro

HIGH POLLEN SUBSTITUTE

Proudly made by
MANN LAKE

HIGH PROTEIN CONTENT

- ✓ **Complete balanced nutrition.**
- ✓ **Helps increase early brood production.**
- ✓ **Ready to feed! No mixing and no mess with Bee-Pro® Dry Feed.**
- ✓ **Convenient Bee-Pro® Patties+ go from box to hive in seconds.**
- ✓ **Contains the best nutrients available for the production of larval food.**

Pickup the Savings!

In addition to our branches in Hackensack, MN, Woodland, CA, Wilkes-Barre, PA, Marshall, TX, Clarkson, KY, and Winter Haven, FL, Bee-Pro products are available for pickup in Hughson, CA and Bakersfield, CA.

The Building Blocks of Protein

Amino acids are the building blocks of protein. The correct amino acid balance is the key to efficient utilization of protein. Natural pollens can contain pesticide residue and disease carrying bacteria (foulbrood). Our Bee-Pro® Patties+ and Dry Feed are free of all contaminants.

Bee-Pro® can be used for building colonies in late winter or early spring to prepare for pollination and to maintain or increase brood production prior to and after honey flow. Bee-Pro® is a high-protein pollen substitute that supplies minerals, fats, and B-complex vitamins honey bees need to produce larval food.

HIGH PROTEIN POLLEN SUBSTITUTE

Bee-Pro® contains the best nutrients available for the production of larval food! The high protein bee pollen substitute includes everything bees need to produce food for their larvae, including lipids, minerals, antioxidants and B-complex vitamins. This makes it an ideal alternative to bee pollen, which is becoming increasingly scarce. The use of this substitute will help to ensure the survival of bee populations, which are essential to the health of the environment and the agricultural industry.

Bee-Pro® Patties+

FD357	10 lb (454 kg)		\$37.75
FD355	40 lb (18.12 kg)	1 - 9	\$79.95
		10 - 48	\$74.95
		49+	\$69.95
FD354	2,100 lb tote	1 - 5	\$2,699.95
		6+	\$2,599.95

Our Bee-Pro® Patties+ are a great feed made even better with the addition of Pro Health. Pro Health is a digestive health aide that also encourages increased consumption of patties and medicated feeds. If you are looking for faster consumption and maximum nutritional value, this is the way to go! Overall brood production increased by 1½ to 3 frames of brood more than control hives! Why spend more with the other guy when you can save money and build up better bees? Each patty is approximately 1 lb (454 g). Patty Storage: Reseal the plastic bag. Store away from direct sunlight at or below 72° F (22° C). May be stored in the refrigerator or freezer.

Bee-Pro® Dry Feed

FD203	1 lb (454 g)		\$14.95
FD200	10 lb (454 kg)		\$39.95
FD204	40 lb (18.12 kg)	1 - 4	\$89.95
		5 - 49	\$84.95
		50+	\$79.95
FD202	1,500 lb tote		\$1,890.00

Experiencing pollen dearth? Seeing a high concentration of small hive beetles? Our Dry Feed can be fed in dry form in a feeder box, placed in the yard using our Dry Bee-Pro® Feeder (FD115 page 71), or made into patties by mixing with high fructose corn syrup or Pro-Sweet Liquid Feed. *Specially formulated for the commercial beekeeper who is feeding syrup as the source of carbohydrates in the bee's diet.

Pollen Substitutes (Protein) Comparison Chart

FEEDS	PROTEIN CONTENT	NATURAL POLLEN CONTENT	INCLUDES APIS BIOLOGIX BIO-ACTIVATOR	FREE OF CONTAMINANTS	AVAILABLE FORM
	15%	5%	YES	YES	PATTIES
	15%	5%	NO	YES	PATTIES
	PATTIES: 15% DRY: 58%	0%	NO	YES	PATTIES & DRY FEED
	PATTIES: 10% DRY: 40%	0%	NO	YES	PATTIES & DRY FEED

CUSTOMIZE YOUR FEEDS!

Be sure to upgrade your enterprise with our professional series of equipment and tools for an optimized approach to beekeeping.

Easy to use!

Simply add just 2 tsp per gallon syrup

We recommend feeding a minimum of 1 gallon of activated syrup per hive in the Fall and ideally again in the Spring

alive

SUPER CONCENTRATED FORMULA!

Proven, Published Data

HiveAlive trial results show

- +89% increase in colony population
- +40% increase in honey production
- 15% reduction in overwinter losses
- +39% increase in brood production

Healthy colonies

Intestinal well-being

RESULTS PUBLISHED IN THE JOURNAL OF APICULTURAL RESEARCH

Prevents syrup from fermenting

No more moldy feeders!

Store unused syrup until the next season!

HiveAlive

DC133	3.44 oz (100ml)	\$31.95
DC135	16.9 oz (500 ml)	\$99.95
DC137	67.63 oz (2 L)	\$210.00

Build stronger colonies and increase honey production with the powerful feed supplement HiveAlive! As little as 2 teaspoons of HiveAlive feed supplement is required per hive for feeding. Simply add to syrup. We recommend feeding a minimum of 1 gallon of activated syrup per hive, but all syrup fed can be activated with HiveAlive. Hive Alive contains a variety of unique natural ingredients:

- *Seaweed extracts: Have been consistently shown to improve animal health including productivity, immune function, gut health, and nutrition.*
- *Thyme: Blended using a unique emulsification process to ensure that no separation or re-crystallization occurs.*
- *Lemongrass: At the optimal concentration so that it does not cause robbing.*

(100ml feeds 10 hives, 500ml feeds 50 hives, 2L feeds 200 hives)

220 lb (99.79 kg) Stainless Steel Mixer

HH821 **\$5,665.75**

- 20 gauge (0.95 mm) stainless steel construction
- Single shaft, 5 paddle mixing mechanism
- 8.5 cu. ft. (.24 m3) capacity
- 2 hp, must be wired for 220 V
- Great for mixing pollen substitute patties or medicated feeds

5 paddle mixing

FEEDERS & FEED ACCESSORIES

Dry Bee-Pro Feeder

FD115

\$174.95

This pollen feeder is designed to easily distribute pollen supplements to the bees without letting the elements affect the quality of your feed. This feeder is designed to allow many bees to feed at once and disassembles for cleaning and storage. Holds approximately 34 lbs (15.40 kg) of dry feed. Remove honey supers intended for human consumption prior to feeding.

1 Gallon Screw on Jar and Bases Waterers

PW532 Jar Only

\$4.00

PW534 Base

\$2.25

Just like all animals, bees need water too! Use this waterer to provide a source of water in your apiary.

Hinged Feed Control 16 lb Universal Feeder

PH136

\$22.95

Need a dry pollen substitute feeder? This is the perfect economical option. Designed with a hinged lid that overlaps to protect feed from rain. This feeder holds up to 16lbs of dry pollen substitute.

50 lb Rain Shield Feeder

PH152

\$103.95

The best small to medium capacity range feeder ever made. The lid and rain shield are made of durable plastic molded into one piece. This unit goes down over the feeder body to the correct height from the pan to make an excellent rain and sun shield. The whole top unit is removed for easy filling. The pan depth is 4 3/4" and the diameter is 22". The overall height is 24". Cover diameter 24". Holds up to 50 lbs. of dry pollen substitute.

Apiary Range Feeder

PH310

\$103.95

Discontinued - Available while supplies last!

This range feeder is the ideal option for protecting your dry pollen substitute when feeding your bees. Holds up to 50 lbs. of dry pollen substitute. The rain shield will prevent feed from spoiling.

15" Double Handle Knife

HD333

\$34.95

A durable and sturdy knife featuring plastic double handles for cutting soft patty material and fondant.

- 15" blade
- 25" handle to handle

FREE SHIPPING ON MOST ORDERS \$150+

PRO FEEDERS - THE PERFECT LIQUID FEED FEEDER!

PRO FEEDER

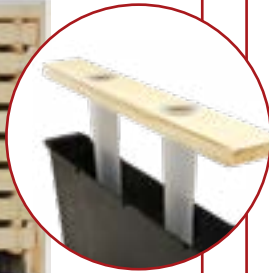

Use with or without cap system!

One Design, 4 Sizes!

- ✓ **STRONGER**
The wood cap system and the inside wall supports add to the unparalleled structural integrity of the feeder.
- ✓ **REVOLUTIONARY CAP & LADDER SYSTEM**
Sealed feeding tubes ensure the bees are confined to the feeding area so you will experience minimal drowning.
- ✓ **EASY TO CLEAN**
This is the only feeder available where the entire cap and ladder system is easily removed for cleaning.
- ✓ **NO BURR COMB TO CLEAN**
Sealed feeding tubes prevent the bees from making burr comb in the feeder and keeps the queen from laying brood inside.
- ✓ **TEXTURED INTERIOR WALLS**
Textured interior walls for those who wish to use the feeder without the cap and ladder system.

THE MAX PRO FEEDER

Pro Feeders are a must-have for your hive. These feeders hold plenty of liquid feed, but are built with textured interior walls to help your bees climb in and out easier. Above all, these feeders are built easy to clean, considering the sticky syrups that will fill these containers.

✓ DURABLE LADDER!

Our ladder for the 9 1/8" feeder is made up of a durable material. Complete with a lip at the top and a flat bottom to hold it in place securely.

✓ LARGER SIZE SAVES YOU TIME & MONEY!

Max Pro Feeder holds close to 2 gallons (7.56 l) and the Pro Feeders hold 1 gallon (3.78 l) or 1 1/2 gallons (5.68 l), saving you time and fuel with fewer trips to the bee yard.

6 1/4" Pro Feeder 3" (7.62 cm) Wide

- Holds 1 gallon (3.78 l)
- Ear measures 3" (7.62 cm)
- Fits with a 3/4" (1.94 cm) gap using 8 frames

TOP FEEDERS

Convenience at its finest! No need to fully open your hive to feed, simply lift your top cover and pour in your liquid feed!

100% ASSEMBLED

Fill feeder without opening the hive!

Complete Top Feeder

FD131	Painted 10 Frame	\$42.95
FD130	Unpainted 10 Frame	\$38.95
FD119	Painted 8 Frame	\$42.95
FD118	Unpainted 8 Frame	\$38.95

This ready-to-use top feeder features a galvanized steel safety screen to prevent the drowning of bees. The feeder insert is constructed of a single piece of heavy-duty plastic to provide a no-leak reservoir! Bees enter the feeder through openings under the screen and are kept from the reservoir by the screen. Wood is assembled, screen assembly required.

- Fill feeder without opening the hive
- Improved design to help keep the bees under the screen
- One-piece construction prevents leaking
- Includes 4-5/8" Super
- 10 Frame holds up to 4 gallons (15 l)
- 8 Frame holds up to 3.2 gallons (12.1 l)

Feeder Insert

FD129	10 Frame	\$32.95
FD117	8 Frame	\$32.95

Fits into your 4 5/8" super with some assembly required. Screen and hardware included.

100% ASSEMBLED

Vented Super, Assembled

WW011	10 Frame	\$24.95
WW010	8 Frame	\$24.95

Recommended for extra ventilation at the top of the hive to avoid bearding. Each side has screened vent holes for additional circulation. Vented supers are also suggested for use with our hive top feeder. Depth is 1-7/8" deep.

Pair the Vented Super with Top Feeders for increased ventilation

Universal Boardman Entrance Feeder

FD101	Feeder	\$7.95
FD241	Replacement Lid	\$2.50

This feeder allows you to use your own Mason type jar, 5 lb (2.27 kg) round jar or 6 lb (2.72 kg) jar for feeding at the entrance of your hive. This feeder is not recommended for cold weather feeding. Fits 7/8" opening.

Boardman Entrance Feeder

FD100	Feeder	\$7.95
FD241	Replacement Lid	\$2.50

This feeder allows you to use your own Mason type jar or 5 lb (2.27 kg) round jar for feeding at the entrance of your hive. Pro Tip: to ensure the feeder is properly installed, use your hive tool to lift the bottom box. Once lifted, slide the feeder in. Fits 3/4" opening.

Easy-Grip Feed Can

FD498	Feeder Can	\$5.99
FD499	Replacement Lid	\$0.99

Made of durable high-density polyethylene and moldered here within the US. These cans are dimensionally similar to metal cans many beekeepers are familiar with. They fit in existing feed-can crates and pallets used by metal cans. These cans won't rust and do not need painting or wax dipping. Holds one gallon.

Proudly made by
MANN LAKE

Spacer Shim

WW239	10 Frame	\$9.95
WW382	8 Frame	\$9.95

Designed to reduce brood chamber congestion/swarming. Place between supers with drawn comb to add an upper entrance/exit to aid honey production. Allows space for patties. Assembly required. Includes nails and instructions.

Baggie Feeder

FD112	10 Frame	\$15.95
FD120	8 Frame	\$15.95
FD113	Replacement Baggie	\$1.95

Feeding with baggies? This feeder provides the space required for two 10" x 13" baggies. Place feeder just below your inner cover. Comes with hardware to assemble and 2 baggies. Ships unassembled.

The Bee Bar Cap

FD242		\$9.95
-------	--	---------------

Designed for jar feeders and works with sugar syrup, water and more! Easily fits our boardman feeder and is mason jar compatible. This cap does not rust. Dishwasher safe!

The Beekeeper's Guide to BEE HEALTH BASICS

Keep your hives happy and healthy by knowing the signs of common pests and bee diseases.

Varroa Mites

THE BASICS

Varroa mites pose a significant threat to honeybee colonies by reproducing in brood cells, harming developing larvae and weakening bees' immune systems. They also carry harmful viruses, like deformed wing virus, making colonies more vulnerable. If not treated, Varroa mite infestations can increase winter mortality in colonies.

WHAT TO LOOK FOR

Varroa mites can harm honeybees by causing deformed wings, making them crumpled. These small mites are tricky to spot due to their size. Keep an eye out for reddish-brown spots on bees, especially around their thoracic or abdominal areas. Varroa mites prefer laying eggs in drone brood cells. Check for them by visually inspecting capped drone brood cells.

WHAT TO DO

- Because they are hard to spot, testing is recommended.
- Use the Varroa Easy Check to determine your mite count.
- Install a screened bottom board so that when mites dislodge from the bees, they cannot reattach.
- Re-queen the hive to cause a break in the brood cycle, which in turn disrupts the Varroa's laying cycle.

ML RECOMMENDS: **APIVAR**® P.80

Small Hive Beetles

THE BASICS

The Small Hive Beetle causes significant harm to beehives by consuming various hive resources like developing larvae, wax, pollen, and honey. This weakens the hive, reducing productivity and potentially destroying weaker colonies. The beetle larvae also carry yeast, contaminating honey and causing fermentation, making it unfit for consumption and storage. This can lead to the hive being 'slimed out' and contribute to the colony's decline.

WHAT TO LOOK FOR

A small black beetle in dark hive spaces can make the hive smell like rotting oranges. Look for white eggs in hive crevices, showing the beetle is reproducing. Inside, cream-colored larvae eat pollen and honey before leaving to pupate in the soil. Regular checks help manage these beetles and keep the hive healthy.

WHAT TO DO

- Place hives in direct sunlight as the beetles prefer shaded hives.
- Keep the hives well kept and frames in top condition. Wood that is rotting, warped, or has holes in it provides safe harbor for the beetles. Beetles prefer shaded hives.
- Use a ground drench of permethrin to interrupt the life cycle.

ML RECOMMENDS: **PERMETHRIN** P.88

Tracheal Mites

THE BASICS

Tracheal mites are tiny parasites that invade a bee's breathing tubes, causing blockage and piercing, which is fatal for the bee. Detecting these mites is hard and needs bee dissection for accurate diagnosis. Their presence can lower hive productivity and hinder population growth.

WHAT TO LOOK FOR

A honey bee with tracheal mites may show signs like lethargy, disjointed wings, and difficulty flying. A noticeable decrease in bee numbers can also signal a tracheal mite infestation. Disjointed wings mean the wings look irregular or uneven, unlike the symmetrical and uniform wings of healthy bees. Beekeepers should closely observe bee wings during inspections, as irregularities could indicate health issues, especially tracheal mite problems. If irregularities are noticed, further investigation or intervention may be needed to protect the hive's well-being.

WHAT TO DO

- Introduce menthol crystals or grease patties to your hive as a treatment.
- Re-queen the hive because young, active laying queens cope with mite infestations much better than colonies with older queens.
- Call your state apiary inspector for more information about tracheal mite inspection.

ML RECOMMENDS: **MITE-A-THOL**® P.90

Scan here! ↗

Wax Moths

THE BASICS

Wax moths pose a threat to honey beehives, feeding on beeswax, residual pollen, and hive debris. Their larvae tunnel through the hive, releasing a web-like substance that hampers honey bees' ability to clean their comb and use beeswax effectively. Wax moths are more likely to infest weak or struggling bee colonies. Colonies that are under stress, have a declining population, or are dealing with diseases are more vulnerable.

WHAT TO LOOK FOR

Evidence of a wax moth infestation includes silk trails across frames, tunnels in the comb, and damaged comb with debris accumulating on the bottom board. A foul or musty odor may be present in hives infested with wax moths. This odor is a result of the waste produced by the larvae.

WHAT TO DO

- Beekeepers should look at replacing brood combs in hives every 3-4 years.
- When storing hive boxes and frames off season the use of Para-Moth Crystals is recommended.
- Remove any unnecessary brood boxes to leave the bees less to defend.

ML RECOMMENDS: **PARA-MOTH®** P.90

Foulbrood

THE BASICS

American and European Foulbrood are serious bacterial diseases that can severely harm bee colonies. American Foulbrood (AFB) is caused by *Paenibacillus larvae* and affects honeybee larvae, often leading to the collapse of the entire colony. AFB is known for forming spores that are resistant to treatment. European Foulbrood (EFB), caused by *Melissococcus plutonius*, also affects honeybee larvae but is generally considered less destructive and easier to manage than AFB.

WHAT TO LOOK FOR

American Foulbrood (AFB) causes infected honeybee larvae to turn brown or dark, with a twisted appearance. It forms a tough, difficult-to-remove scale over the cell, emitting a foul odor from decomposing larvae. AFB often leads to an irregular brood pattern.

European Foulbrood (EFB) primarily affects honeybee larvae, making them discolored, yellow, or brown, with a melted appearance. EFB forms a dry scale over the cell, which is easily removable, and may not produce a strong odor. It also results in an irregular brood pattern within the hive.

WHAT TO DO

- The bacteria can live on equipment and spread from hive to hive through your gear, so it's important to sterilize your hive tool, smoker, and any protective gear before using it on another hive.
- Check your state's requirements, as some states require beekeepers to destroy infected hives by burning them.

ML RECOMMENDS: **TERRA-PRO®** P.92

Nosema

THE BASICS

Nosema is a condition caused by *Nosema Apis*, a spore-forming unicellular parasite that infects a hive's food or water supply. Honey bees ingest the spores, which germinate and multiply within the bees' gut. Nosema can lead to digestive issues and make a colony more vulnerable to dysentery, particularly in winter when bees cannot leave the hive to eliminate waste.

WHAT TO LOOK FOR

Nosema infections in honeybee colonies may not always show clear symptoms, but beekeepers can look for signs like reduced flying, lethargy, and disorientation in infected bees. Nosema-infected bees may defecate inside the hive, leading to a dirty environment. More dead bees around and inside the hive may be noticed, weakening the colony and increasing mortality. Nosema is linked to a higher chance of dysentery, especially in winter. Infected bees may also forage less, reducing overall colony productivity. It's important to note that these symptoms may indicate other issues besides Nosema.

WHAT TO DO

- The only way to confirm Nosema is through testing.
- You can collect a sample of members of your colony every spring and send them to a local lab for diagnosis.
- Thoroughly disinfect your equipment to avoid contamination between hives.

ML RECOMMENDS: **FUMIDIL-B®** P.93

Apivar[®]

By Vétô-pharma

Formulated
by beekeepers
for beekeepers

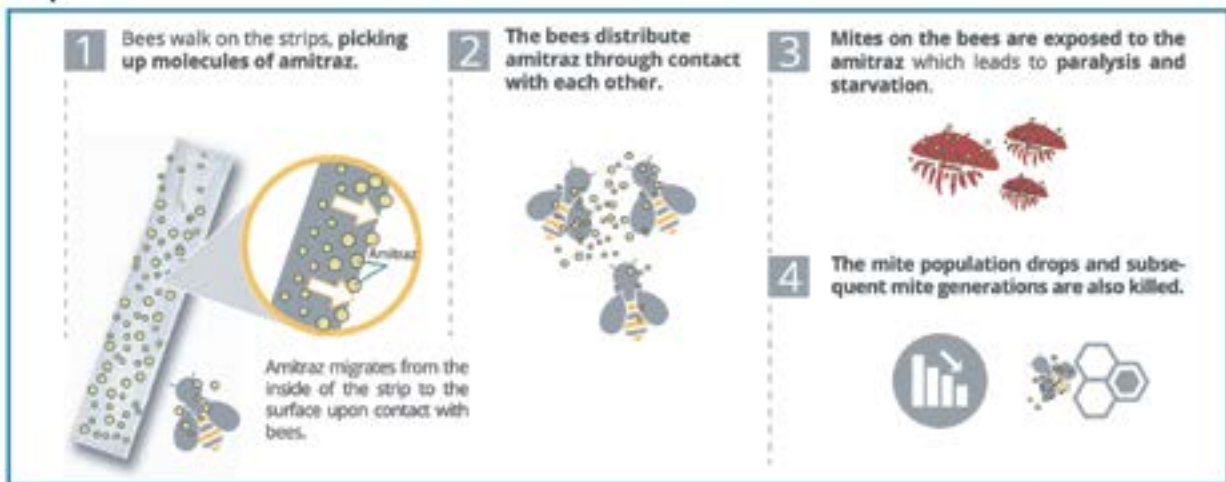

- Kills up to 99% of mites in one application
- Continuously released in the colony over a six-week period, ensuring healthy and productive hives
- Proven safe and effective for more than 20 years
- Leaves no significant residues in hive products

Kills up to 99% of mites in one application over a six-week period.

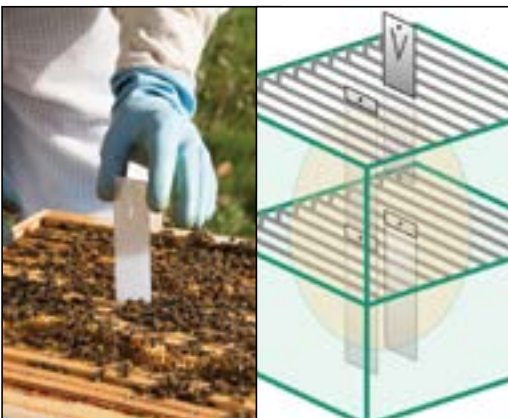

A study conducted by the research arm of the USDA in the spring of 2012 shows that Apivar[®] was responsible for a 52 - fold drop in mite population compared to an untreated hive. This demonstrates the effectiveness of Apivar's[®] controlled - release technology.

No knock-down effect: it is normal not to always see a high fall in the first days of the treatment

Varroas fall through the duration of the treatment.

At the end of the treatment, Apivar efficacy is up to 99%.

Amiflex is a revolutionary varroa mite treatment based on amitraz, developed specifically for commercial beekeepers. Developed and manufactured by Vétô-pharma, a trusted name in honey bee health solutions, Amiflex offers an innovative and effective approach to managing varroa mite infestations.

THE NATURAL SOLUTION FOR VARROA MITE CONTROL

HOPGUARD^{®3}

EASY AND SAFE TO USE

- Naturally derived from hops
- No chemical residues
- Safe during honey flow
- Easy & effective
- New and Improved generation
- Safe on bees, deadly on Varroa mites

Check out Hopguard^{®3}

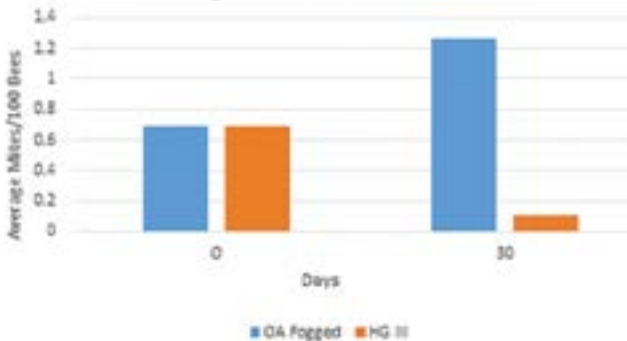

This unique miticide is derived from hop compounds and provides a safe and easy-to-use alternative to harsh chemicals. A food-grade product, HopGuard[®] is safe for bees, honey and the environment.

Hopguard^{®3}

DC312	5 Treatments (10 strips)		\$34.95
DC311	12 Treatments (24 strips)	1-29	\$59.95
		30-119	\$57.95
		120+	\$54.95
DC310	156 Treatments (312 strips)	1+	\$699.95

Average Mite Levels in Treated Nucs

SIMPLE AND EFFECTIVE

Each HopGuard^{®3} kit contains strips that are ready to use. Daytime temperatures should be above 50°F (10°C) to avoid chilling bees & brood. Use two HopGuard^{®3} strips per 10 frames of bees, hanging them between brood frames. Apply consecutive treatments 2 weeks apart in Summer and Fall to effectively reduce phoretic mite levels. Please refer to package label for full instructions.

RESEARCH PROVES HOPGUARD^{®3}'S EFFICACY

Studies show that HopGuard^{®3} is efficacious and naturally promotes bee health and survivability. HopGuard^{®3} is the perfect natural treatment that efficiently targets exposed mites after a break in brood rearing, decreases mite population and improves colony health.

HOPGUARD^{®3} SIGNIFICANTLY REDUCED MITE LEVELS AND REMAINED LOW AFTER 30 DAYS.

HopGuard[®] for CANADA ONLY!

KEEP YOUR COLONY STRONG!

Give your bees the helping hand that they need to stay strong or to fight off unwanted guests. If you are ordering medication in advance, please contact us to determine the expiration date of our current inventory.

Varroxsan, 60 pack

DC803 1-9	\$89.95
10+	\$69.95
DC808 20 Pack	\$39.95

This product, oxalic acid in slow-release fiberboard strips, is going to be a game-changer and we're so excited to be bringing it to the US market. Sustained release and high efficacy (average: 96.8%), means that Varroxsan can be used as a primary knockdown treatment, throughout the season. Varroxsan is approved for use during a honey flow, when supers are present.

- Natural product, suitable for use in organic beekeeping
- Very easy to use, single application
- High efficiency against varroa mites
- Use against varroa mites resistant to amitraz and pyrethroids
- No withdrawal time
- Very safe for users
- 60 strip pack
- Treatment length - 42 to 56 days

VARROXSAN

beehealth
NORTH AMERICA

Groundbreaking Varroa Control

- Fast knock-down, long-acting strips
- Oxalic acid with glycerine for controlled release
- Single application, high efficacy (96.8%)
- Can be used with supers present
- Suitable for use in organic beekeeping

With Apiguard and Apistan you can practice integrated pest management for sustainable varroa control

FORMIC PRO

Fight varroa and protect your honey.

The #1 choice for organic varroa control, *Formic Pro*® offers fast, effective varroa treatment that's safe to use during the nectar flow.

- Organic
- Zero Resistance
- Residue Free

Download the *Formic Pro* Guidebook
Scan the QR code to get pro-tips about application, when to treat and more!

Formic Pro™			
DC640	2 Dose Pack		\$19.95
DC645	10 Dose Pack		\$68.95
DC646	30 Dose Pack	1-55	\$164.95
	30 Dose Pack	56+	\$161.95

The next generation in formic acid treatments is here! Unlike Mite Away Quick Strips™, Formic Pro™ has a longer shelf life of 24 months and no temperature requirements for storage. Daytime temperatures still must be between 50°F-84°F (10°C-29°C) when used. Safe to use during the honey flow! Strips are placed on top of brood frames. A spacer rim is not needed for these strips, but you still need to wear the recommended safety equipment for acid.

Apiguard®

DC805	50 g - 10 Pack	\$49.95
DC806	3 kg Tub	\$143.95
DC807	3 kg Tub - 2 Pack	1-9 \$274.95
		10-79 \$267.95
		80+ CALL

A slow-releasing thymol miticide. It is a natural treatment that is easy to use. Note: This product is not approved for use during a honey flow. See instructions and packaging for more details.

- Efficacy between 85%-95%
- Use in temperatures between 60°F–100°F
- Use in the summer months - after the honey flow
- Natural treatment
- Do not use during honey flow

Apistan

DC665	10 pack	\$45.00
DC650	100 pack	1- 24 \$309.00
		25+ \$309.00

Detect and control Varroa Mites in bee colonies. Effective control may be achieved by treating hives in the spring before the first honey flow and in the fall after the last honey flow. 1 strip for every 5 frames of bees is recommended.

Api Life Var Strips®

DC675	10 pack	\$61.00
-------	---------	----------------

An alternative product for Varroa treatment. Up to 95% efficacy, most effective when the temperature range is 65°- 95° F (18° - 35° C). Three applications are necessary at 7-10 day intervals. When treating using 3 wafers per colony, the 10 pack will treat approximately 6 colonies and the 100 pack will treat approximately 66 colonies. Not available for sale in Hawaii or California.

Chemical Resistant Gloves Disposable - 1 Pair

L (RL122), XL (RL123) **\$2.50**
 Made of 100% nitrile, these gloves provide at least three times the puncture resistance of latex or vinyl gloves of comparable thickness!

Rubber Coated Gloves

M (CL190), L (CL191) **\$19.95**
 XL (CL192), 2X (CL193)
 The hands of these jersey gloves have a nitrile coating which gives you extra gripping power and makes them a breeze to clean. Canvas sleeve for added protection.

GET RID OF MITES USING OXALIC ACID!

Our vaporizers make it easy to treat for varroa mites without opening your hive! Be sure to wear a respirator, safety glasses, and gloves! Oxalic acid is not included.

ProVap110

DC909

\$549.95

This Sideliner/Commercial Oxalic Acid Vaporizer is speedy! Treat your hives in as little as 20 seconds per hive without a wand - just point and shoot! No need for a compressor or battery, simply plug the vaporizer into an inverter, generator, or regular outlet. The ProVap can be used in a small .75" cut hole in the back of the hive or in the front entrance with the addition of a paint stick to block the entrance. 110 V, 330 W, 3.3 amps.

Moldex 1/2 Face Respirator

RL125 Respirator

\$69.95

RL126 Replacement Filters - 2 Pack

\$29.95

- Conforms to the contours of your face sealing comfortably.
- Exhalation valve positioned for better communication
- Low profile for wide field of vision
- Cartridges have a snap-in mount for easy replacement
- Inhalation valve on each cartridge

Varroax Vaporizer

DC907

\$179.95

An outstanding heavy-duty vaporizer at a great price! Durable. Requires a 12 V battery for operation and safety equipment such as a respirator and safety glasses.

Oxalic Acid Vaporizer

DC904

\$99.95

Features a built-in timer and an automatic-off function. Requires a 12 V battery for operation and safety equipment such as a respirator and safety glasses.

Varrox Eddy

DC916

\$499.95

An oxalic acid dihydrate treatment with the evaporator is not only gentle for the bees, but is also safe for the user. Place the device under the beehive and start the treatment with a single push of a button. The user can walk away from the beehive until the end of the treatment. Thanks to the LED lights, it is possible to monitor the progress of the treatment from a distance. The device signals with extra bright and colored LED lights what to do next.

Vaporizer

DC908

\$159.95

An excellent, high-quality Oxalic Acid Vaporizer. Requires a 12 V battery for operation and safety equipment such as a respirator and safety glasses.

Api-Bioxal (Oxalic Acid)

DC903

35g

\$12.95

DC913

350g

\$54.95

An oxalic-based Varroa mite treatment. It is registered by the USDA and is approved by the EPA. Respirator is required and sold separately.

KNOW YOUR VARROA MITE LEVELS!

Make sure your hives are as healthy as they can be! Make sure your varroa mite levels are as low as possible, and test as frequently as needed. Infestations can be detrimental to your hives.

BEST SELLER

Varroa Easy Check

DC671

\$25.95

- Designed for effectiveness: The filter basket is the key to EasyCheck's reliability
- Quick and easy to use, 3 easy steps
- Easily transportable
- Tight-fitting lid is leak-free and comfortable to use
- Two molded guide lines allow for samples of 200 or 300 bees

Field Evaluation Journal

BM329

\$14.95

Keep track of your hives with our Field Evaluation Journal. Complete with 48 pages of all-weather, water-shedding paper. Each page has two sides, one for record keeping, inspection results and observations and the other for notes. The back inside cover comes with descriptions of hive diseases and pest identification. The back cover has a ruler imprinted for easy measuring.

Plastic Drone Frame

PF300	9 1/8" Frame	1-9	\$5.25
		10+	\$4.25
		52+	\$4.00
PF320	6 1/4" Frame	1-9	\$5.00
		10+	\$4.00
		72+	\$3.75

As part of your Integrated Pest Management program for varroa mites, insert one drone frame into each hive.

- 100% beeswax coating
- Food grade plastic 7.1 mm cell size
- One-piece design requires no assembly
- Impervious to wax moth or rodent damage

Bee Squad Varroa Mite Test Kit

DC100

\$39.95

Developed by the University of Minnesota's own Bee Squad, this test kit makes it easier for beekeepers to monitor varroa mite levels in their colonies. Includes tools you need to perform a varroa mite alcohol wash test in one convenient tub! Does not include alcohol.

Checking For Varroa Mites

Regular testing for Varroa mites is vital for beekeepers to maintain colony health. Detecting mite infestations early allows for timely intervention, preventing the spread of diseases and minimizing the risk of winter losses. This proactive approach is integral to sustainable beekeeping practices, ensuring the long-term resilience and well-being of bee colonies.

Measuring Scoop for Oxalic Acid

DC902

\$3.25

The perfect measure every time! Use for accuracy when measuring your oxalic acid. One gram scoop. One spoon per hive body.

Sticky Board with Screen

DC680 Sticky Board

\$9.95

DC681 Replacement Sticky Board

\$6.25

Use to monitor/diagnose a Varroa infestation or check the efficacy of a treatment. It is conveniently printed with grid lines to aid in determining the number of mites present. Check with your local association to determine thresholds in your area.

PREVENTION & TREATMENTS

Protect your hive! Shop our treatments for small hive beetles.

Diatomaceous Earth

DE376	5 lb	\$19.95
DE375	50 lb (no free shipping)	\$79.95

Diatomaceous Earth is the perfect solution for the environmentally conscious beekeeper who demands effectiveness without chemicals. This product is safe and non-toxic to both animals and humans. It's made of 100 percent food-grade freshwater diatomaceous earth. Diatomaceous earth is a mineral-based substance made from the fossilized remains of algae-like water plants. Diatomaceous earth is a 100 percent natural product with numerous uses.

Beetle Baffle™

DC870	10 Frame Beetle Baffle	\$29.95
DC860	8 Frame Beetle Baffle	\$29.95
DC875	10 Frame Spacer	\$5.95
DC865	8 Frame Spacer	\$5.95

It forms a downward-facing ledge that permits bee traffic but makes it difficult for beetles to climb over. Bees quickly adapt their herding behavior to drive beetles downward and out of the hive. The wood spacer is required for installation and is sold separately.

Beetle Towels

DC673	Full Sheet - 5 Pack	\$12.95
DC683	Full Sheet - 150 Pack	\$74.95

An effective and economical way to trap small hive beetles! Place one to two sheets in each hive where beetles congregate. Beetles are unable to escape once they make contact with the towel. Replace sheets once they become filled with beetles and repeat!

Permethrin SFR Termiticide/Insecticide

DC835	1 Pint	\$39.95
DC840	1 Quart	\$79.95

Permethrin SFR is a ground drench (DO NOT USE INSIDE THE HIVE) used to control ants and beetles outside the hive. Mix 1 1/2 fl. oz per gallon of water. If treating in an area where hives are present, use a watering can to avoid any over-spray from affecting the hives.

Diagnosis and Treatment of Common Diseases

BM901	\$41.95
-------	----------------

The Bee Informed Partnership has put together this manual to help you diagnose AFB, EFB, Chalkbrood, PMS and SBV and details symptoms and treatment methods. Spiral bound with coated pages make it easy to use in the bee yard. Soft cover.

KEEP SMALL HIVE BEETLES OUT!

Free your hives from small hive beetles and other pests!

Screened Bottom Board

WW692	Painted 10 Frame Bottom Board	\$49.95
WW691	Unpainted 10 Frame Bottom Board	\$46.95
WW697	Painted 8 Frame Bottom Board	\$49.95
WW696	Unpainted 8 Frame Bottom Board	\$44.95
DC684	10 Frame Beetle Trap & Mite Count Tray	\$29.50
WP925	Wax Dipped Screened Bottom Board	\$59.95

Pre-assembled screened bottom board for 8 or 10 frame equipment. Includes a stapled-in screen and reinforced to add extra strength. Bottom board is also routed to allow removal of back cleat for use with Beetle Trap (not included). Entrance reducer included.

No attractant is needed for the Beetle Trap, just fill tray with food-grade oil, hydrated lime, or diatomaceous earth. If mite count is needed, cover with film of petroleum jelly or oil. Trays are compatible with our screen bottom boards with angled landing.

Nuc Mini Beetle Blaster

DC688	1 - 09	\$2.85
	100+	\$2.45

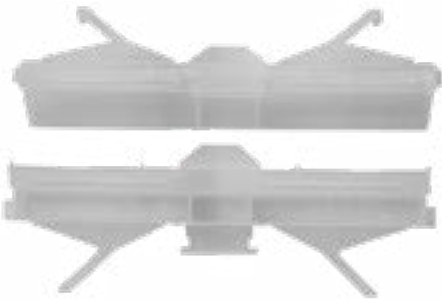

Mini-Mating Nucs are prime targets for the hive beetle. Fill the blaster with oil, and the beetles won't be able to get out of the trap.

Disposable Beetle Blaster

DC685	1 - 99	\$2.95
	100+	\$2.50

The all-natural way to trap the small hive beetle. Simply fill the trap with our Beetle Blaster Oil and place it between 2 frames. The beetles go in and can't get back out. You can change them out as often as necessary, even during a honey flow! Traps are disposable.

Beetle Jail Baitable

DC695	1 - 24	\$5.95
	25+	\$4.95

This 7" reusable beetle trap hangs between frames. The 2 end compartments hold oil. The middle bait compartment can be closed so beetles cannot reach it but can smell the bait, putting them in jail. Easy to clean and reusable.

Beetle Blaster Oil

DC687	Pint (473.12 ml)	\$14.95
DC686	Quart (946.24 ml)	\$19.95

Our own special blend will attract beetles better than plain oil! Pint fills 23 traps; quart fills 47 traps.

A HEALTHY HIVE IS A HAPPY HIVE!

Keep your hive buzzing! Get treatments and preventatives for wax moths and tracheal mites!

BEST SELLER

Provides ultimate protection against wax moths

Para-Moth® Wax Moth Control

DC130	1 lb (454 g)	\$31.95
DC131	5 lb (2.27 kg)	\$89.95
DC132	35 lb (15.88 kg)	\$289.95

Para-Moth® is used to control wax moths in stored supers. Simply stack 5 deep supers or 9 shallow supers, then set a paper plate with 3 ounces (85.04 g or 6 tablespoons) on the top bars of the uppermost super, and cover with a tarp. Equipment should be aired for several days before use.

Do not use in an active hive, cut comb honey or unextracted combs of honey. Not available for use in Alaska, California or Hawaii.

Certan

DC855	5 oz	\$41.00
-------	------	----------------

A preventative treatment that controls wax moths. It is safe to use, harmless to honey bees, and is an environmentally friendly treatment that contains a concentrated solution of *Bacillus thuringiensis*.

Mite-A-Thol

DC215	1 lb (454 g) bag - 8 Treatments	\$53.95
DC250	10 - 50 g packets - 10 Treatments	\$55.75
DC220	45 lb (24.91 kg) box - 408 Treatments	\$1,885.75

A feed enhancer that combines natural bio-active ingredients which promote intestinal well-being and improved colony strength. A recent trial performed by the Hellenic Institute of Apiculture, Greece (November 2012 to June 2014) compared 20 colonies with Hive Alive™ activated syrup against 20 colonies fed ordinary sugar syrup. The trial showed that routinely feeding Hive Alive™ to bees nearly doubled (+89%) in colony population in comparison to ordinary sugar syrup when used biannually.

AN ESSENTIAL MICROBIAL SUPPLEMENT FOR YOUR BEES!

PRODFM

Proudly made by
MANN LAKE

Microbial Supplement

Bees' immune systems deteriorate due to constant exposure to pesticides, fungicides, herbicides, and antibiotics. ProDFM restores healthy bacteria, revitalizing their immunity.

All natural formula with 10 probiotics that reduces infection rates and critical colony diseases.

Restores bees' healthy bacteria, revitalizing their immunity.

Safe for bees with no harmful residues. Backed by science.

Just sprinkle over the top bars of the brood chamber!

- ✓ Increased detoxification of pollutants and harmful chemicals.
- ✓ Revitalizes gut after times of stress such as transport and commute out of winter weather.
- ✓ Promotes digestion to better handle pollen dearth.
- ✓ Creates stronger, more robust colonies going into winter.

ProDFM Microbial Supplement

DC144	3.5 oz (100 g)	10 treatments	\$22.95
DC145	35.3 oz (1 kg)	100 treatments	\$99.95
DC143	22 lb (10 kg)	1,000 treatments	\$499.95

FOULBROOD TREATMENT

NOTE: Federal law restricts medicated feed containing this veterinary feed directive (VFD) drug to use by or on the order of a licensed veterinarian. We will contact you to obtain your VFD prior to the shipping of your order.

VFD Required

Includes measuring spoon

Terra-Pro

DC550	1 lb (454 g)		\$19.95
DC560	10 lb (4.53 kg)		\$39.95
DC570	40 lb (18.12 kg)	1+	\$139.95
		24+	\$129.95

Terra-Pro is a medicated feed mix that contains Terramycin™, Bee-Pro®, sucrose, and other vitamins and minerals. It is recommended as an aid in the control of American and European Foulbrood. Terra-Pro should be fed early in the spring and fall and should be consumed by the bees before the main honey flow begins.

For spring treatment, use 2 level tablespoons (approx. 200 mg of Oxytetracycline) of Terra-Pro mix around the edges and ends of brood frames and top bars of the brood chamber. Fall treatment consists of 2 level tablespoons of Terra-Pro around the hole of the inner cover of the hive. Three applications at 4 - 5 day intervals in spring and fall are needed. Comes with a convenient measuring spoon.

BEST SELLER

Terra-Patties Terramycin Extender Patty Mix

DC500	45 lb (20.38 kg) pail	1 - 11	\$139.95
		24+	\$157.50

The most effective way to control foulbrood. Assures proper dosage, prevents sub-lethal dose, and prevents rapid degradation of Terramycin™ over other types of applications (dustings or in syrup), made with proper Terramycin™ registered for bees. Research has shown that Terramycin™ in Terra-Patties® stays at full strength for up to 6 months. Patties should be applied as early as possible before a pollen or nectar flow. Best consumption attained when an alternate feed source is not present. Remove 14 days prior to honey flow. Terra-Patties® can be applied in fall for overwintered colonies or early spring.

VFD Required

Veterinary Feed Directive (VFD)

To address European Foulbrood in their colonies with antibiotics, beekeepers need to acquire a veterinary feed directive or prescription from their veterinarian. The veterinarian must establish a veterinarian-patient-client relationship (VPCR), a requirement similar to that for any other animal requiring antibiotic treatment.

Healthy hives are protected hives.

Terramycin 100MR **\$630.00**

DC102
Use this highly concentrated product to treat and prevent American/European Foulbrood. Mix 1 lb TM100MR to 29 lb of baker's blend sugar. 50 lb (22.65 kg) bag.

Purchase vaccinated queens and packages today. See pages 4-7 for details.

Vaccination of honeybees against deadly pathogens, like American Foulbrood, is an important step in protecting the health and welfare of honeybee colonies.

FUMIDIL-B

NOSEMA PREVENTATIVE & TREATMENT

- Only registered treatment for Nosema
- Promotes healthy bee packages for thriving colonies
- Helps control infection rate in winterized colonies

DC097	25g Bottle	\$18.95
DC098	500g Bottle	\$209.95
DC099	500g - Case of 12	\$1,999.95

TREAT DURING THE FALL SEASON FOR
INCREASED SURVIVAL RATES

ONLY REGISTERED TREATMENT FOR NOSEMA

Nosema is a fungal disease commonly found in honey bees

Honey bees consume nosema-causing spores from contaminated honeycomb or in interactions with other bees. Once consumed, the spores begin to germinate in the bee's mid-gut leaving the bee with nutrient loss and cell damage. The weakened bee is then more susceptible to disease and is also less productive.

One nosema spore can multiply into several million spores within one worker bee that can in turn, contaminate the hive and surrounding colonies.

**Package colonies treated with Fumidil-B produced 45% more honey than untreated colonies over a thirteen-year study. Moeller, F. E.1978. Nosema Disease—Its Control in Honey Bee Colonies. U.S. Department of Agriculture Technical Bulletin No 1569.*

VENTED SUITS & JACKETS

Ventilated beekeeping suits and jackets are cut generously, just like our Honey Maker® Bee Suits, offering the freedom of movement you need from your protective clothing. Our completely redesigned ventilated bee suit ensures you stay cool on hot days in the bee yards. The layered rubberized material is durable and made to last, making this line one of the best, preferred by the professionals.

✓ **FINE WOVEN NETTING MATERIAL**

The open netting on both the suit and veil allow the breeze to flow through so you can be more comfortable, even on the hottest of days.

✓ **GENEROUSLY CUT**

Vented Bee Suits are cut generously just like our Honey Maker® Bee Suits, offering the freedom of movement you need.

✓ **EXTRA POCKETS**

There are two chest pockets (one zippered), two side pant pockets, two hive tool pockets, two back pockets and reinforced fabric on the knees.

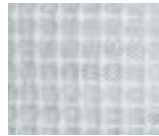

✓ **ADDITIONAL FEATURES**

There are heavy-duty, two-way zippers at the neck and chest for easy on and off and a self-supporting collapsible veil. They also have elastic at the wrist with an elastic thumb hold and heavy-duty zippers at the ankles.

BEST

Self-supporting Collapsible Veil

Helmets and Veils

We have the largest beekeeper's hat and veil selection. Practice safe beekeeping with our protective hats and veils. Our selection has something for every beekeeper, including children. Many of our beekeeping veils and hats have adjustable drawstrings and a loose fit, so everyone can wear them and practice safe beekeeping.

Pair our helmets with square or round veils.

Ventilated Mesh Helmets

CL137	Standard White	\$37.95
CL138	Standard Tan	\$37.95
CL154	Premium White	\$46.25
CL134	Replacement Headband	\$4.95

Ventilated mesh helmets are lightweight and allow a breeze to flow through. Helmets come with a built-in terry cloth sweatband and clips to help keep the veil in place on the helmet. Premium White Helmet is Made in the USA! Adjustable headband for a custom fit.

Plastic Helmets

CL130	White	\$16.95
CL155	Khaki	\$19.95

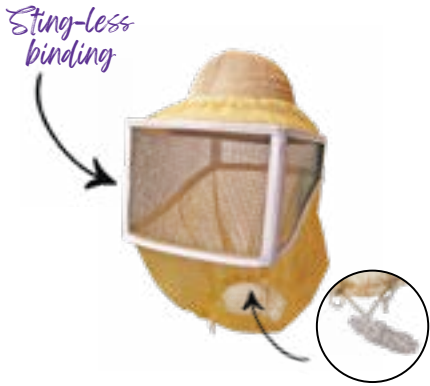

All-plastic helmet with an adjustable terry cloth headband inside. Side louvers allow for great ventilation.

Sweatband

CL240	\$1.95
-------	---------------

Keep the sweat out of your eyes. Self-adjusting elastic band holds sponge in place. Very absorbent.

Square Folding Veil

CL100 with Elastic	\$20.95
CL105 with String	\$20.95
CL110 with Zipper	\$27.95

The square veil is constructed of 10 mesh steel wire. Folds flat. Sting-less binding. Helmet required, sold separately.

Square Nylon Folding Veil

MV205 with Elastic	\$29.95
MV200 with String	\$29.95

The most durable square folding veil on the market. No kinks and no rust! Machine washable, this stiff nylon mesh veil will last season after season. Sting-less binding. Helmet required, sold separately.

Round Veil

CL121 with Elastic	\$22.95
CL122 with String	\$22.95
CL123 with Zipper	\$27.95

Our round veil with steel mesh is available with string, zipper, or elastic. A nice feature of this veil is there are no seams to inhibit vision. Sting-less binding. Helmet required, sold separately.

Alexander Veil

CL115 with Elastic	\$26.95
CL120 with String	\$26.95

Similar in style to our round veil, except the Alexander Veil has a cloth top and is to be used without a helmet. Some prefer to wear a baseball cap with this veil. Cloth binding.

Pocket Veil with String

CL125	\$16.95
-------	----------------

The Pocket Veil offers a whole new level of convenience! Elastic at the top will fit onto any hat with a brim. The bottom has a drawstring used to tie the veil down. The netting is tightly woven making it great for gnats and mosquitoes as well. Folds easily to fit in your pocket. Great for Fire & Rescue applications, fits well over a fire helmet. Helmet required, sold separately.

Clear Vue Hat & Veil

MV300 with String	\$49.95
MV301 with Zipper	\$59.95
MV302 Child	\$49.95

This hat and veil combination is sturdy and is sure to last while also giving you the ultimate protection. Special tubing is used on the top and bottom to maintain form. The veil material is made of a high-quality poly screen that won't rust, tear, or wear out. Features an adjustable shock cord and locking cam to fit any head size. No helmet required.

Choosing the Right Veil for You!

Round Veils

- Better field of vision!
- Stays away from face (more sting resistant)
- Harder to Store (must store fully formed)

Square Veils

- More Compact!
- Square binding can block peripheral vision
- Easy to store (folds easily)

Hooded Veil with String

CL112	\$55.95
-------	----------------

The same style veil you find on our Honey Maker® and Cotton/Poly Hooded suits. Bottom has a drawstring closure that can be tied around your waist. No helmet required, but some like to wear a baseball cap with this style veil.

REMOVING YOUR HONEY EASIER!

HONEY BANDIT

- ✓ Clears supers faster and friendlier than anything else available!
- ✓ No unpleasant odor!
- ✓ All food grade ingredients!

Disclaimer:
A valid photo ID **MUST** be on file to ship an order with Honey Bandit.

Honey Bandit

Clears honey supers faster and friendlier than anything on the market! Same efficacy as Honey Robber without the harsh smell. A natural and non-toxic alternative, containing only food-grade ingredients. Available only through Mann Lake and our authorized dealers.

DC190	8 oz	\$19.95
DC191	32 oz	\$59.95
DC192	Gallon	\$219.95
DC194	55 Gallon drum	\$4,999.95

How to Apply Honey Bandit

Apply lightly to the felt side of the fume board, paying close attention to the edges where bees congregate. Smoke the bees slightly, remove the inner and outer covers then place the fume board on the hive felt side down and rotate so the corners of the hive are exposed, letting air flow through. Bees should be removed within 5 - 10 minutes. If bees are exiting the entrance in large numbers, you have applied too much. Remove the board and let some of the product evaporate off before reapplying.

Fume Board

HD155	10 Frame	1 - 95	\$20.95
		96+	\$19.95
HD156	8 Frame	1 - 95	\$20.95
		96+	\$19.95

Apply Honey Bandit or Honey Robber® to the felt underside of the fume board and place on top of the hive. The black corrugated top works to raise the temperature by 10°-15°F (5.56°-8.34°C), which increases the vaporization of your honey removal aid, making it work better and faster.

TIP: Apply a small amount of Honey Removal Aid to the felt side of the fume board in the shape of an "X" or "S". Place fume board on top of the upper super. Removal time will depend on temperature and humidity.

HONEY REMOVAL AIDS

When you're ready to start extracting, equip yourself with the tools to make it easier. Honey removal aids safely deter bees from the hive so you can safely remove frames and start extracting.

Honey Robber®

DC165	Pint	\$29.95
DC170	Quart	\$44.95
DC175	Gallon	\$159.95
DC180	5 Gallon	\$459.95
DC181	55 Gallon	\$3,149.95

A Mann Lake Exclusive! Use when you're ready to pull honey. Quickly move bees out of supers with just a few drops on a fume board! Whether it's cool or hot, morning or evening, you can count on Honey Robber® to get the job done. Contains the same active ingredient as Bee-Go® but works and smells better. No hazardous fee to ship pints, quarts, or gallons.

Pallet Covers

HD803	4 Way Pallet Cover	\$54.95
HD804	6 Way Pallet Cover	\$64.95

Perfect to put over your honey supers for the trip from the bee yard to the honey house! The sturdy vinyl-coated polyester material, elasticized hem, and grommets for tie-down make sure your honey isn't "eating dust" on dirt roads.

Hive Butler ST - Storage and Transport System

HH950	\$120.95
-------	-----------------

No time to extract? Store and protect your honey frames with this easy-to-use Hive Butler. Uniquely designed, this unit also functions as a transport system. Use the ventilated lid when collecting swarms, making splits, or doing hive inspections.

Single Hive / Super Carrier

MH100	\$59.95
-------	----------------

Move supers with ease with this Super Carrier. Constructed of heavy-duty steel tubing, this carrier will hold up to years of use! To allow room to operate, we recommend removing hive covers before using.

CLEAR THE BEES TO SAFELY EXTRACT

MANN LAKE

Fischer's Bee-Quick®

DC155	8 oz (.24 l)	\$25.00
DC160	Gallon (3.78 l)	\$220.00

A natural, non-toxic blend that moves bees out of honey supers while smelling pleasant to the beekeeper. Made with food-grade materials.

Bee Escape

HD665	\$5.25
-------	---------------

Insert into the slot on the inner cover and create a one-way door that allows bees to escape but prevents them from re-entering the supers. Place the inner cover with the bee escape beneath the super you want to extract. Bees will clear the super after 2 - 24 hours. Made of plastic.

Hive Drip Tray

HD246	\$34.95
-------	----------------

Use this Hive Drip Tray for uncapping and transporting honey supers. The hive box fits perfectly inside the tray, preventing honey from dripping on the floor. This Hive Drip Tray is made of heavy-duty, quarter inch-thick polyethylene, an FDA-approved food-grade material.

Conical Bee Escape

HD664	\$1.55
-------	---------------

A one-way exit door for your bees! It allows bees to exit, but not return. Perfect for constructing your own escape boards. Made of durable plastic.

Professional Bee Escape

HD105	\$12.95
-------	----------------

Clear your supers in as few as 4 hours! This simple, straightforward escape will have your supers cleared in no time! Simply attach over the hole of your inner cover and set it in place, escape side down, beneath the supers to be cleared. Note: Do not leave the escape in place for an extended period of time as the bees will eventually find their way back in. Inner cover not included.

Escape Screen

WW178	10 Frame	\$20.95
WW385	8 Frame	\$20.95

Works faster and better than a traditional plastic bee escape! Avoid the fumes of chemicals and safely vacate your hive by placing the screen below the supers you want to empty. Ships assembled.

Yard Aprons

CL260	Canvas	\$19.95
CL261	Weathertek	\$69.95

Stay clean in the honey house with our sturdy yard aprons. Available in economical canvas or our waterproof Weathertek material. Features extra reinforcement on the front and elastic around neck, waist, and legs to ensure a secure fit.

Uncapping Punch

HD467

Uncap faster than ever! Constructed of stainless steel and food-grade plastic, this 4" uncapping punch will speed up your operation and reduce excess wax cappings!

\$12.95

Uncapping Scratcher

HD466 Stainless Steel

\$14.95

HD465 Economy

\$7.95

Our Uncapping Scratchers are perfect for uncapping frames and for checking drone brood for varroa mites by simply pushing it into the capped cell and lifting out the white drone larvae to easily see any mites. Color may vary.

Uncapping Scratchers

HD403

\$9.95

HD406

\$14.95

These stainless steel uncapping forks are great for uncapping areas of the frame that cannot be reached with an uncapping knife. The ergonomic design and sharp tines on the forks making uncapping a breeze!

Uncapping Knife with Digital Control

HD405 120 v

\$99.95

This Uncapping Knife has a digital control built right into the handle for easy control of the knife's temperature, anywhere from 50°C (122° F) to 180°C (356° F). Comes with 120 v cord which measures 52".

Electric Uncapping Plane

HD430 110 v

\$259.95

HD432 220 v

\$277.95

Includes an adjustable heated copper cutting blade. On/off switch built into cord. 220 V ships without an electrical plug.

Plastic Uncapping Storage Tank

HH231 Tank

\$199.95

Multi-purpose uncapping and straining tank. Stores up to 10 deep, medium, or shallow frames for uncapping with a convenient lid for storage. Features a metal strainer grid that fits in the bottom. This dual unit stacks one way for uncapping or can be reversed to become a strainer tank holding 8 gallons. Comes complete with honey gate!

Uncapping Knife - 120 V

HD402

\$99.95

Easily uncap your honey! Features a set thermostat. Simply plug in, let it warm up for a few minutes, and you're ready to uncap!

Plain (Non-Electric) Knife

HD420 Plastic Handle

\$8.95

HD437 Wooden Handle

\$29.95

These knives are an inexpensive way to get started. Heat by immersing in boiling water.

Combcapper

HD461

\$39.95

Low-cost alternative to uncapping units! Fits any standard 5 gallon (18.92 l) bucket and can hold shallow, medium, and deep frames. Underside recessed arch provides added stability. Hands-free capability! Dishwasher safe. Made in the USA. (Frame and bucket not included)

Speed King Electric Uncapping Knife

HD410

\$175.95

Includes a high-watt density heater sealed right into the knife. Contains an 8 ft grounded cord, 120 V. 450/500 W. Includes 2-year manufacturer warranty.

Uncapping Knife with Control Unit

HD415

\$192.95

This well-balanced long-lasting electric knife has a high watt density heater sealed right into the knife! Contains an 8 ft grounded cord, 120 V. 300/350 W. Includes 1-year manufacturer warranty.

Wire Frame Holder

KH233

\$41.95

Reliably hold more frames of honey if you are uncapping more than 10 frames at a time. Fits into our Plastic Uncapping Tank (HH231).

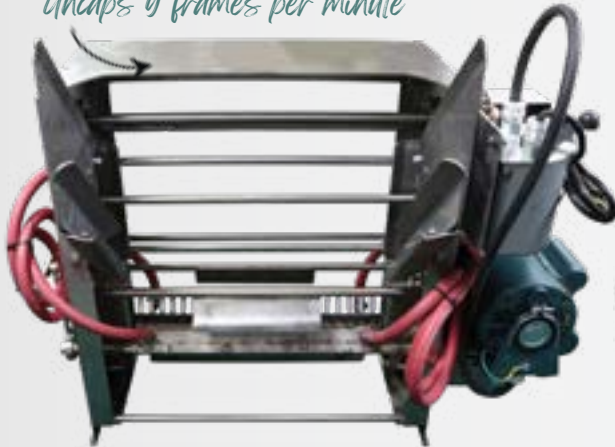

FREE SHIPPING ON MOST ORDERS \$150+

MOTORIZED UNCAPPERS

We carry everything from commercial motorized chain uncappers to electric uncapping knives, Junior Capping Spinners, and replacement parts (available online). Most uncappers hold shallow, medium, and deep frames, plus they are a simple solution to your beekeeping needs. No matter what type of beekeeper you are, whether you're a hobbyist or a professional, there is an option for everyone.

Uncaps 9 frames per minute

Silver Queen Uncapper

HH230

\$9,603.00

The Silver Queen Uncapper is made out of 12-gauge stainless steel, which is ideal for use in your honey extracting operation. A ½ HP1725 RPM capacitor motor drives the gears and knives for a smooth and streamlined uncapping process. Also included are chain lugs to prevent jams and slipping combs. Requires steam or a hot water source.

Holds 10 frames!

Stainless Steel Uncapping Tank with Strainer

HH187 Original (24 ¾" x 20" x 32")

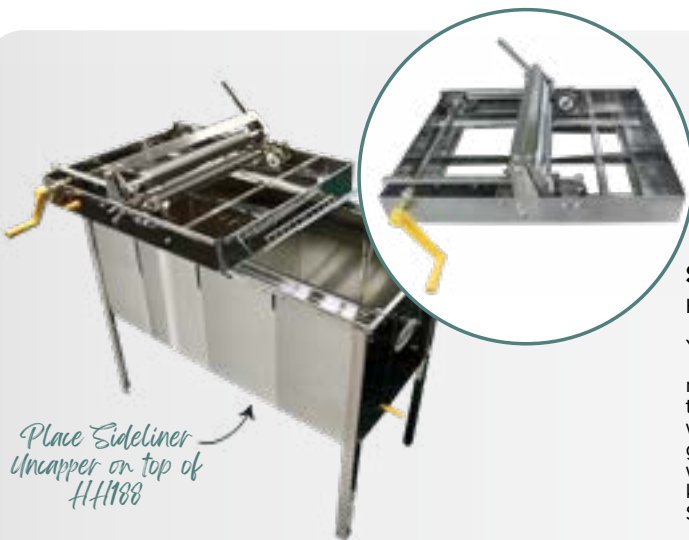

\$661.45

HH188 Large Tank (41" x 20" x 34 ½")

\$839.95

Comes equipped with full lid, tray, strainer, legs, and honey gate underneath. Simply hang frames in the tray after uncapping and let drain until extracting time. Uncapping Tank with Strainer holds 10 frames. Large Uncapping Tank with strainer holds 20 frames.

Holds 20 frames!

Sideliner Uncapper

HH226

\$1,999.95

You'll certainly feel like royalty when you use this uncapper - no

more manually having to uncap frames, which means lots of saved time for you! Constructed of 12 gauge stainless steel, this machine will uncap 9 frames per minute - about 60 hive bodies an hour! The gravity-slide feeder holds 4 frames and feeds them into the uncapper with clock-like precision. The uncapper also features stainless steel knives, channels, shafts, and crossbars. Pair with HH188 Stainless Steel Uncapping Tank with Strainer

Place Sideliner Uncapper on top of HH188

Uncaps 10 frames per minute

Motorized Chain Uncapper

HH227

\$4,599.00

Say goodbye to uncapping knives. Our chain uncapper strips the wax cappings at only 5 second per frame and is powerful enough to uncap over 120 frames an hour. Chain reels are adjustable. Legs assembled by user. 110 volt. 27¾" x 30" x 41½". 125 lb

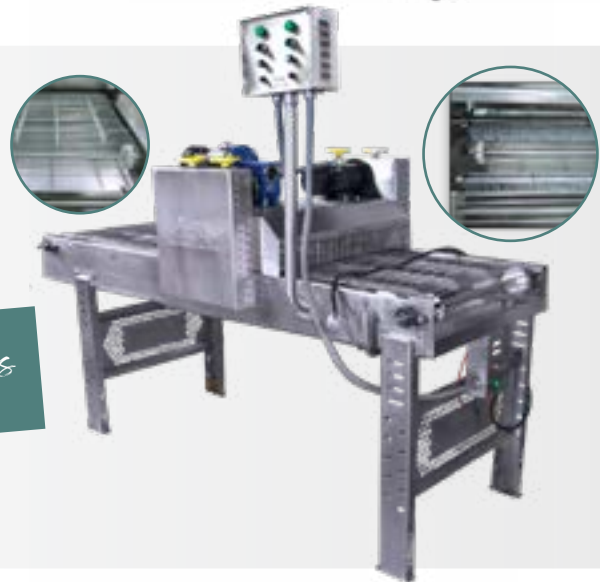

Commercial Motorized Chain Uncapper

HH225

\$9,449.95

- 100% Stainless steel construction
- Adjustable cutting depth during operation
- Variable speed control

 - Plastic Uncapping Scratcher
 - Filter for 5 gallon pail

ECONOMICAL EXTRACTING

Get started with our budget friendly, heavy-duty, and easy to use extractors! Don't forget your accessories to make your extracting process easier and cleaner!

3 Frame Stainless Steel Side Hand Crank Extractor

HH940

\$249.45

Stainless steel design! Holds 3 standard deep, medium, or shallow frames. Easy to Use - Insert frames and crank the side handle to spin. Easily open honey gate valve by loosening wing nut and lifting. Reduce debris during process and view extraction with plastic top lid. Stainless steel legs keep the barrel off the ground and make it easy to drain.

Stainless Steel 6/3 Frame Hand Crank Extractor

HH161 Extractor Stand

\$49.95

For use with the HH130 extractor, this stainless steel stand elevates the extractor 16" to allow for a 5 gallon pail to be placed under the honey gate.

9 1/8" & 6 1/4" FRAME PLACEMENT

6 1/4" FRAME PLACEMENT

2 Frame Plastic Extractor

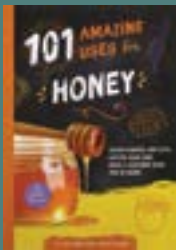

HH130

\$119.95

A perfect sized extractor for the beginning beekeeper at an extraordinary value! Constructed of heavy food-grade plastic with a steel shaft, plastic honey gate, and a plastic lid. Our durable handle is made of steel and can rotate in either direction. Extract 2 frames of any size at a time.

- High-efficiency crank
- UV stable food grade plastic
- Perfect size for the beginner!

Yard Aprons

- | | |
|------------------|----------------|
| CL260 Canvas | \$19.95 |
| CL261 Weathertek | \$69.95 |

Stay clean in the honey house with our sturdy yard aprons. Available in economical canvas or our waterproof Weathertek material. Features extra reinforcement on the front and elastic around neck, waist, and legs to ensure a secure fit.

BASKET STYLE EXTRACTORS

What are basket style extractors? Deep frames must be flipped during extracting to extract the second side. Medium and shallow frames are put side by side. Flipping on these two sizes is optional but is recommended for best results.

Deluxe 6/3 Frame Side Crank Extractor

HH190 **\$599.95**

- 26 gauge (.478 mm) stainless steel
- Side crank model with brake
- Legs are included
- Holds 3 deep, 3 medium, or 6 shallow frames
- 1.5" honey gate included
- 20" x 40" x 23"
- 49 lb

Motorized 6/3 Frame Extractor

HH200 **\$999.95**

- 26 gauge stainless steel
- Holds 3 deep, 3 medium, or 6 shallow frames
- Variable speed control unit
- Gear driven, 110 V motor
- 1.5" honey gate included
- 52 lb

Replacement Half Lid for 6/3 Frame Extractor

HH800 **\$20.95**

Replacement Half Lid for our 6/3 Frame Extractor.

8/4 Frame Basket Extractor

HH163	Motorized	\$1,499.95
HH165	Hand Crank	\$999.95
HH169	Replacement Half Lid	\$35.95
HH575	Food Grease	\$17.95

These 26 gauge (0.478 mm) stainless steel extractors hold 4 deep, 8 medium, or 8 shallow frames. Includes attached legs and a 1.5" honey gate. The Motorized extractor has a 110-volt, variable speed, gear-driven motor.

- Height with Legs: 41"
- Outside Dimensions: 21 1/4" W x 24"H
- Inside Dimensions: 20 1/2" W x 24" H

Don't Forget the Food Grease!

This 14 oz (396.90 g) tube of Food Grease is USDA approved and a must-have for every honey house!

RADIAL STYLE EXTRACTORS

What are radial extractors? Frames are placed in the basket like spokes on a wheel. This takes maximum advantage of the basket rotation and extracts both sides of the frame at once.

BEST SELLER

Perfect for the beekeeper with 10+ hives

Each leg is pre-drilled for easy mounting

Hand Crank Radial 18/9 Frame Extractor

HH170 Extractor **\$1,199.95**
 HH166 Motor & Conversion Kit **\$749.95**

- 26 gauge stainless steel
- Holds 18 shallow, 18 medium, or 9 deep frames
- Side Crank with 3/1 Turning Ratio
- 1.5" honey gate included
- Height on Legs: 39" Tall"

Features

Remove honey on both sides of frames with our 18/9 Frame Motorized Radial Extractor!

Holds 9 to 18 frames for faster honey extracting

Keep track of removal with the manual speed controller and timer

Stainless steel construction for durability

Motorized 18/9 Frame Extractor **\$1,889.95**
 HH215

- 90-volt, gear-driven motor with a max output of 320 RPM
- 115-volt variable speed control
- Holds 18 shallow, 18 medium, or 9 deep frames
- 25" x 24" x 39"
- 72 lb

Replacement Half Lid for 18/9 Frame Extractor **\$47.95**
 HH195

Replacement Half Lid for our 18/9 Frame Extractor.

Electric Honey Extractor **\$1,299.95**
 HH280

This extractor holds 18 medium or shallow frames. It will hold 9 deep frames with slight modifications. The lid must be removed to get the deep frames into the basket. 110V Motor. Replacement parts available.

- Comes with pump
- Auto speed control
- Foot activated braking system
- 7-10 minute cycle time
- Extractor Dimensions: 31" W x 60" D x 58" H
- Side Table Dimensions: 36" W x 84" L

Shown without Side Tables

RADIAL STYLE EXTRACTORS

What are radial extractors? Frames are placed in the basket like spokes on a wheel. This takes maximum advantage of the basket rotation and extracts both sides of the frame at once.

Commercial 48 Frame Radial Extractor

HH826 With Auger/Pump	\$7,795.95
HH926 Without Auger	\$6,824.95

- Stainless steel construction
- Tapered bottom with center drain on HH826 & side discharge on HH926
- Pump/auger for lateral honey transfer
- Manual speed control with timer
- 1 HP drive motor (DC)
- 1 HP pump/auger motor (DC)
- Unit only available with 220 V configuration
- 52 1/2" H by 45 1/2" W

Commercial 24 Frame Radial Extractor

HH813 With Auger	\$5,669.95
HH913 Without Auger	\$5,249.95

- Stainless steel construction
- Tapered bottom with center drain on HH913 & side discharge on HH813
- Pump/auger for lateral honey transfer (HH813)
- Manual speed control with timer
- 1/2 HP drive motor (DC) (HH913)
- 3/4 HP pump/auger motor (DC) (HH813)

AUTOMATE YOUR EXTRACTING!

Get the equipment that you need to make the extracting process easy so you can bottle up your sweet honey sooner!

Gravity Clarifying Tank

HH270	28 Gallon, Water Jacketed Tank	\$3,149.95
HH870	18 Gallon, Unheated	\$839.95

- 18 gauge (1.27 mm) stainless steel construction
- Standpipe and sight gauge included (HH270 only)
- Best used with a float switch
- 28 Gallon is 110 volt, 1700 watt and measures 18" x 10" x 60"
- 18 Gallon does not include a heater and measures 21 1/2" x 19 3/4" x 6 1/4"

Portable Propane Steam Generator

HH834 **\$2,099.95**

Provides continuous low-pressure steam making it perfect for use in extracting or uncapping. No electrical power is needed. 5 AMP. 301 CC. 22" x 22" x 43 1/2". 58 lb

GET CLEARER HONEY WITH FILTERS

FOOD GRADE PUMPS

*Pumps 6-9 gallons
per minute*

Progressive Cavity Pump

HP455	2 1/2" Inlet Complete Pump & Motor	\$5,299.95
HP456	2 1/2" Inlet PC Pump Only	\$2,935.95

This progressive cavity pump can be shipped complete and features include a 2" (5.08 cm) outlet, 1 hp electric motor, 3 way sheave and a plated steel base for mounting. Capable of pumping 6 - 9 gallons (22.71 - 34.07 liters) per minute.

*Pumps 18 gallons
per minute*

3" High Output Progressive Cavity Pump

HP380	3" Inlet Complete Pump & Motor	\$8,499.95
		\$8,448.25
HP382	3" PC Pump Only	\$4,829.95

Try our 3" (7.72 cm) inlet, 2 1/2" (6.35 cm) outlet progressive cavity pump. This unit uses a single phase, 5 hp motor with a frequency drive and a variable/reversible speed control. This pump features a double length stator for increased suction and a sealed gear box. Up to 18 gallons (68.14 l) per minute.

2" Stainless Steel Vane Pump & Motor

HP840	2" Off Stainless Steel Vane Pump and Motor	\$4,795.95
HP846	2" Off Stainless Steel Vane Pump and Motor - 3 Speed Control	\$5,999.95

All contact parts are stainless steel including the food-grade connectors so clean up is a breeze. The 220 V, 2 hp motor has a 2" (5.08 cm) inlet and outlet so you can easily pump 70°F (21°C) honey at 40 gpm (151.42 lpm). The impellers are made from UHMW and are easily replaceable.

Bronze Gear Pump

HP458	Rotary Bronze Gear Pump	\$1,049.95
HP459	with Overload Valve	\$1,099.95
HP476	with Motor	\$1,799.95
HP477	with Motor and Overload Valve	\$1,849.95

Economical choice! Pumps 6-8 gallons per minute at 1750 RPM with 90 degree Fahrenheit liquid. 1" Inlet and outlet. Available with or without a 3/4 hp motor; with or without an overload valve. Not for use with honey.

Honey & Syrup Pump

HP470	Pump Only	\$1,675.95
HP471	Pump with Motor	\$2,499.95

The gear pump has been designed specifically for pumping high viscosity liquids. This gear pump has a built-in relief valve with 1 1/2" ports. Pumps 6-8 gallons (22.71 - 30.27 l) per minute at 1750 rpm with 90° F (32°C) liquid.

Stainless Steel Cappings Worm Pump

HP839		\$5,795.00
-------	--	-------------------

The 18 gauge (1.27 mm) Stainless Steel Cappings Worm Pump is engineered to push cappings and honey into a settling tank or spinner. This 220 V positive displacement pump is food grade stainless steel, has an integrated control panel, tri-clover fitting with a 2" (5.08 cm) reducer and forward/reverse control switch.

EASY TRANSPORT

Hive Carrier

MH107 2-Person **\$92.95**
 MH100 Single **\$69.25**

Move hives and supers with ease! Constructed of heavy-duty galvanized steel tubing, these carriers will hold up to years of use!

E-Z Lift HiveTruck

MH105

\$659.95

With this ingenious steel hive truck, you can single-handedly move hundreds of pounds! By walking the cart into the first or second box of the colony, you can easily re-palletize, rotate boxes, or move bees.

4 Wheel Barrel Truck

MH101

\$1,152.00

Includes 10" x 2.5" heavy-duty solid tires, featuring 6" rear wheels. Other features include welded shoes, 1" steel axles, box frame construction, and an automatic spring-loaded chime hook. Its EZY-Tilt design makes shoes the fulcrum point when loading and unloading for easier breaking over and release of heavy load.

E-Z Lift 2 Wheel Barrel Truck

MH836

\$787.45

Moving barrels just got easier and more affordable! Built to last with a tip bar that allows virtually anyone to move a barrel.

Drum Snatcher

MH970

\$509.00

Use the pressure of loaded drum to move, stack, and palletize. For use only with standard 55 gallon (208.14 l) drums. For limited drum handling needs 800 lb (362.87 kg) capacity. Unassembled, can ship by FedEx. Does not qualify for free shipping.

Adjustable Barrel Grip

MH106

\$1,197.00

Features mechanically adjustable jaws that can handle drums ranging from 18" - 23". Jaws have a bonded rubber liner. Made of high-grade carbon steel construction. The safety chain secures grip to the mast. Jaws are spring and cam-actuated. 1500 lb capacity. Unassembled, can ship by FedEx. Does not qualify for free shipping.

BOTTLE HONEY FASTER

Save time bottling your honey! These honey fillers are convenient and easy to use!

*Fill containers from 8-32 oz
in one stroke!*

High Viscosity Piston Filler, Food Grade

PA160

\$2,782.45

We like this machine so much, we use it ourselves! Fill containers from 8 oz to 32 oz by adjusting the length of the stroke. Need to fill more? Fill larger containers using multiple strokes. Requires the use of an air compressor.

- Stainless steel construction
- All parts in contact with the liquid are food-grade
- Fully pneumatic operation
- Nitrile O-ring system
- Adjustable volumetric piston system with numeric reference display
- Extremely accurate (+/- 1%)
- No-drip filling head
- Sanitary stainless steel quick connect fittings
- Quick connect/disconnect pneumatic fittings
- Extremely easy to clean and maintain
- Air driven rotary valve

New for 2025

Honey Sticks!*

See how easy it is to make your
own sweet treats!

EZ Fill Honey with Turn Table

PA166

\$6,999.95

EZ Fill Honey with Turn Table combined with an automatic Turn Table makes an efficient honey filling combination. The pump head and table can be adapted for different glass jar diameters and heights. The stainless-steel table and rails divide the tabletop into two sections: a feeding side and collecting side. Empty jars are placed on the feeding side and are automatically guided under the filling nozzle. Full jars are guided into the middle of the table. You can fill about 400 16 oz jars in an hour.

- Honey doesn't have to be hot!
- The quickest way to bottle your honey!

Mann Lake EZ-Fill

PA100	EZ-Fill	\$4,094.95
PA093	Replacement Suction Hose per Foot	\$14.95
PA098	Foot Pedal	\$129.95
PA107	Release Handle	\$29.95
PA110	Micro Switch	\$114.95
PA112	Flange Gasket	\$5.95
PA113	Conical Fill Nozzle	\$19.95
PA115	Front Face Plate Gasket	\$7.95
PA122	Y Fitting	\$69.95
PA132	Small Seal	\$7.95
PA136	10 mm Filling Nozzle	\$14.95
PA138	10 mm Fill Pipe	\$120.95
PA139	15 mm Fill Pipe	\$120.95
PA140	17 mm Filling Nozzle	\$14.95
PA143	26 mm Filling Nozzle	\$14.95

The easiest and quickest way to bottle your honey! Completely programmable, this unit will fill within 3 grams of the desired amount. Honey or syrup does not have to be hot to flow through the fill head. The electronics are detached for convenient cleaning of the unit. This powerful, compact unit can even be used for speed seeding creamed honey. We don't call it EZ-Fill for nothing and the price is as easy on your wallet, too! Replacement Suction Hose sold per foot.

- 13 seconds to fill 1kg of honey!
- Doesn't need an air compressing pump!

Quick Fill Honey Filler

PA200

\$1,574.95

Convenient and efficient, this machine is a helpful hand for filling honey and royal jelly! Made of food-grade materials and great for outdoor use. There is no need for an air compressing pump or to rotate honey tanks. It pumps honey with only a pipe! It is applicable to liquid honey of 38-43 Baume degrees. Weight can be adjusted from 100g to 5kg. Manual and automatic modes are available to be switched. It only takes 8 seconds to fill 500g and 13 seconds to fill 1 kg of honey! 220 V or 120 V.

- 1" Stainless Steel No Drip Bottling Valve
- 110 V Electric contact heater provides steady, slow and even heat
- Perfect for "bottle yourself" applications, no exposed thermostat dials
- Average maximum temperature of 120° F (49° C)
- Use Filter Basket (HH385) and Filter Cloth (HH390), sold separately

2 YEAR WARRANTY 2 Year Warranty on HH350, HH360, HH365, and HH370 Steel Bottling Tanks

PAIL AND DRUM HEATERS

Briskheat® Drum Heater

HD355

\$283.50

Easy to use and cost-effective! Simply wrap the amazingly thin band around the drum, attach the spring fastener, plug it in (110 V), and set the attached thermostat. The thermostat adjusts from 50°F to 400° F (10° C - 204.4° C). The heavy-duty 4" (10.16 cm) wide heater has nickel-iron heating elements insulated with fiberglass and laminated between two layers of silicone rubber-impregnated fiberglass cloth with dense grounding grids. Fits 55-gallon drum, 6' (1.82 m) power cord, moisture resistant, chemical resistant, spring closure expands 3". 1200 watts. Liquid must be at least 4" above the band. TIP: For speed heating, use 2 heaters, place a piece of Styrofoam under the drum and cover with a Styrofoam box.

Only use with metal drums

*Shown with two heaters**

5 Gallon Pail Heater

HD358

\$179.95

- 120 Volt heats to 165°F (79.3°C)
- 6 ft grounded cord and junction box
- Adjusts from 9½" to 12" to fit 5-gallon buckets
- Bring honey from 70°F (21.1°C) to 125°F (51.67°C) in 6 hours
- Temperature cannot be adjusted.

Briskheat® 5 Gallon Pail Heater

HD359

\$262.95

- 120 V, 550 W
- Includes adjustable thermostat, Heats up to 160° F (71° C)
- 6 ft grounded cord and junction box
- Adjusts to fit 5 Gallon Drums at 11.1" in diameter. Spring closure can be expanded 3" for a maximum diameter of 12"
- Heater band: 4"
- *For use with 5-gallon metal drums only.*

40" Paddle/Spatula

CN224

\$59.95

This long-handled nylon spatula is great for cleaning up creamed or regular honey from tank walls. 40" L

Drum Heater

HD350 TRX 55

\$524.95

HD357 SRX-55

\$524.95

The TRX-55 Drum Heater requires a NEMA 5-20 outlet and is 120-volt, 1920-watts. The SRX-55 Drum Heater requires a 6-15 outlet and is 240-volt, 3,000-watts.

- 3 heat settings range from 60°F-250°F (15.6°C - 121.1°C).
- Liquefies honey or corn syrup.
- Diameter 22 ½" - 25"
- Does not come with a standard plug. Ships with 30 amp circuit plug.

Electric Immersion Heater

HD337 120V, 1,500 W

\$335.95

HD338 220-240 V, 3,000 W

\$335.95

(electrical plug not included)

For use in water-jacketed tanks only, these immersion heaters control temperatures from 60°F - 240°F (15.6°C - 115.6°C) with set screw.

Immersion Drum Melter

HD349

\$870.95

Immersion heater with a 20.8" base. The base is reinforced to prevent bending. Made of stainless steel. 1500 W, 240 V. Temperature control up to 194°F (90°C) with the dial. No electrical plug included. Note: This unit is not designed for use with honey or bottling units. Only use syrup.

Use This With Pro-Sweet!

This Electric Immersion Heater is perfect for use with syrup, so it pairs well with our Pro-Sweet!

Horizontal Wax Melter

HH815

\$6,595.95

Welcome to the future of efficient beekeeping with Mann Lake's state-of-the-art Horizontal Wax Melter. This powerhouse of wax melting is designed to transform your beekeeping operation, making wax recovery a breeze. Crafted from durable stainless steel with a stainless steel lid, our horizontal wax melter is built to last, ensuring years of reliable service in your apiary.

- 18 gauge (1.270 mm) stainless steel construction
- Water jacketed tank with " (1.27 cm) ball valve water drain
- 2 - 220 volt, 1500 watt heaters
- Stainless steel perforated screen
- Holds up to 400 lbs (181.44 kg) of wax 2" (5.08 cm) ball valve wax outlet
- Measures 49" x 44" x 53"
- Weighs 402 lbs

PROCESS WAX

We help make processing beeswax simple with our exclusive beeswax processing equipment that features various models and types. Each wax processing machine is easy to use and functional for daily usage. We also offer many different beeswax processing supplies including wax pans, food grease, wax retrieval screens, and more. We carry everything from industrial wax melters to commercial honey processing equipment and more. No matter what type of beekeeper you are—whether it's a hobby or a profession—we have the tools to help you become successful. Discover the difference in our high-quality beeswax processing equipment for yourself and find your go-to tools and supplies.

5 Quart Beeswax Melter

MD175

\$109.95

- 18 gauge (1.270 mm) stainless steel construction
- Water jacketed tank with " (1.27cm) ball valve water drain
- 2 - 220 volt, 1500 watt heaters
- Stainless steel perforated screen
- Holds up to 400 lbs (181.44 kg) of wax
- 2" (5.08 cm) ball valve wax outlet
- 49" x 44" x 53"
- Weighs 402 lbs

Did You Know?

Beeswax isn't just for candles, soaps, and chapsticks...
it's a powerhouse of natural versatility!

From practical applications to creative projects, the possibilities are endless. Polish wooden surfaces with a DIY wood polish made from beeswax and olive oil. Revitalize leather goods with a homemade conditioner that moisturizes and protects. Or even waterproof fabrics like canvas using a blend of beeswax and carrier oil for a water-resistant finish. Unlock the full potential of this incredible gift from your hive!

Wooden Solar Wax Melter

WW171

\$179.95

There's no better way to clean your beeswax than by using the power of the sun, and our wooden solar wax melter is perfect for the budget-conscious beekeeper! A great way to melt down small amounts of wax cappings that accumulate in the hive and need removing.

- Assembly Made Easy
- Efficiency Tip
- Melting Time Under Solar Power
- Ensuring Purity in Melted Wax

16 Gallon (60.5 l) Wax Melter

HH351

\$1,699.95

- Large double-boiler
- Water jacketed tank with " (1.27cm) ball valve water drain
- 1500 Watt, 110 Volt
- Stainless steel perforated screen
- Holds up to 400 lbs (181.44 kg) of wax
- 2" (5.08 cm) ball valve wax outlet
- 49" x 44" x 53"
- Weighs 402 lbs

30 Gallon Wax Melter

HH361

\$1,999.95

Our 30 Gallon Wax Melter acts as a big double-boiler providing safe heating for wax and other sensitive products like soaps or syrups. This slow, indirect heating prevents discoloration when melting wax and allows you to accurately control the temperature.

- As a wax melter, the unit comes with a ball valve.
- Use HH386 Filter Basket and HH395 Filter Cloth *sold separately*.
- Immersion heater size: 1500 Watt, 110 Volt

FREE SHIPPING ON MOST ORDERS \$150+

REMOVE MOISTURE FROM HONEY!

Honey Dryer - 330 lb
HH310

\$7,349.95

This honey dryer is specialized to remove excess moisture from bulk batches of honey by using hot dry air.

- Max capacity of 330 lb (150kg)
- Minimum capacity of 155 lb (70 kg)
- Uses a moving disc bank to rotate honey for even moisture control
- Complete with thermoregulator, fan, and dry controls
- Uses 230 V plug only, not included.
- 54½" x 41½" x 24¾". 264.6 lb (120 kg)

*Rotates honey
for even
moisture control*

Honey Dryer - 770 lb
HH311

\$9,999.95

This honey dryer is specialized to remove excess moisture from bulk batches of honey by using hot dry air.

- Max capacity of 770 lb (350 kg)
- Minimum capacity of 286 lb (130 kg)
- Uses a moving disc bank to rotate honey for even moisture control
- Complete with thermoregulator, fan, and dry controls
- Uses 230 V plug only, not included
- 56½" x 41½" x 37⅞". 551.16 lb (250 kg)

HONEY TOOLS & TESTING

Our honey tools and testing equipment selection is filled with reliable, durable, and long-lasting tools to help you through your beekeeping process. We carry everything from color graders and digital refractometers to calibration fluid microtubes and many other options. All of our honey testing equipment and honey tools are simple to use.

Don't forget the calibration fluid

High Quality Metal Refractometer

- HH670 Refractometer **\$83.95**
- HH585 Calibration Fluid Microtube **\$10.95**

This refractometer combines affordability with high-quality accuracy! Measures moisture from 12% - 27% and works in any strong light. Features a rubber grip and comfortable eyepiece.

This is the one to buy for a quality look, feel and function at a bargain-basement price! Not pre-calibrated. Calibration fluid is sold separately.

Misco Palm Abbe Digital Refractometer

- HH685 **\$399.95**

Fast, convenient, and easy to use! The two-button interface makes it user-friendly; one button takes the reading while the other allows you to step through various menu options. Requires 2-AAA batteries, included.

Color Designations of Extracted Honey (USDA)

USDA Color Standards	Color Range USDA Color Standards	Color Range Pfund Scales (mm)	Optical Density
Water White	Honey that is Water White or lighter in color	8 or less	.0945
Extra White	Honey that is darker than Water White, but not darker than Extra White in color	Over 8 to and including 17	.189
White	Honey that is darker than Extra White, but not darker than White in color.	Over 17 to and including 34	.378
Extra Light Amber	Honey that is darker than White, but not darker than Extra light Amber in color.	Over 34 to and including 50	.595
Light Amber	Honey that is darker than Extra Light Amber but not darker than light Amber in color.	Over 50 to and including 85	1.389
Amber	Honey that is darker than light Amber, but not darker than Amber in color.	Over 85 to and including 114	3.008
Dark Amber	Honey that is darker than Amber in color.	Over 114	

Jack's Color Grader

- HH649 **\$62.95**

A simple, efficient, and easy way to grade honey, the Jack's Scale Color Grader provides an effective method for grading honey for any beekeeper.

Comes with 4 honey sample cups, a durable plastic color chart, and detailed instructions. An inexpensive alternative to digital color graders. Laminated for easy clean-up. Includes Pfund equivalents (0 - 140 mm) and USDA color standard designations.

HONEY BOTTLING ESSENTIALS

BEST SELLER

Stainless Steel Double Sieve

HH440

- Stainless steel construction
- Double screens to progressively filter out debris
- Top filter measures in 20 meshes (841 microns)
- Bottom filter measures in 40 meshes (420 microns)

\$29.95

Set on top of a 5 gallon bucket with honey gate

5 Gallon Pail Filters

HH380	Filter bag	\$9.95
HH441	Coarse Filter (600 micron)	\$9.95
HH442	Medium Filter (400 micron)	\$9.95
HH443	Fine Filter (200 micron)	\$9.95
HH444	Filter Set	\$24.95

Economically filter honey with these pail filters, bag, and 5 gallon bucket. Don't forget a filter bag must be used with a filter basket to keep it in place. Choose the microns filter that you desire to offer a more clarified or less filtered honey!

Bucket Bench Pail Perch

HD628 Plastic

\$29.95

Easily transfer your honey with this Bucket Bench Pail Perch. Fits 2, 3½, 4, 5, and 6 gallon pails. Easy to assemble and made of a structurally durable glass-filled polypropylene resin. Dishwasher safe

HH380 pail filter is not included.

Pail Filter Stand

HD624

\$35.95

HH380 Filter Bag

\$9.95

Fill more of your pails with honey! It elevates any filters so honey can fill to the top of your pails. Fits 3 1/2 and 5 gallon pails. Adds 5 5/8" to your bucket. Total height with a 5 gallon bucket: 19 7/8". Total height with a 3 1/2 gallon bucket: 15.75". Bucket and filters not included, sold separately.

Honey Gate

HH606 Plastic

\$19.95

The plastic honey gate is 1.5" and fits in a 2" hole.

Polyester Strainer Cloth

HH560 1 Yard (.91 m)

\$13.95

HH561 Per yard (Uncut 3 yd minimum)

\$10.95

Use alone or with the Stainless Steel Double Sieve (HH440) for straining impurities from your honey. This 72 x 68 count cloth is hand washable. 60" (1.52 m) wide.

Pail Opener

HH525 Plastic

\$8.95

Our one piece construction pail openers make opening pails of honey and buckets of medications a breeze!

5 Gallon Pail with Honey Gate and Filter Set

CN206

\$62.95

Try our pail filter system! Includes a food grade 5 gallon (18.92 l) pail with a plastic honey gate and a lid plus 3 reusable, hand-washable filters that recess down about 4" (10.16 cm) into the pail. The rolled edge of the filter keeps it in position on the pail. Includes 1 each of the 600 micron (coarse), 400 micron (medium), and 200 micron (fine) filters. Some assembly is required. The honey gate will need to be installed.

5 Gallon Pail with Honey Gate

CN205

\$39.95

This food grade pail is great for storing honey or filling honey containers! Some assembly is required. The honey gate will need to be installed.

Easy Lid

CN194

\$15.95

Our Easy Lid converts plastic buckets into airtight storage containers! Made with BPA free, FDA approved food grade plastic. Fits any 12" diameter bucket. Color may vary.

Melters for Smaller Jobs

Melts honey, wax,
and more!

Choose 16 or
30 Gallon!

Wax Melter

HH351	16 Gallon (60.5 l)	\$1,699.95
HH361	30 Gallon (113.53 l)	\$1,999.95

Easily melt your wax! Our melter acts as a big double-boiler, providing safe heating for honey, wax, and other sensitive products like soaps or syrups. Ball valve included.

5 Quart Wax Melter

MD175 **\$109.95**

An economical and easy way to melt your wax in 30-90 minutes. Includes an attached valve for easy removal of wax. We recommend using a Polyester Strainer Cloth (HH560) or another semi-heat resistant filter to filter your beeswax. Sold separately.

5 Gallon Pail Filter, Extra Fine

HH380 **\$9.95**
Extra Fine 5 Gallon pail filter. Fits snug around the top of a 5 gallon pail. Fine material catches the little imperfections that are left in your honey.

Wooden Solar Wax Melter

WW171 **\$229.95**

This wax melter is perfect for the budget conscious beekeeper! A great way to naturally melt down small amounts of wax without a direct heat source. Tip: Paint the melter black to increase efficiency! Ships assembled, just attach legs with screwdriver. Made of wood.

High Density Wax Pan

HD732 **\$56.95**
Constructed of extremely durable material, this high-density, rigid pan will hold up to 35 lb (15.88 kg)! This is the wax pan of choice.

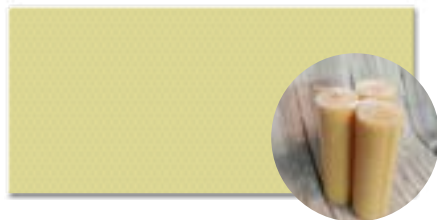

*Don't Forget Your
Wax Pans!*

Wax Pan

HD730 **\$27.95**
Made of heavy-duty, semi-flexible plastic. Ideal for processing 20 lb (9.07 kg) blocks of crude beeswax.

FN041	25 lb Cake Wax	\$229.95

Our beeswax has been filtered through a fine-grade filtering cloth to bring you the purest expression of what our bees have made. This also allows the natural color to shine through, a color that ranges from light, creamy yellow to a soothing, deep yellow-orange. This variety of color is due to many factors, including which nectar it came from and the age of the wax, offering you a natural variety of colors for your crafting needs!

Cotton Wicking

MD355	4/0 - 100 ft (30.48 m)	\$9.95

Did You Know?

Beeswax is a versatile natural substance with various uses beyond candles, soaps, and chapsticks. Here are some additional practical and creative applications:

Wood Polish: Create a natural wood polish by combining beeswax with olive or coconut oil to protect and polish wooden surfaces.

Leather Conditioner: Make a natural leather conditioner by blending beeswax with oils. Apply to leather goods for moisturizing and protection.

Waterproofing Fabrics: Use a mixture of beeswax and a carrier oil to waterproof fabrics like canvas, providing a water-resistant finish.

CANDLES MADE EASIER!

Whether you're a professional candle maker or trying it for the first time, you will love our easy-to-use Candle Flex Molds! Our durable and flexible molds last for hundreds of pourings, give you beautiful candles and ornaments time after time.

Step 1

Candle Flex Molds are made of a rubber material that is durable and gives you more detailed candles every time. To get started, first lightly spray your mold with Mold Release (page 140).

Step 2

Use a wicking needle to thread the wick through the hole in the bottom of the mold. Pull the wick so that it is about 6" (15.24 cm) longer than the top of the mold. Leave the wick at the bottom of the mold long, that way when you remove the candle, the mold will re-wick itself!

Step 3

Most molds have at least one cut in the side. Take the time to make sure that the seam(s) are aligned properly. This process will alleviate the need to repair a bad seam on your candle.

Step 4

Use the rubberbands included with your mold to secure the seams in place, readjusting if necessary after the rubberbands are in place.

Step 5

Secure your wick over the mold. Bobby pins or popsicle sticks work great for this purpose. You want the wick centered and straight but not too tight. A wick that is too tight or too loose will effect the way your candle burns. Pour your melted wax into the mold slowly.

Step 6

It's recommended to let your candle cool slowly. Once your candle is completely cooled, remove the rubberbands and pull the seam(s) apart. Remove the candle from the mold, and trim the wick at the top and bottom of the candle. Your mold is now wicked and ready for your next pouring. Use a metal pie tin on the stove to gently warm the bottom of the candle to flatten it out so the candle will sit level.

Congratulations,
you are now a candlemaker!

DIY BEESWAX LIP BALM

In addition to candles and soap, you can also use beeswax to make lip balm! Check out all of the great things that you can do!

Lip Balm Kit

NW100 **\$41.95**
 Create your own lip balms with our new Lip Balm Kit! Simply heat, stir and pour! An easy and inexpensive way to get started making a wide variety of lip care products.

Everything to get started!

Fun Project FOR KIDS

.15 oz (4.25 g) White Plastic Tubes w/Caps - 12 pack
 NW101 **\$6.25**
 Replacement .15 oz White Plastic Tubes with Caps 12 pack for the NW-100, Lip Balm Kit.

Shea Butter - 4 oz
 NW106 **\$7.95**
 Shea butter is perfect for use in making lip balm with nourishing and moisturizing properties.

1 lb (453.59 g) Cake Wax
 FN039 **\$16.95**
 Our cake wax can be used for almost anything, whether you want to use it to do DIY projects like skin care or for candle making! Made of 100% beeswax. 1 lb (453.59 g).

Sweet Almond Oil - 4 oz
 NW107 **\$7.95**
 Sweet almond oil is a popular base oil for massage, bath and skin care recipes for its skin-nourishing qualities, lush consistency and versatility.

Clear Plastic Cosmetic Jar with
 NW108 **\$7.95**
 These 5 gram clear plastic cosmetic jars are great for containing your homemade lip balms. Complete with lids.

Lip Balm Flavors .125 fl oz (3.7 ml)

NW102	Tangerine	\$2.95
NW103	Strawberry	\$2.95
NW104	Pineapple	\$2.95
NW105	Peppermint	\$2.95

Wax Pearls

NW525	Yellow - 20 lb (9.07 kg)	\$249.95

Did you know?
 Beeswax is one of the most flexible resources you receive from beekeeping. Not only can you make a variety of products like lip balm and soaps, but beeswax can also be used to waterproof your shoes or camping tents! Just apply a thin layer of wax to the surface you want waterproofed.

MAKE WINE AND MEAD!

Get everything that you need to start one of the fastest-growing hobbies in the United States!

Wine and Mead Making Kit

WM100 **\$189.95**

Our Wine & Mead Making Kit includes all the equipment you need to get started in one of the fastest-growing hobbies in the United States! This kit features all the necessary tools and containers you need for primary fermentation, secondary fermentation, racking, bottling, and cleaning. Bottles and nutrients are sold separately.

Kit Includes:

- 7.9 Gallon (29.91 l) Primary Fermenter with Lid and Grommet
- 6 Gallon (22.71 l) Glass Carboy
- Carboy Bung
- Siphon Hose with Shut-Off Clamp
- Triple Scale Hydrometer
- "Winemaker's Recipe Handbook"
- Double Lever Corker
- Econo-Lock
- Bucket Clip
- Racking Cane
- Bottle Filler
- Bottle Brush
- 30 Corks - #8 7/8" x 1 3/4"
- Easy Clean Cleanser

The Topsy Hive Mead Making Kit

WM150 **\$69.95**

Experience the art of mead making with The Topsy Hive Mead Making Kit. Whether you are a beginner or an experienced brewer, this starter kit has everything you need to craft a delectable mead that leaves a lasting impression.

Fermenting Bucket

WM101 7.9 (29.91 l) Bucket **\$39.95**

WM102 Lid **\$9.95**

Perfect for primary fermentation.

Glass Carboy

WM104 6 Gallon (22.71 l) **\$79.95**

WM108 Carboy Brush **\$9.95**

WM105 Universal Carboy Bung **\$2.25**

Used to contain fermenting wine. Compatible with our carboy bung (drilled to accept an airlock) and 38 mm lids.

Shut Off Valve for Syphon Tubing

WM112 **\$2.25**

Used with our Syphon Tubing, WW113, to stop wine flow.

Econo-Lock

WM106 **\$2.25**

This specific airlock will work for wine or beer. Just fill approximately half way with water. The water acts as an environmental barrier to keep bugs and other unwanted elements out of your batch, while still allowing gasses to escape the fermentation.

Auto Siphon

WM119 **\$19.95**

Used to easily siphon without disturbing any sediment. Makes the task of transferring fluid between different vessels quick and easy. A single pump is usually all that's needed to start the siphoning process. Its 2-piece construction makes it easy to clean. Compatible with 5/16" tubing (sold separately.) 2'.

24" (60.96 cm) Curved Racking Cane

WM111 **\$12.95**

A racking cane, also called a racking tube, is a rigid device that is approximately 1 to 2 feet long with an "L"-shaped bend at one end. The racking cane is used during the siphoning-off process when you are brewing.

Triple Scale Hydrometer

WM115 **\$9.95**

A hydrometer is an essential tool for every brewer and winemaker whether you're making mead, wine or beer. This economical hydrometer reads in three scales - Specific Gravity, Brix/Balling, and Potential Alcohol. Be sure to handle your hydrometer with care and do not boil. Lead free.

5' (1.52 m) Clear Syphon Tubing

WM113 **\$3.50**

Used to transfer wine.

Pick up your additives to make the perfect wine or mead!

WM200	Wine Making Acid Blend - 2 oz	\$3.25
WM201	Yeast Energizer - 1 oz	\$3.25
WM202	Yeast Nutrient - 2 oz	\$6.25
WM203	Bentonite - 8 oz	\$2.75
WM204	Tannin Powder - 1 oz	\$3.25
WM205	Lalvin Wine Yeast - 5g	\$2.25
WM206	Sodium Campden Tablet - 100 tablet	\$5.25
WM207	Pectic Enzyme - 1 oz	\$3.75

Double Lever Corker

WM118

\$25.25

The Double Lever Corker has two handles that allow for easy corking. Stabilize the bottle, then place the cork in the chamber and place the corker on top of the bottle and depress both levers.

Polyester Strainer Cloth - Per Yard

HH560

\$13.95

Use alone or with the Double Sieve for straining impurities from your honey. This 72 x 68 count cloth is hand washable. 60" (1.52 m) wide.

Winemaker's Recipe Handbook

BM868

\$6.25

This little booklet contains everything you need to know about winemaking. Easy to use and adapt recipes to your liking. Soft cover, 33 pages.

Wine Bottles - 750 ml

WM117 Clear Wine Bottle - 12/ case **\$34.95**

WM110 Corks 8 x 1 3/4" - 30/pk **\$8.50**

Our 750 ml (25.36 oz) wine bottles are perfect for all of your home-brew projects. Environmentally friendly, advanced lightweight glass technology delivers outstanding performance with fewer materials.

8 oz (226.8 g) Easy Clean Powder

WM109

\$6.50

Dissolve 1 tablespoon in one gallon of water. Perfect for cleaning beer and wine making equipment. Great for removing labels.

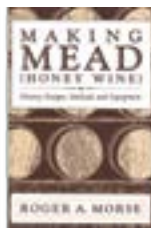

5 Gallon Pail Filter - Extra Fine

HH380

\$9.95

For use with the 5 gallon pail.

Making Mead

BM260

\$21.95

Dr. Roger Morse gives us traditional and historical recipes for an age-old beverage in this thorough, how-to mead making book. Soft cover, 127 pages.

Plastic Hydrometer Test Jar

WM103

\$8.95

Test your honey or syrup with this easy-to-fill jar! Max capacity: 8 fl oz Approximate testing amount: 6 fl oz

Bottle Filler with Valve

WM114

\$5.50

Uses gravity to shut off the liquid flow. Simply push the filler down on the bottom of the bottle until the beer or wine reaches the top, and after removing the filler, the perfect amount of head space is created.

Make Your Own Honey & Fruit Wine

INGREDIENTS:

- 2 lbs berries
- 2 1/2lbs Honey
- 6 Pints Water
- 2 tsp Acid Blend
- 1/2 tsp Pectic Enzyme
- 3/4 tsp Energizer
- 1 Sodium Campden Tablet, crushed
- 1 packet Wine Yeast

INSTRUCTIONS:

Wash and dry fruit and place in a strainer bag. Crush and drain out juice and place the bag with pulp in your wine making bucket.

Dissolve honey in warm water. Add all remaining ingredients, except yeast and cover.

In 24 hours, add yeast and cover.

Stir daily and press the pulp bag to aid in extraction of flavor.

Allow to ferment for 5-6 days before finishing in your glass carboy.

Bottle and enjoy!

For helpful wine making tips and more recipes, purchase BM868 Winemaker's Recipe Handbook.

DIY BEESWAX SOAP!

Honey Bee Soap Kit

Produces a set of 5 - 3.5 oz soap bars.

EDUCATION ON THE GO - SHARE THE LOVE OF OUR BEES!

Observation Hive

WW170

Make learning about bees up close and personal! Our Observation Hive lets you take a 5 frame nuc on the road to teach the intricate workings of the hive. Pull one frame up into the viewing area before you leave and when you get there just remove the viewing area shutters and watch your audience be amazed! The openings latch securely so there is no chance of your girls getting out to frighten anyone. Comes with the 5 frame nuc box, observation hive viewing compartment with shutters as the cover and an attached bottom board. Perfect for the classroom or showroom!

\$329.95

Observation window

Ventilation Screen

Holds 5 Frames!

Open to allow bees to exit and enter

Great for teaching in classrooms!
FILL WITH LIVE BEES!

Teaching Frames - Set of 10

BM275

\$99.95

Printed one-sided, this set of teaching frame inserts includes 20 photographs with corresponding descriptions that are laminated to a finished size of 16 7/8" x 8 1/2". Set frames in a deep hive body for the full experience!

Teaching Frames Inserts - Set of 20

BM270

\$69.95

Teaching Frame Inserts are 20 photographs with corresponding descriptions that are laminated to a finished size of 16 7/8" x 8 1/2" (42.86 cm x 21.59 cm.) The laminated photos can then be inserted back to back into an assembled 10 - 9 1/8" (23.18 cm) frames just like a sheet of foundation. Put those frames inside a hive body and you have a complete teaching hive that is easy to transport.

Easy Transport

Use one of our deep hive bodies to hang, store, and transport all of your teaching frames. To see the full list of teaching frames, visit our website:

TEXAS

WINDING CREEK APIARY & BEE SUPPLY

Store Address: 10417 Fm 1485 Conroe, TX 77306 | Phone Number: 936-537-1952

At *Winding Creek Apiary and Bee Supply LLC* and *Old Security Farms LLC*, we are on a quest to better the beekeeping community through outreach and education. We enthusiastically jump at the opportunity to teach the youngest of the potential beekeepers to learn from the most experienced old-timers. We teach common sense knowing there is not just one way to raise bees. Everyone has a different end goal, so we help by supplying proper tools and resources to be successful. We are a proud dealer for Mann Lake and several other manufacturers in the United States. We own and operate a 5600-square-foot store. We are a small commercial beekeeping operation and run around 600+ hives a year for 20-plus years. We sell bees, queens, and we sell different kinds of equipment. Every Saturday morning, we have free educational classes with complimentary donuts, coffee, and kolaches. We have everything you need at Winding Creek Bee Supply and Old Security Farms.

VIRGINIA

SCOTTSVILLE SUPPLY COMPANY

Store Address: 492 Valley St, Scottsville VA 24590 | Phone Number: 434-286-2145

At Scottsville Supply Company, we have the most complete line of beekeeping supplies in Central Virginia. We offer live honeybees (package bees, 5 frame nucs and queens) as well as beekeeping classes. Available in-store and online.

WEST VIRGINIA

THE HIVE HOUSE

Store Address: 108 S Princess St, Shepherdstown, WV 25443 | Phone Number: 304-261-8548

Whether it's locally produced nucs, spring packages, queens, education, or the best selection of supplies, The Hive House is the area's greatest resource for our community of beekeepers. We work to get you the best prices and quality of both equipment and bees. We love to share our experience to help others succeed. Swing by for the friendly help and service you need on your beekeeping journey.

FREE SHIPPING - Free shipping applies to most orders placed from this catalog over \$150 sent standard ground service by a carrier of our choice within the lower 48 states. The items included/excluded from the offer are subject to change without notice. Custom items not shown in this catalog may be excluded from the free shipping offer, items marked with  are excluded from the free shipping offer. Due to the ever-rising cost of outbound shipping, any order with back-ordered item(s) may be held until the back-ordered item(s) arrives. You are responsible for any small parcel, expedited, and/or freight/LTL costs for any items not eligible for our free shipping offer. Freight is figured by dimensional weight, call (866) 920-5750 for a freight quote. Next day, 2nd Day & 3rd Day Air shipments are available at an additional cost.

ONLINE ORDERS - Online orders placed after 4PM CST are processed the following business day. Web orders placed from Friday 4pm CST - Monday 8AM CST will not be processed until Monday at 8AM CST. Expedited order shipping times are subject to the carrier's daily pickup at the order's branch location warehouse. For more details on expedited shipping times please call us or visit our website's Shipping Information page. www.mannlakeltd.com/shipping-information/

CONVENIENT WAYS TO PAY - Visa, Discover, MasterCard, American Express, Check with Order, Check by Phone, Wire Transfer and PayPal*. (*Online only).

OVERPAYMENTS - Overpayments may be refunded or credited to your account.

INTERNATIONAL - Quotes on orders for export may include shipping, special packaging, and documentation at a customer's request. Please call us for quotes. All shipments for export are subject to prepayment in U.S. Funds. The customer agrees that they will be responsible for all product, shipping and destruction expenses if any ordered product is rejected by the importing country's customs agency. Quotes do not include duties, taxes, or other fees charged by the destination country.

ADDITIONAL CHARGES

For each Address Correction - \$15.00
For each Acknowledgment of Delivery - \$5.00
For each Call Tag Received - \$9.00
For each Live Bee Order Change or Cancellation - \$10.00
Fuel surcharge subject to change without notice.

STATE SALES TAX - When applicable, we are required to collect sales tax by law. Exemptions for sales tax will be allowed if you have either a signed Certificate of Resale or an Exemption Certificate. The tax forms vary by state, please call for details. Law requires that we have these certificates on file before any tax exemption may be applied.

SALES, FREIGHT & WARRANTY INFORMATION

WARRANTY - Mann Lake Bee & Ag Supply warrants its equipment to be free of functional defects in material and workmanship. If within 30 days of purchase you feel an item to be defective, please call us. You may be asked to return the merchandise in order to receive a refund. Refunds can include the purchase price along with all transportation charges if the product is found defective. Warranty does not cover damage to equipment arising from alteration, abuse or use of product for other than its intended purpose. Photos must be supplied for damaged product replacement.

DAMAGED FREIGHT - All merchandise is shipped "F.O.B. Shipping Point". This is a legal term that means all merchandise becomes your property as soon as we give it to the freight carrier. The freight carrier is responsible for complete and safe delivery of your merchandise. It is your responsibility to inspect the merchandise when it is delivered. If the freight carrier

fails to deliver your merchandise in good condition, it is your responsibility to note the damage before signing for it. Contact us immediately, so that we can file a claim with the carrier on your behalf. Photos of the package, shipping label and damaged merchandise are required to file a claim and receive a refund or replacement.

SPECIAL ORDERS - Special orders may require a deposit.

PICK UP ORDERS - A call before you stop by helps us serve you in a more timely manner. In most cases, we will have your order ready for pick up upon arrival, if given prior notice.

LIABILITY - Our liability is limited to the purchase price paid for any item. We make no warranty or representation, express or implied, except all products conform to the description provided by the manufacturer on sales literature or product labels.

RETURNED MERCHANDISE - If you need to return an item, we accept returns under the following conditions:

1. Contact us for a return authorization number.
2. Item must be in "like new" condition.
3. Item must be returned within 30 days of receipt.
4. Original receipt is required.
5. In most cases, a restocking fee of 20% will be charged. We cannot accept returns on hazardous materials.
6. Returns will be processed within 14 days of receiving the returned product.

REPLACING MERCHANDISE - When a situation occurs where Mann Lake Bee & Ag Supply is shipping another product to you as replacement for damaged or incorrect product, there will be an additional charge for the new product sent and a credit applied at time of the return of the incorrect product.

PRICES - Mann Lake Bee & Ag Supply will invoice all orders on the basis of prices which are in effect at the time of shipment. We reserve the right to change catalog prices if we deem it necessary. Please feel free to confirm prices at any time. Mann Lake Bee & Ag Supply is not responsible for typographical errors.

ORDER DISCREPANCIES - Check all orders immediately upon receipt and contact us within 10 days on any discrepancies.

PRODUCT SUITABILITY - Due to many state and local codes and regulations regarding sales, construction, installation and use of products for certain purposes, we cannot guarantee compliance in every situation. We attempt to assure that all products comply with state and local codes and regulations, so before you purchase and use a product please review both the product application and local codes and regulations. Be sure that the product, its installation and its use will comply with those codes and regulations.

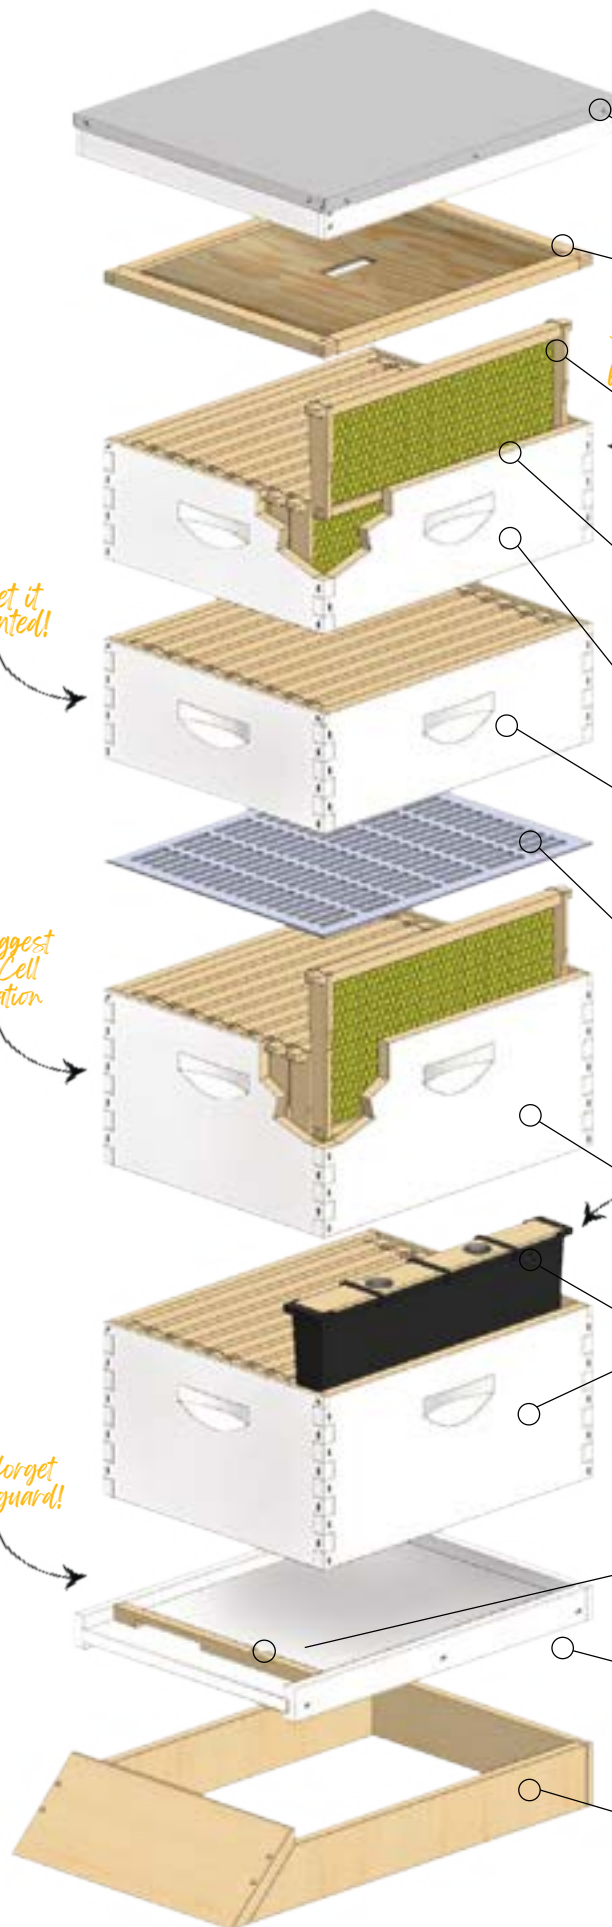

HOURS - Call or visit our website for store hours. Our phones are answered 7am to 7pm CST for ordering and customer service. Place orders by phone at 833-215-3040, by fax at 218-675-6156 or by e-mail address at beekeeper@mannlakeltd.com Orders may also be placed online at www.mannlakeltd.com

HOLIDAY CLOSINGS - We are closed New Year's Eve, New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and the following Friday, Christmas Eve and Christmas Day.

CREDIT CARDS - Mann Lake Bee & Ag Supply reserves the right to preauthorize credit and/or debit cards. No money leaves your account until the purchase clears but the hold is active until the actual transaction is settled. When there's a hold on your account, it lowers your available balance. Mann Lake Bee & Ag Supply is not responsible for overdraft fees resulting from the pre-authorization of your card.

Hive Guide

Telescoping Cover: Covered with heavy duty aluminum to protect your hive from the elements.

Notched Inner Cover: Creates dead air space which insulates against heat and cold.

Tight interlocking finger joints

Frame: Each frame consists of a top bar, bottom bar, and two end bars. Pieces are assembled to form a rectangle designed to support the honeycomb. Frame depth varies according to the size of the box used. Hive Bodies and Supers typically hold 8 or 10 frames. Frames also come in one-piece all plastic frame and foundation design.

Get it painted!

Foundation: Sheets of beeswax or plastic embossed with a honeycomb pattern placed in each frame to serve as a base for the bees to make honeycomb. We recommend using waxed Rite-Cell™ foundation p. 14

Medium Super: A 6 $\frac{5}{8}$ " (16.83 cm) wooden box containing 6 $\frac{1}{4}$ " (15.88 cm) frames which are used by the bees to store honey. These boxes can also be used instead of the 9 $\frac{5}{8}$ " (24.45 cm) hive bodies as a brood chamber or living area for the bees.

We suggest Rite-Cell foundation

Queen Excluder: A device made of plastic or metal which allows workers to pass through but excludes queens and drones; used to confine the queen to a specific part of the hive, usually the brood chamber, so she does not lay brood in the honey supers.

Add Pro-Sweet Liquid Feed Here

Hive Body: A wooden 9 $\frac{5}{8}$ " (24.45 cm) box containing 9 $\frac{1}{8}$ " (23.18 cm) frames which is used as the brood chamber for the queen to lay eggs. Some people prefer to use the 6 $\frac{5}{8}$ " (16.83 cm) size boxes for the brood chamber to reduce weight.

Pro Feeder: Takes the place of a frame (or two) and holds sugar syrup. We suggest filling your feeder with Pro-Sweet Liquid Feed p.61

Entrance Reducer: A notched wooden strip used to regulate the size of the bottom entrance

Bottom Board: The floor of the bee hive. An alternative option is the Varroa Trap with drawer for IPM* which, by removing the drawer, can be used as a screened bottom board for extra ventilation.

Hive Stand: A structure serving as a base support for a bee hive; it helps in extending the life of the bottom board by keeping it off damp ground. It also provides a landing area for bees.

Don't forget mouse guard!
